Stock List Recedes On Reduced Volume

New York — U.P. — Stocks receded for the third consecutive session today on reduced volume.

The actual trading figure exceeded Friday's session but the increase was entirely accounted for by heavy trading in American Motors which made up six per cent of all the dealings.

American opened on a block of 20,000 shares and at its high was more than a point above the previous close on reports Louis E. Wolfson was negotiating to take over the company. George Romney, president of American, denied this but the stock held a gain of around a point just the same.

Reexamination of UAW Funds Ordered

Washington — U.P. — The Supreme Court today ordered a reexamination of government charges that the United Auto Workers spent union funds illegally to influence the 1954 senatorial election.

By a 6 to 3 vote, the court sent the case back to Federal Judge Frank A. Picard in Detroit, who dismissed it without trial on Feb. 8, 1956.

Expenditures from general union funds to help political candidates are prohibited by the federal corrupt practices act. U.S. Solicitor General J. Lee Rankin told the court that Picard's original ruling rendered the statute virtually useless.

Justice Felix Frankfurter, speaking for Supreme Court majority, said Picard's "erroneous interpretation of the statute led him to stop the prosecution prematurely."

Chief Justice Earl Warren and Justices Hugo L. Black and William O. Douglas dissented.

Oswald West Urges Board of Control To Be Retained

Salem — U.P. — A former Democratic governor who was in office when the State Board of Control was created has come out strongly for retention of the three-member board and against efforts of some Democratic House members and Gov. Robert Holmes for its abolishment.

Former Gov. Oswald West lauded creation of the board to administer state institutions as "the best piece of legislation enacted in 50 years."

It had been asserted during a hearing on the bill that a Republican Legislature enacted the bill setting up the board to keep a rein on Governor West when he was in office.

"I supported that law when it was proposed a long time ago. Good government demanded creation of such a three-man control over the state institutions," West said.

"You may have good governors and competent governors and you may have incompetents — and I have seen a lot of all — and this three-man control is better than one-man control," he added.

The Board of Control is composed of the governor, secretary of state and state treasurer. Gov. Holmes had advocated doing away with the board and putting its responsibilities in the hands of the governor.

Chains Necessary On Oregon Routes

Salem — U.P. — Seven inches of new snow fell overnight at Timberline and Government Camp and motorists were required to use chains when traveling to those areas, the State Highway Department reported today.

Chains also were required at Warm Springs junction, with 4 inches of new snow; at Santiam pass, with 2 inches, and at Willamette pass, with 2 inches.

Chains were advised at Meacham, with an inch of new snow, and at Austin, with a trace.

The Crown Point secondary remained closed between Sandy river bridge and Stark street bridge. The Olds Ferry-Ontario secondary highway was closed at Malheur river bridge with traffic detouring via Payette and the Snake river bridge near Payette.

The Fremont highway was again open to all traffic. The Central Oregon highway also was open to unrestricted traffic with a few minor delays and one detour.

Nixon To Visit Haile Selassie

Addis Ababa, Ethiopia — U.P. — Vice President Richard M. Nixon flew here today for a two-day visit with Emperor Haile Selassie and a first-hand look at reports of Egyptian subversion against this ancient kingdom.

Torrential downpours have swept Addis Ababa for several days, and officials feared the rainy season might interfere with the reception arrangements.

Nixon is expected to discuss Ethiopia's recent request for additional aid as well as recent broadcast appeals by Cairo Radio for the Moslem areas of Ethiopia to break away from the Coptic Christian government and form a Moslem state. There also were reports Selassie has trained youths for subversive activities here.

Nixon, at a news conference before leaving Uganda, said international Communism had suffered a "very great setback" in the four nations he has visited so far — Morocco, Ghana, Liberia and Uganda.

He said Africa was a major target of Communism because of its tremendous resources and its 200 million people, but he said the Russian repression in Hungary had had a "tremendous effect" on the peoples of the nations.

The Board of Control is composed of the governor, secretary of state and state treasurer. Gov. Holmes had advocated doing away with the board and putting its responsibilities in the hands of the governor.

Justice Felix Frankfurter, speaking for Supreme Court majority, said Picard's "erroneous interpretation of the statute led him to stop the prosecution prematurely."

Chief Justice Earl Warren and Justices Hugo L. Black and William O. Douglas dissented.
