England Faces Transportation Strike

London—(U.P.)—A government tribunal today rejected wage demands by workers on the nationalized railways and a transport walkout appeared inevitable.

The national, already hit by a shipyard strike and an engineering workers crisis, appeared headed for its worst work stoppage since the general strike of 1926.

The Railway Staff National Tribunal recommended a 3 per cent wage increase for 370,000 railway workers. The workers had demanded 10 per cent. The Executive committee of the National Union of Railwaymen met and rejected recommendations. They called for an emergency meeting with British Transport commission officials to discuss what they called "the grave situation."

Vice President Richard M. Nixon, here on the last stop of his African tour, was caught in the middle.

The trouble began when the Tunisian government extended invitations to leaders of the bloody Algerian rebellion to come here from Cairo where they have directed anti-French activities in Algeria.

Look who upset the "Low-price" Applecart!

This one's had them rubbing their eyes ever since it landed smack in the middle of the "low-price" field! The handsome rebel you see right here is upsetting tradition right and left on what a modest budget should buy. It's pricing a big 122-inch wheelbase right down with cars from four to seven inches shorter! It's adding a big bonus of extra road-hugging height—and powering it with an all-new 347 cu. in., 10 to 1 compression ratio Strato-Streak V-8 for highest horsepower per pound in the field! A lot of might and muscle for sure—but it's gentled like nothing else on the road by Pontiac's exclusive Level-Line Ride and Precision-Touch Controls. And remember—the Chieftain's standards of luxury and quality were set by the same men who gave America the incomparable Custom Star Chief Catalinas. What we're leading up to is this: If smaller cars have gotten you down, you can actually buy a Chieftain Pontiac for less than 30 models of the "low-price three"! Why wait any longer to give your spirits and your budget the lift of a lifetime?
