MEDFORD (OREGON) MAIL TRIBUNE—SEVEN

Eisenhower Angrily Denies Helicopter For Golf Course Use

Washington — (U.P.) — President Eisenhower angrily denied yesterday that he plans to use helicopters to whisk him to the golf course.

It was one of his rare news conference displays of red-faced displeasure. He abruptly cut off a newsman who suggested that helicopters be used by the White House to expedite the presidential golf game.

The question was put to him by a reporter who wanted to know if Mr. Eisenhower, in the interest of reducing the federal budget, would be willing to give up the two helicopters which were to get the President to the golf course "a little faster."

Mr. Eisenhower's eyes blazed as he snapped that he did not think much of the question. No helicopters had been procured for him to go to the golf course, and that would be all.

Airport Revenue Last Month Totaled \$3,869

Revenue from Medford airport concessions totaled \$3,869.27, according to the February report of municipal activities. The total includes \$2,903.67 from building rentals and the remainder from land fees, gas and oil, the downs electrical service and miscellaneous concessions.

The report showed air traffic through Medford totaled 4,600 planes, including 685 air carrier, 3,863 civil, 48 Air Force, and four Navy.

A total of 2,795 passengers boarded commercial aircraft in Medford and 2,833 landed here during February. Mail shipments from Medford totaled 7,542 pounds, freight 8,778 pounds and express 1,115 pounds. Mail shipment arriving in Medford totaled 13,316 pounds, freight 6,551 and express 2,775 pounds.

Fire Department Report

During February the Medford fire department responded to 44 alarms, of which 25 were dwellings, four trash fires, one airport standby and false alarms, the report showed. The Medford rural fire district responded to six alarms four of which were for dwellings. Two were false alarms.

The fire marshal reported 50 inspections during February. Twenty-one of these were business occupancies, five apartment houses, four buildings of public assembly and three hospitals. The report showed that 104 orders and recommendations were issued for the removal of

Skeleton Circus Train Starts Tour

Sarasota, Fla. — (U.P.) — The circus train, a mere skeleton of its former size, was ready to leave winter quarters of the "Greatest Show on Earth" today without the frills and fanfare that once marked its annual departure on the spring and summer tour.

A few special railroad cars for animals and three coaches for a handful of performers made up the train which in past years included two full sections of more than 50 cars each. Other performers and circus officials already had left for New York by train, plane, car and bus.

Left behind in the 200-acre winter quarters of the Ringling Brothers, Barnum & Bailey Circus were about 100 silvery and red railroad cars, which were beginning to show the effects of heavy rains and the Florida sun.

The decline of the circus train is only one of many changes in the 1957 version of the "Greatest Show on Earth."

The big top is gone, lost in the middle of last season when owner John Ringling North pulled the circus off the road and said it would never again play under canvas. Large indoor arenas and a few baseball parks will form the stages for this year's show.

Woman's Faith in Man Is Restored

New York — (U.P.) — A Los Angeles woman had her faith in mankind bolstered considerable Wednesday.

Mrs. Alice Morris left her purse, containing \$2,035 and a quantity of jewelry, on the seat of a taxicab. The driver, Louis Firester, 43, found the handbag and took it to a police station. Police then traced Mrs. Morris to her hotel.

"I knew the bag would be returned," she said, "because the driver had an honest face."

She gave Firester a \$100 reward for his honesty.

GAME CALLED!

Howell, Mich. — (U.P.) — Long-time friends Mrs. Donald Kirby and Mrs. William Murphy like to do things together. They were playing bridge with their husbands when both were taken to a hospital where they gave birth to daughters.

Bend Junior College Proposal Approved

Salem — (U.P.) — A proposal to allow the Bend school district to call an election to give voters a chance to approve establishment of a full fledged junior college was approved by the state board of education here yesterday.

A favorable vote on the proposal by the school district voters would allow the school board to set up and maintain the first publicly maintained junior college in the state.

The proposal calls for the Bend school system to employ the staff and administer the school.

The board also voiced approval in principal of legislation which would allow it to operate Oregon Technical Institute at Klamath Falls without going through the division of vocational education.

Joint Memorial Passes Unanimously

Salem — (U.P.) — House joint memorial 4 calling for deepening and widening of the Columbia river channel from Vancouver, Wash., to The Dalles, was ready for the governor's desk today after passing the House unanimously late yesterday.

There was no debate on the measure which asks Congress to proceed with all possible speed to deepen the channel to 35 feet and widen it to 500 feet.

Rep. Katherine Musa, The Dalles, who with her senator husband, Ben Musa, sponsored the memorial, said improvement of the channel was vital for the welfare of the whole inland empire area especially since completion of The Dalles dam.

The memorial also passed the Senate unanimously.
