Chiloquin Man Admits Shooting

Klamath Falls—(U.P.)—A former Portland man faced a murder charge today after admitting the fatal shooting of his bride of four months. Her death a week ago originally had been listed as a suicide.

Bennie Raymond Belgard, 25, Chiloquin, admitted the shooting, according to Police Chief H. C. Smith of Chiloquin.

Authorities said Belgard had reported the death as a suicide last Monday. However, police were not satisfied with his explanation. Sheriff Murray Britton said subsequent tests by ballistic experts and photographs of the scene indicated it was improbable that the young woman, Maxine Walker Belgard, 20, had shot herself. She had been shot through the head with a .45 caliber revolver.

Deputy District Attorney Robert Nichols indicated Belgard would be charged with second degree murder. Belgard said in his confession that he and his wife had been riding around Chiloquin after a party when they argued. He said they scuffled and struggled for a .45 revolver on the floor of the car.

No Significance Seen In Reuther Purchases

Washington—(U.P.)—Sen. John L. McClellan (D-Ark.) said today Walter Reuther and some other top labor leaders bought household goods through Nathan W. Shefferman who purchased nylon, deep freezes and a gray boat for Teamster President Dave Beck.

But McClellan, chairman of the Senate Labor Rackets Committee, stressed to reporters that there is no evidence that Reuther or other leaders outside the Teamsters Union used union funds.

"I see no significance in it, in view of the fact that there is nothing in the committee files at present to indicate these purchases were paid for out of any union funds," McClellan said.

Attempts on Life Of Hussein Fail

Beirut, Lebanon—(U.P.)—Damascus Radio said today Jordan's security forces had foiled two attempts to assassinate King Hussein. The attempts apparently were Communist-inspired.

The broadcast coincided with reports from Amman that left-wing Premier Suleiman Nabulsi had resigned in a dispute with the young king over Jordan's move toward the left under Nabulsi's leadership.

The Damascus broadcast, quoting informed sources in Syria's capital, said King Hussein warned that Syrian troops will be expelled from Jordan unless Communist plots on his life are halted.

Syrian forces entered Jordan last fall after the Israeli invasion of Egypt. They are still there.

Damascus radio said the Jordanian security forces broke up two plots to kill the king, the last during recent celebrations marking the end of the 1948 treaty between Britain and Jordan.

Reports of Nabulsi's resignation were regarded in Lebanon as evidence the pro-western king was waging an all out struggle against the left wing forces trying to take his small kingdom into the Communist camp.

Israeli Corporal Tells of Shootings

Jerusalem, Israel—(U.P.)—Israeli Lance Cpl. Shoalom Ofer told a military tribunal Monday he killed 47 Arab villagers in small batches Oct. 29 because they failed to obey his orders.

Ofer's statement was read to a court which is investigating the deaths of the residents of the settlement of Kafr Kasim during the Israel drive into the Sinai Desert. The victims were reported to have violated an Israeli imposed curfew.

"I was told to open fire at 5 p.m. but did not until 5:20," he said. "Then 15 villagers riding bicycles approached. I stopped them and told them to dismount. They ran away."

"I and my two men opened fire. We killed them. A truck with villagers came. I wanted to escort them to the village, but they ran away. We shot them."

"Another truck came with seven or eight persons. The same thing happened. A truck came with four persons. The same thing happened. A wagon with five villagers came. The same thing happened."

His statement said he was only fulfilling his duty as he understood it.

Notices Criticize Rackets Probers

Portland—(U.P.)—Notices critical of Senate Rackets Committee members were found yesterday on tailgates of trucks at a Portland dock, according to members of the Teamsters Union.

The mimeographed notice was signed "Union Defense Committee."

One paragraph said "A depression is brewing, and the employers want to be able to pass the buck to labor with wage cuts, layoffs, speedup, canceled pension plan and no back talk."

Meanwhile, a group of local Teamsters said they would ask the executive board of the Joint Council of Teamsters No. 37 to call a general meeting from all locals affiliated with the council to discuss recent disclosures before the committee.

Maid Roms in Nude To Interest Boy Friend

Paris—(U.P.)—A Spanish maid caught running through Vincennes Forest naked as a wood nymph explained today that she just wanted to get her North African boy friend more interested.

Police said the woman, Jochina Goderich Mascarreras, 30, told them her boy friend had been growing cold of late and repulsed her advances during a walk in the forest. So she stripped "to get him more interested." The boy friend was not identified.

Briefs From the Legislature

Salem—(U.P.)—The Senate by a 16 to 14 vote has refused to reconsider Senate bill 124, which would have repealed the so-called anti-picketing law enacted by the 1953 Legislature. The Senate had rejected the measure Friday by a similar vote.

Salem—(U.P.)—The House passed unanimously a bill that would put the Oregon Industries for the Blind under federal social security coverage.

Ike To Barter Farm Surpluses

Washington—(U.P.)—President Eisenhower has won a fight in the Senate for power to barter U.S. farm surpluses to Russian satellite nations in return for strategic materials.

The authority was contained in overall legislation to increase from \$3 to \$4 billion the amount of farm surpluses which may be sold abroad for foreign currencies.

The measure, which passed the Senate Monday by voice vote, now goes to the House.

Before the final vote, the Senate defeated 54 to 23 an amendment by Senate Republican leader William F. Knowland that would have left in effect a current ban on such barter deals with iron curtain nations. Foreign currency sales to such nations still would be prohibited.

The bill also would raise from \$500 million to \$900 million the administration's authority to give farm surpluses to nations hit by disaster. The present law is scheduled to expire June 30.
