Man Fed Up With 'Gimmicks' in Mail

Clinton, Tenn.—(U.P.)—Insurance agent J. Bailey Richardson told postal authorities he's fed up with the junk he has been receiving through the mail. Richardson complained he is the victim of a practical joker who can't pass up an opportunity to fill in magazine or newspaper coupons with Richardson's name and address. So far, Richardson has received binoculars, a doll, a rooster, nose-hair trimmer, membership in the Metropolitan Opera club, a foreign language instruction record and a wallet. "The fun's gone far enough," Richardson said. "Not only is he showered with gimmicks, Richardson said, he also gets calls from insurance men and other salesmen, all believing he is interested in their product. "All I can do is return these things and explain that I didn't order them," Richardson said.

Personal Income Continues To Climb

Washington—(U.P.)—Personal income, a vital factor in the American economy, continued to climb last month. The Commerce Department reported Tuesday night personal income in March was at an annual rate of \$337,500,000,000. This was one billion dollars higher than the annual rate in February. The department also said personal income in the first quarter of 1957 was at an annual rate of \$336,500,000,000, 19 billion dollars or 6 per cent higher than in the first quarter of last year.

Multnomah Grand Jury Conducts Long Session

Portland—(U.P.)—Multnomah county's vice probing grand jury remained in session until 1:42 a.m. today in an apparent effort to wrap up its probe as soon as possible. Arthur G. Kaplan, assistant attorney general, said the grand jury was trying to finish its work so that the regular grand jury business of Multnomah county could resume. "We are not doing this because we like it," Kaplan said. "The grand jury is very diligent."

Kaplan did not indicate, however, just when the jurors would complete their task. They met again today.

There are 80 per cent more high school graduates in the U. S. than in 1940. The population of Ohio increased by 400 per cent between 1800 and 1810.

Berrydale Vote Called for May 22

(Continued from Page 1)

in the annexation being challenged in court if successful.

Attorney A. E. Piazza said he represented Berrydale residents in a section bounded by McAndrews rd. on the south, Riverside ave. on the west, Biddle rd. on the east, and Crater Lake highway on the north. The portion was excluded from a proposed annexation area revised by the planning commission in March.

"If the proposed Berrydale area is annexed," Piazza said, residents he represented would be surrounded by incorporated Medford land. This would permit the city of Medford to annex that portion of Berrydale without consent of the area's voters, he said.

Piazza withdrew his objection after Mayor John Snider said it would not be the "present intention" of the council to annex that portion to Medford if the larger Berrydale area was annexed.

Annexation Surveys
Gier, in favoring the annexation proposal, cited several sanitation surveys made in the area, referred to county health reports and discussed the background and purpose of the sanitation committee of which he is chairman.

He noted that a recent county health survey pointed out that most residences in the Berrydale area were in violation of Oregon State Board of Health sanitation standards. He stated that throughout the Berrydale area effluent and other wastes were existing near the surface of the ground and in open trenches creating a health hazard.

Gier also quoted a letter from Dr. Harold Erickson, state of Oregon health officer, Portland, that unfavorable drainage sites in the Berrydale area often made septic tanks inoperable.

Not Have Authority
Gier said according to the letter the state board of health would not have the authority itself to order installation of a sanitary sewer system in the area and then assess benefiting property owners.

Portland Oregonian Named Winner of Award

Chicago—(U.P.)—The Portland, Ore., Oregonian Tuesday was named a winner of a distinguished service award by Sigma Delta Chi, national journalism honor society. The newspaper was cited for "distinguished service in the field of public service in newspaper journalism." It was honored for its investigation of vice conditions in Portland.

Eden's Condition Said To Remain Unchanged

Boston—(U.P.)—Sir Anthony Eden's general condition remains "unchanged" but "satisfactory" and he is now able to sit in a chair for a short while each day, according to his doctors. Dr. Richard B. Cattell of the Lahey clinic said Eden spent a "restless" day Tuesday but was able to sit in a chair briefly. Cattell said the 59-year-old statesman's general condition "is satisfactory and remains unchanged."

Portland, \$61.25-61.75.

But Gier said that if the annexation proposal was turned down a second time he plans to request the state board of health to certify to the Jackson county court that a health hazard existed in the Berrydale area.

The county court would have the authority to order a sewer for the area and assess benefiting property owners, he said. According to Gier this method would be more costly to Berrydale residents than sanitation through annexation.

He concluded that the state board of health could be activated on the matter within 90 days if the annexation proposal was defeated.

Dr. Erickson also said in his letter the most economical method of getting sanitation facilities in Berrydale would be through annexation, Gier noted.

William Doernbach, a Berrydale resident, said he was representing several residents in Berrydale not represented by Piazza, Redden or Gier who opposed annexation.

Stock List Irregular In Moderate Trading

New York—(U.P.)—Stocks moved irregularly today in moderately active trading. A good gain in People's Gas helped carry the utilities to a new average high since May 25, 1951.

Steels, aircrafts, metals and oils boasted a number of good gainers and few big losers, too. Railroad issues generally were firm. Dresser Industries hit a new peak and rang up a gain of better than one at its high on a record backlog of business. National Supply was off almost two at its low but came back near the close. Lukens was the strong spot in the steels again, but Armo and Youngstown weakened.

Charles Van Doren Marries Secretary

St. Thomas, Virgin Islands—(U.P.)—Charles L. Van Doren, 31, who skyrocketed to fame by winning \$129,000 on a television quiz program, married his attractive brunette secretary today in a surprise police court ceremony.

The Columbia University English instructor and Geraldine Ann Bernstein, also of New York slipped away to this Caribbean resort apparently hoping to avoid the publicity that would have surrounded a wedding in the United States. The news came as a surprise to Van Doren's closest colleagues.

Easter Egg Hunt Set In Jacksonville

Jacksonville—An Easter egg hunt is planned for 11 a.m. Saturday, April 20, on the Jacksonville museum grounds. The hunt is being sponsored by Jacksonville police chief Frank Carter and the Jacksonville merchants are furnishing the eggs. Children from one to 10 are invited to participate. There will be special baskets awarded to children finding the three prize eggs.

Accused Wife Slayer To Fight Extradition

Detroit—(U.P.)—Leonard Ewing Scott said today he would fight extradition to California where he is wanted on charges of slaying his wife and absconding with her \$600,000 fortune.

Scott, 60, was held without bond at the Wayne county jail pending a May 7 hearing when authorities will decide whether he will be returned to Los Angeles.

At his arraignment before U.S. District Judge Thomas P. Thornton, Tuesday, Scott stood mute. California authorities will present the murder warrant at the May hearing, charging Scott killed his wife, Evelyn, 63.

Scott, picked up at the Canadian border Monday night, said he would fight extradition. He said he left California because "I was being hounded and followed everywhere."
