

Some Postal Cuts Said Unnecessary

Washington—(U.P.)—Rep. J. Vaughan Gary (D-Va.), said Thursday there is no need for Postmaster General Arthur E. Summerfield to continue some of the postal cuts he made during his squabble with Congress.

Gary, chairman of the House Appropriations subcommittee on postal funds, said Summerfield certainly should be able to restore full service with the \$41 million Congress gave him.

"He's running the post office. The Congress is not," Gary told the United Press. "Any cuts are his responsibility."

Gary added that if Summerfield can't get by with the money Congress allowed him "we'll probably have to give him the Treasury."

Summerfield retained two service cuts after Congress appropriated \$6 million less than the \$47 million he asked to run the postal service until the current fiscal year ends June 30.

Post office windows remain on a reduced 8½-hour daily schedule and business area deliveries are limited to two instead of the previous three a day.

Other curtailments were restored—chiefly Saturday mail deliveries and Saturday post office service which will be back to normal this Saturday.

Grants Pass Police Hold California Men

Grants Pass—(U.P.)—Two young California men were being held here today for Multnomah county authorities in connection with the burglary early Wednesday of a tavern.

Police identified them as Rayburn Glenn Surrent, 20, who gave his address as El Cerrito, Calif., and Wayne LeRoy Armstrong, 25, Compton, Calif.

Police said their car became stuck in a ditch north of Grants Pass at midnight Wednesday. The tow car operator called to free their car became suspicious when they paid him in quarters. Police said they were suspected of the burglary of the Night-Cap tavern in Portland early Wednesday. Some \$41.99 in small change plus chewing gum and cigarettes were found in the car.
