

ADMITTING he slew two women in New York, Joseph Higgins, 22, is being questioned about other unsolved sex crimes. (International)

Identification of Hubcaps Planned By Wheelers Club

A "hubcap identification program" has been started by the Medford police department in cooperation with the Southern Oregon Wheelers, a hot-rod club, because of an increased number of hubcap thefts in Medford, according to City Police Lt. Jack McMillan.

Four members of the wheelers hotrod club will mark hubcaps for local residents between 12 a.m. and 6 p.m. May 4 and 5 in the parking lot behind the city hall, Fifth st. and Central ave., Medford, McMillan said.

Identification marks will be applied to hubcaps at no cost to owners, he reported. He added the marks will be applied by a vibrating engraver making marks permanent and still identifiable in event they are filed off.

Does Not Detract

The police lieutenant noted that the engravings does not detract from the beauty of the hubcap. Surveys in cities where the program has been tested has shown 75 to 80 per cent decrease in auto accessory thefts, he said.

McMillan said the hubcap theft problem is increasing in cities throughout the country, and has been particularly bad in Medford. In 1955 25 cases of hubcap thefts were reported to city police, he said.

Reason for the increase in hubcap thefts, McMillan explained, is because it is one of the easiest crimes to commit. Other reasons are their high monetary value and the fact that establishing rightful ownership is almost impossible, he said.

The problem has become so acute that some insurance companies have been forced to attach riders to policies excluding coverage for such accessories as hubcaps, according to McMillan. It is hoped the identification program will make stolen hubcaps traceable and discourage handlers of stolen goods from receiving hubcaps, McMillan said.

National Program On Confab Agenda

A broad nation-wide program for the improvement of plumbing and heating equipment in existing buildings will be presented at the annual convention of the Oregon State association of Plumbing and Heating Contractors at the Medford hotel, Medford, May 3 and 4.

Speakers will stress the fact that the modernization of plumbing and heating equipment is a protection to property values and offers a means of halting the deterioration of houses in older neighborhoods.

Another subject to come before the convention is a program for the training of more apprentices to provide a pool of experienced workmen.

Other subjects include technological advances in the plumbing industry, the research program sponsored by the National Association of Plumbing Contractors, labor relations, public relations, merchandising, and the protection to public health provided by plumbing codes.

Officers of the Oregon State association of Plumbing and Heating Contractors are Walter Widmer, Portland, president; George Abrahamson, Astoria, vice-president; Frank Burditt, Portland, secretary; Eugene Spaniol, Stayton, treasurer; and Roscoe E. Watts, Portland, executive secretary.

Morse Says Remark Insulting To Voters

Washington — (U.P.) — Sen. Wayne Morse (D-Ore.) Friday Joined Sen. Richard Neuberger in replying to an attack from Ernest Swigert, president of the National Association of Manufacturers who had called the two senators a "disgrace."

Said Morse, the attack was "an insult to the intelligence of the voters of Oregon."
