## Chip Off the Old Block?

You probably have some special college in mind for your son when he reaches the age of eighteen. Perhaps your own alma mater. It's a wonderful dream. But will it come true?

American colleges are facing a crisis. The pressure of applications is mounting fast. It's expected to double by 1967. Our colleges and universities are doing their best to meet the challenge, but they are hampered by lack of funds. Not only are expanded facilities needed, but more and better-paid professors to maintain scholastic standards.

Unless something is done now about this serious situation, your bright young son may not get into any college.

For the sake of your children and the future of your country, help the colleges and universities of your choice—now!

If you want to know what the college crisis means to you, write for a free booklet to: HIGHER EDUCATION, Box 36, Times Square Station, New York 36, New York.
