## Lakes Good, Rivers Poor For Fishing

Lakes were reported to be all good producers, with many limit catches, but luck on streams was listed as poor to spotty over the week end as the trout fishing season got underway in southern Oregon.

Fishermen were said to have done well particularly on Saturday at Willow, Fish, Squaw, and Klamath lakes. Some good fishing was reported at Willow reservoir. Sunday was said to be much slower than on opening day. Trolling did best.

Rogue fishing was spotty it was said with good luck at places where trout has been planted such as the military bridge and Bybee bridge sites and the lower end of Big Butte creek. Luck was poor on the Big and Little Applegate.

Bait fishing produced the good catches.

## UO NETMEN PLAY

Eugene — (UPI) — Oregon's tennis team defeated Reed college 4-1 and then lost to Seattle U. 4-2 in a pair of matches Saturday.

## UO Diamond Nine Headed By Maddox

University of Oregon, Eugene (Special) Oregon's Ducks, tied at the top of the Northern Division baseball standings at the end of the first four games, went into action today when the tough Idaho Vandals invaded Howie field. The clubs also vie Tuesday.

The series was expected to provide excellent pitching as the Idaho staff, led by Bill Randall, met the excellent Webfoot mound corps paced by Lefty Don Lane, Stan Dmochowsky and Ron Whittaker.

Oregon's defense has been shaky in the early stages of the campaign and there may be several changes in the lineup as Coach Don Kirsch prepares first for the Vandals and then for the Washington Huskies next Friday and Saturday.

Capt. Terry Maddox figured to be a real problem for both the Vandals and the Huskies as he starts his senior year against both clubs. The talented ex-Medford star has already been named on the all-division team in both his sophomore and junior years and his play this spring indicates he will be tougher than ever to keep off the all-star team for the third straight year.

## Headed Loop

Maddox went undefeated as a pitcher in his sophomore year, winning six straight games and batting .353 as well while Oregon won the pennant. Last spring he pitched only briefly and spent most of the season in the outfield, where he hit .453 and led the league in runs batted in with 26.

In the opening game against Oregon State this year he rapped out three hits in six tries and put the 8 to 4 decision on ice in the ninth inning with a three-run double which boosted his runs batted in total to four for the game. He came back the next day to keep the Webfoots in the game with another pair of hits, even though five unearned runs eventually gave the Beavers an 8 to 5 victory.

Against Washington State he had two hits in the opener and saved the game with a perfect throw from left field in the ninth inning to cut down the tying run at the plate as Oregon won, 5 to 4. In the second game he won the victory with a three-run homer in the last of the tenth which gave the Webfoots a 6 to 3 decision.

Maddox is also a fine student, having won a scholastic scholarship for the last three years and maintaining an average of better than a B for his four years of work.

## Ike Names Thompson Moscow Ambassador

Augusta, Ga. — (UPI) — President Eisenhower Saturday picked Llewellyn E. Thompson, a man experienced in dealing with the Russians, as the new ambassador to Moscow succeeding Charles E. Bohlen.

The new envoy was selected as Eisenhower indicated increasing concern over developments in Jordan where a pro-western government is being pressed by surrounding Arab states with suspected Communist backing. Like his predecessor, Bohlen,

saying the ground in which main was laid consisted of "very poor fill material, inadequately compacted, and subject to uneven settling."

Thompson can talk to the Russians in their own language. The Colorado Springs, Colo., resident who has been in the career service since 1929 acted with Boh-

len as interpreter for the president in his social contacts with the Russians at the Geneva Summit talks in 1955.

Ground was broken for construction of Gary, Ind., April 27, 1906 by the U.S. Steel Corp.
