HORN BROOK Scout Troop Takes Second

By MRS. H. H. CHAPMAN

Hornbrook — Hornbrook Boy Scout Troop took second place in camping at the annual district Camporee last week end. Site of the camporee was the Fred Burton ranch on the Ft. Jones road.

Scouts from the local troop who attended were Mike Barnum, Conrad Overstrom, Loren Howard Cummins, Loran Paine Jr., Mike Turnbow, Billy Mura, Earl Henley, Benny Crawford and Scoutmaster Al Gregory.

Rations for the camporee consisted of food taken in as the price of admission to a movie presented by the Scouts recently. Judging in the competition among the troops represented was on selection and preparation of camp sites, which was done without the assistance of the Scoutmasters, preparation of food, and cleaning up afterwards.

The date for the visit of the Rev. Ben Gould of Chico, district superintendent of the Northern Conference of the Methodist church, has been set up from Monday, May 6 to Saturday evening, May 4, at the church. The chicken pie dinner originally planned for Monday, will be held Saturday.

Graveside funeral services for Mrs. Susie Eleanor Hansen were held April 29 in the family plot at the Henley-Hornbrook cemetery.

Mrs. Hansen was born in Hornbrook June 1, 1893, and died at the family home in Brownsboro, April 25 after a long illness. She had been a resident of southern Oregon for 39 years.

She is survived by her husband William, a son, Gerald, and a granddaughter, Jerilyn, all of

Astoria Cannery Get Wage Increase

Astoria — (U.P.) — The United Packing House Workers, Local 554, representing 1,000 cannery workers in the Astoria area, settled for a wage increase of 12½ cents an hour here Tuesday.

The U.P.H.W., negotiating with the Salmon and Tuna Packer's Association, received a five cent across-the-board pay raise. A seven and one-half cent health and welfare plan agreed to last year is in effect this year also, officials said.

The cannery workers had planned to strike if an agreement had not been reached.

Brownsboro, a brother Elmer Williams, Oakland, Calif., and four sisters, Mrs. Ruth Vettel, Washington, D.C., Mrs. Laura Trautman, Sacramento, Calif., Mrs. Blanche Warren, Portland, Ore., and Mrs. Grace Tyrer, Hornbrook.

A sister-in-law, Mrs. Minnie Bloomingcamp, also lives in Hornbrook. Several other brothers and sisters preceded Mrs. Hansen in death.

Oil Firms Asked To Retain Records

Washington — (U.P.) — The Justice Department has asked a federal court to forbid all major United States oil companies from destroying records needed in its current anti-trust investigation of the industry.

A department spokesman disclosed Tuesday night the motion, filed in Federal District Court in nearby Alexandria, Va., was based on information that one of the major companies was destroying its records.

It is a regular practice for the major oil companies to destroy some of their records, the spokesman said. But, he said, when they are under anti-trust investigation it is the practice to refrain from destroying the records.

A hearing on the motion is scheduled Thursday before Judge Albert V. Bryan. The motion did not say what company was destroying its records.

Court Rules Man Must Leave 'Home'

Llanelli, Wales — (U.P.) — Tom Wescott was homeless today because a court ruled he could not sleep under the furnaces of a steel mill.

For 31 years Wescott had dodged nightwatchmen and returned each night to the dark not tunnels beneath the furnaces here. The steel plant obtained a court order saying he no longer could sleep there because of the danger to him of molten steel.

Tom said he had not worked since Britain's disastrous general strike of 1926. The strike upset him, he said, and "now it's cold outside, even in summer."

During the past three years, 64 per cent of North Dakota's corn acreage has been used for silage or fodder.

NATO Will Reply In War of Nerves

Bonn, Germany — (U.P.) — The NATO countries probably will hit back with a joint counterblast at Moscow's atomic war of nerves, Bonn government sources said today.

The subject was expected to come up today when U.S. Secretary of State John Foster Dulles meets West German Chancellor Konrad Adenauer. Adenauer already has sent his individual answer to the Kremlin threats.

Dulles flies in from Washington between this afternoon for a meeting of the North Atlantic Treaty Organization Council which opens here Thursday.

Government sources said the joint reply most likely will be contained in the council's closing communique and that it will tell the Russians:

—The 15 free nations of NATO reject the Soviet threats and will not let themselves be intimidated.

—NATO is and always has been a purely defensive alliance and will not use its atomic "sword" except in self-defense.

—NATO will not allow itself to be diverted by Soviet threats from its present defense planning.

Ailing McCarthy Gets Blood Offers

Washington — (U.P.) — Ailing Sen. Joseph McCarthy has received a "wonderful thing"—an offer of blood from Defense department employees.

McCarthy, who has taken on the Pentagon in some of his greatest fights, received the offer while battling a serious attack of acute hepatitis.

"It's a wonderful gesture," the senator's attractive wife Jean said. "It's one of the most wonderful things that ever happened to us."

Mrs. McCarthy told the United Press Tuesday night that the offer of blood came from a Defense department office Tuesday. She said she did not know which office.

"But of course he doesn't need blood transfusions," she added. She said her husband was under an oxygen tent for a short period Monday. He was stricken Sunday and has been in the Bethesda, Md., Naval hospital since then.

A hospital spokesman reported Tuesday that his condition remained serious. But Mrs. McCarthy said that her husband "has improved quite a bit."

19 More Whooping Cranes Reported

Washington — (U.P.) — A wildlife bureaucrat shivered with joy today over word that 19 more rare whooping cranes may exist.

The 19 were reported to be whooping it up in Nebraska and South Dakota. Previously only 24 of the big birds were known to exist.

Frederick C. Lincoln, assistant director of the Interior Department's division of sports fisheries and wildlife, said the reports are "perfectly credible."

"But," he added, "we've had such reports before. If they can be checked it usually turns out that the 'whooping cranes' are white pelicans."

"We've got spotters looking for the birds. I certainly hope they turn up."

The big birds have a wingspan of about six feet. They get their name from the whooping call they give.

The United States' official standards of length are computed on two platinum-iridium bars in the National Bureau of Standards, Washington, D.C. The bars are exact duplicates of a prototype preserved since 1889 in the International Bureau of Weights and Measures in Paris.

Pakistan Officer Speaks at Medford Rotary Meeting

Pakistan, one of the world's youngest nations, has emerged as a bulwark for the free world in Asia and is determined to fight aggression when or where it may rise.

This message was voiced by Capt. M. Yasin Raja of the Pakistan Army in a luncheon address Tuesday before the Medford Rotary club. The young Army officer, who worked with the Pakistan Olympic team prior to the last international games, is currently assisting Coach Bill Bowerman at the University of Oregon. He spoke briefly at the Jackson hotel.

Much of Capt. Raja's address dealt with the similarity of Pakistanian and American governments and religion. The nation of 80 million people, established in 1947, has a democratic government patterned along the line of the U.S., and the country's constitution closely follows the famous American document.

Pakistan is predominately Moslem and there is also a marked similarity between the Koran and the Bible. Unlike the Hindu religion of India, in which the cow is considered sacred, the Moslem followers of Mohammed in Pakistan have a faith quite similar to Christians in the West. Reverence for parents is emphasized by Mohammedans.

Great strides have been made in education, Capt. Raja told Rotarians, and widespread illiteracy is on the way out in Pakistan. Women have been given the traditional democratic freedoms, and the ratio of men and women in institutions of higher learning is rapidly narrowing.

Coach Bowerman, formerly of Medford, was in Pakistan a few months ago on an international scholarship to assist the sports-loving people of that nation in their track program. Capt. Raja is returning the gesture of international friendship by a three months stay at the University of Oregon.

School Superintendent Leonard Mayfield introduced the speaker.

Navy Commander At \$80,000 Level

New York — (U.P.) — Navy Cmdr. Edward Peary Stafford reached the \$80,000 level on the "64,000 Question" television quiz Tuesday night by exhibiting an intimate knowledge of American literature.

Stafford, a grandson of the discoverer of the North Pole, is a Navy pilot stationed in Greenland.

He correctly gave the authors of two volumes published anonymously, the real names of four authors who wrote under pen names, and the pen names of four other authors, given their real names.

Sean McGonigal, a Scottish-born sign painter from Kearny, N.J., correctly answered four questions in the program's "American Indians" category. McGonigal's question was worth \$8,000.

On the CBS "Name That Tune" show, Miss Suzanne Saalsaa, Argyle, Wis., and barber Joe Lombardo, Brooklyn, won \$5,000 in their first round.

N. Y. Congressman's Daughter Shoots Self

Washington — (U.P.) — The newly-wed daughter of a New York congressman was reported in critical condition after shooting herself in the stomach in a downtown hotel washroom.

Police said 27-year-old Jane Williams Hurn — daughter of Rep. William R. Williams (R-N.Y.) shot herself Tuesday in the ladies' rest room of the Raleigh Hotel.

Mrs. Hurn was married only April 2 to Malcolm Hurn, a Utica, N.Y., businessman.

Police said they understand Mrs. Hurn has been under a doctor's care in New York because of a nervous condition.

Greenland, like North Carolina, has a "Lost Colony" mystery, the National Geographic Society says. A Norse settlement established in the late 10th century, vanished 500 years later when supply ships from home failed to call. Legend says Eskimo invaders killed the starving colonists.

Nasser Not Bitter, Senator Humphrey Feels After Talks

Cairo — (U.P.) — Sen. Hubert H. Humphrey (D-Minn.) said early today after a three-hour talk with President Gamal Abdel Nasser he felt Nasser was "not happy but not bitter" about relations with the United States.

Humphrey was sharply critical of U.S. policy in failing to send food and medicine to Egypt and said food should not be used as a political weapon when a nation is suffering.

Humphrey visited Nasser at his home Tuesday night and discussed Egyptian domestic problems, Jordan, the United States, the Suez canal, the Gulf of Aqaba, the Sinai peninsula, Egyptian-Israeli relations and the plight of Palestinian refugees.

"Very Constructive" "The conversations were very constructive and I did not detect any note of belligerency or arrogance in the conversation" even when Nasser discussed Israel, the Minnesota Democrat said.

Humphrey said he felt that Egypt wants to be free of foreign pacts, alliances and doctrines—an obvious reference to the Eisenhower Doctrine.

He said his two days of talks indicated the major causes of Egyptian "unhappiness" with the United States was withdrawal of aid for the Aswan dam, not sending food to Egypt when it asked for it and blocking Egyptian funds in the United States.

Humphrey said he and Nasser discussed the Egyptian food situation at length and that Nasser remarked that when Egypt had needed wheat desperately Russia sent it.

GOING, GOING, GONE!—Rampaging floods in Texas carried seven persons to their deaths ending an eight-year drought that gripped the state. In above photos, a farm house 12 miles east of Georgetown disappears before the camera's "eye" as the San Gabriel River swallows it. Normally the river is only 25 feet wide at this point. As these pictures were made, the river stretched a mile and a half across.

Two Hospitalized After Accidents

Two men were hospitalized yesterday with injuries received in accidents at White City.

Floyd B. Lay, 32, of 99 Elk st., Medford, was injured at 12:30 p.m. when he caught his arm in a roller at the W. H. Daugherty mill. His condition was reported "good" today by attendants at Sacred Heart hospital.

Fred MacEacheron, 39, Portland, also suffered arm injuries when he fell from a truck at Mitchell Brothers Truck line at 9:10 a.m. He was to be released this morning from Sacred Heart hospital. Both men were taken to the hospital by Medford Ambulance service.

Wiley Post, in completing the first round-the-world solo flight in 1933, flew 15,596 miles in 7 days, 18 hours, 45 minutes.
