MEDFORD (OREGON) MAIL TRIBUNE—ELEVEN

## Benson Begins Fight To Convince Farmers Of Lower Supports

Washington — (U.P.) — Agriculture Secretary Ezra T. Benson has begun a politically-perilous battle to convince American farmers they can make more money with lower government price supports.

Benson's campaign also is aimed at taxpayers who have been fretting at heavy federal spending.

Benson, a center of controversy since he took office in 1953, is proposing a reduction in the 75 per cent of "fair price" parity floor maintained by law under such major crops as cotton, corn and wheat.

Benson is fully aware of the political barriers in his path, but he has told newsmen he has the "wholehearted support" of President Eisenhower who stood with him in his earlier—and successful—farm policy battles.

The agriculture secretary opened his campaign with a 2,000-word letter and a 3,000-word explanatory statement to Ellender on May 2. In these documents, Benson made his proposals for farm law changes indirectly and by implication.

Benson deliberately avoided spelling out a detailed new farm program. Instead, he pointed out the course he favors by detailing the failings of current programs.

Essentially, the May 2 statements and Benson's later speeches maintain that farmers can sell more if prices are reduced in some cases and not pushed above current levels in others.

One of Benson's close advisers admitted today this policy is a calculated risk.

"The long run effect will be to boost farm income over what it would otherwise be. But in the short run, we just don't know whether it would send farm income up or down," he said.

CONSTIPATED? New laxative discovery un-locks bowel blocks without gas, bloot or gripe! Constipation is caused by what doctors call a "thirifty" colon that, instead of retaining moisture as it should, dries the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they "stick the bowel"; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body. To regain normal regularity, the dry, shrunken, constipating contents of your colon which now block your bowel must be re-moistened. Second, bulk must be brought to your colon to S-T-R-E-T-C-H STIMULATE it to action; to a normal urge to purge. And, of all laxatives, only COLONAD, the amazing new laxative discovery possesses COLONAD's great moisturizing capacity, plus COLONAD's stretch-stimulating bulk.
