

NEW PACKAGE! NEW PROMISE! FOR FLOORS HARD TO SHINE

There's new promise for your hard-to-shine floors and it's in the Glo-Coat can!

Watch faded colors start to brighten. Notice how your brand-new shine stands up under damp mopping. After a time, floors actually become easy to shine and you don't have to re-wax so often.

You'll discover: scuff-free Glo-Coat is the next best thing to a brand-new floor!

See how Glo-Coat seals, then shines dull floors

Magnified cross section diagram of asphalt tile shows how heavy traffic, plus soap and water, has caused surface pores to enlarge and deepen. Result: Colors fade, floors become hard to shine.

Now see what Glo-Coat does. It fills the "open pores" of the floor, then puts a clear, bright layer of shine on the surface. Even old, faded floors start to regain their luster.
