Decision in Custody Fight For Girl Now Up To Florida Governor

Tallahassee, Fla. — The long fight between the Roman Catholic Church and a Jewish couple over custody of six-year-old Hildy McCoy may be decided here Thursday by a Protestant governor, who is a father and an attorney fully aware of the legal aspects of the case.

Gov. Leroy Collins may allow a broad range of evidence at an extradition hearing here Thursday for Mr. and Mrs. Melvin B. Ellis of Miami Beach. But under the Uniform Extradition Act, the evidence must concern the legality of the extradition warrant from Massachusetts, not the guilt or innocence of the Ellises.

Collins must decide whether to grant the extradition request of Massachusetts Gov. Foster Furcolo and send the Ellises back to Boston to face charges of "kidnaping" Hildy, whom they have raised since infancy.

Collins must decide whether to grant the extradition request of Massachusetts Gov. Foster Furcolo and send the Ellises back to Boston to face charges of "kidnaping" Hildy, whom they have raised since infancy.

The Ellises want to remain in Florida, where their chances are considered excellent of winning permanent custody of the child in the courts.

The Governor generally takes all aspects of a case into consideration in making his decision following the legal testimony at

an extradition hearing. He has indicated his interest in the Ellis case by planning to break precedent and personally sit in on the hearing.

Father Aware
Collins, father of four children, is aware of the background of the inter-faith battle over blonde, blue-eyed Hildy. The struggle focuses on the Catholic tenet of religious heritage and has stirred people and religious groups everywhere.

The Governor's office here has been deluged with petitions, letters and telegrams bearing some 10,000 names, the overwhelming majority of them calling on Collins to let the Ellises remain in Florida.

Many Catholics are among the signers of petitions and letters favoring the Ellises, but leaders of the Catholic Church have

stood firmly behind the Massachusetts court decision. Hildy was born in Boston in 1951 to an unwed Catholic woman, Marjorie McCoy. The mother signed adoption papers 10 days after the infant was born giving Hildy to the Ellises, who have been unable to have children of their own.

Woman Changes Mind
But later the woman recanted, claiming she had not known the Ellises were Jewish. She began court proceedings to have the child put in a Catholic orphanage for adoption by a Catholic family. She expressed no desire to raise the child herself, although Ellis said he offered to return Hildy to her if she would.

Ellis said the McCoy woman also rejected his offer to either raise Hildy himself as a Catholic, or send her to a Catholic boarding school.

In Massachusetts, the law provides that both parents and children be of the same faith where ever practicable in adoption cases. It was on these grounds that the Massachusetts Supreme Court ruled against the Ellises after a long court fight.

Ellis and his wife, and Hildy, then fled Massachusetts and lived furtively in seven cities from Maine to Florida before settling in Miami Beach around a year ago for the last ditch fight for Hildy.

Myron E. Lane, district attorney from Dedham, Mass., will represent Massachusetts at the extradition hearing. Miami Beach attorneys Ben Cohen, who is Jewish, and Jack Lloyd, a Catholic, will represent the Ellises. Mr. and Mrs. Ellis will fly here tomorrow from Miami Beach and leave Hildy with friends.

Taken Into Consideration
In a talk to the American Society of Military Engineers, Libby said:

"We have taken the problems of radioactive fallout into consideration in our weapons development program and have developed and tested clean weapons, that is, weapons in which the amount of radioactive fallout per megaton (1 million tons TNT equivalent) of explosive power is very greatly reduced. "I believe this is a most important development because it would minimize the potential health hazards to those who are far from the scene of battle if nuclear weapons are used."

Libby said again that the present rate of atomic testing by this country, Russia and Britain will not lift the level of radioactive material in man above the so-called "maximum permissible concentration."

Miner's Body Found In Gangway Tunnel

Lykens, Pa. — The body of David Snyder, 35, father of three who was buried by a mine cave-in for more than three days was found Monday night 400 feet down in a mine shaft.

Snyder's body was found in a gangway tunnel recessed from the main shaft of the mine which he operated with his brother, Leroy, and Mark Sponic.

Dauphin County Coroner Dr. S. E. Herold attributed Snyder's death to suffocation. He said the victim apparently ducked onto a recessed gangway in the main shaft of the slope-type mine to escape an avalanche of coal and slag which fell while he worked in the mine last Friday morning.

Snyder's only means of escape from the niche was blocked by the falling avalanche, and he died when his oxygen gave out, the coroner said.

COLLEGE RENTS
Berkeley, Calif. — A recent University of California survey of 15,709 students showed that more than 40 per cent of them pay less than \$25 a month for rent. It also was disclosed that as the scale of living went up, women had twice as much money to spend as male students.

CONSTIPATED? new laxative discovery un-locks bowel blocks without gag, bloot or gripe

Constipation is caused by what doctors call a "thrifty" colon. A "thrifty" colon is one that, instead of retaining moisture as it should, does the opposite: robs the colon of so much moisture that its contents become dehydrated, so dry that they block the bowel; so shrunken that they fail to excite or stimulate the urge to purge that propels and expels waste from your body.

TO REGAIN NORMAL REGULARITY two things are necessary. First, the dry, shrunken contents of your colon which now block your bowel must be re-moistened. Second, the bulk must be brought to your colon to stimulate it and so, excite its muscles to action; to a normal urge to purge.

AND, OF ALL LAXATIVES, only COLONOID, the amazing new laxative discovery possesses COLONOID's great moisturizing capacity plus COLONOID's stretch-stimulating bulk that

activates normal colonic reflexes. So effective that it relieves even chronic constipation overnight, COLONOID is yet so smooth, so gentle it has been proved safe even for women in the most critical stages of pregnancy.

SUPERIOR TO OLD STYLE bulk, salt or drug laxatives, COLONOID neither gags, bloats nor gripes; does not interfere with your absorption of vitamins and other valuable food nutrients; and in clinical tests, did not cause rash or other side reactions.

IT'S A PHYSIOLOGICAL FACT: Exercise tones your body! And COLONOID exercises your colon to tone it against constipation, overnight! Whether occasional, frequent or chronic, whatever your degree of constipation, get COLONOID, in easy-to-take tablet form at any drug counter, today! The price, only 98¢ for the economical 60 tablet package, brings you positive relief at less than 2¢ per tablet.

LARGE PACKAGE

Brookings, S.D. — A one-ounce capsule arrived at South Dakota State College here in a 5,600-pound package. The capsule contained radioactive cobalt 60. It was shipped by the Atomic Energy Commission for experimental plant breeding at the college.
