

Do You Have the Right Job?

WE SPEND at least one-third of our waking hours at work. But while every job has its ups and downs, most of us go along without ever being sure we're really doing the work best suited to our talents and interests. The vocational division of the Big Brother Movement prepared this quiz to help you decide whether you're in the right job.

- | | Yes | No |
|---|--------------------------|--------------------------|
| 1. Do you constantly watch the clock while you work? | ☐ | ☐ |
| 2. Do you feel that the boss is picking on you? | ☐ | ☐ |
| 3. Are you late more than once a week? | ☐ | ☐ |
| 4. Are you absent more than once a month? | ☐ | ☐ |
| 5. Do you find your work boring or uninteresting? | ☐ | ☐ |
| 6. Are you working simply for the pay check? | ☐ | ☐ |
| 7. Do you often get colds, headaches, or other aches and pains? | ☐ | ☐ |
| 8. Do you quit work right on the dot? | ☐ | ☐ |
| 9. Is it hard for you to get up in the morning? | ☐ | ☐ |
| 10. Is 5 p. m. Friday the happiest moment in your week? | ☐ | ☐ |

Key: Give yourself one point for each "no" answer. If your score is 9-10, you are in the right job; 7-8, you are pretty well adjusted vocationally; 5-6, you're marking time; 3-4, it's high time you began thinking about changing jobs or getting into another line of work; 0-2, you'd better get something else fast!
