

Before using all: "Yellowed" nylon half-slip and peignoir looked like this after repeated washings in ordinary soaps and detergents.

After using all: Fresh white again. The amazing gentle whitener in *all* can wash away the "yellow" caused by age or old-fashioned thick-sudsing detergents.

all washes "yellowed" nylon white again without bleaching

LINENS, COTTONS, AND NYLONS—yellowed by age or detergents—can now be restored to use and beauty in new Super-Rinse *all* with amazing whitening discovery AE-160. The new whitener in *all* whitens gently without bleaching... gets whites progressively whiter each time you wash. Safe for all fine washable fabrics and colors.

New *all* washes with famous "controlled suds" prescribed by automatic washer makers and servicemen for best washing results. Anything washable gets cleaner in *all* with "controlled suds" because more dirt rinses out.

And even with AE-160—new Super-Rinse *all* costs less to use! One tablespoon of *all* outwashes three tablespoons of the leading thick-sudsing detergents. Just measure *all* by the tablespoon... instead of by the cupful... and save on every wash load.

See bonus offer below
for using *all* with AE-160!
