

Market Behaves Well; Bidding Goes Within Record High for Year

By ELMER C. WALZER
United Press Financial Writer
New York — Wall Street experts said the market behaved very well Monday.

It had been bid up to within touching distance of the year's high but managed to take in a 14-minute ticker lag and brought the first 3 mill share day of the year.

The industrial average went through an arc of more than 10 points between its high of 507.87 and a low of 497.78 and closed at 503.76 off only 1.87 points and within 3.3 per cent

200 Appointments Made for Bloodmobile

Two hundred people so far have made appointments to donate blood Wednesday, when the Red Cross bloodmobile will be at the Elks temple in Medford from 1 to 6 p.m.

Officials said a total of 350 donors are needed to meet Medford's blood quota. Appointments may be made by calling SP 3-3813. Appointments may be made by calling SP 3-3813. Making appointments today were the following:

Harry Taylor, Mrs. Austin King, Wayne King, Dorothy Matheny, Edith Roach, Miletta Sims, A. E. Sims, Allen Harris, Jack Whelan, O. D. Nichols, Kenneth Larson, Hazel Wilson, Beverly Himmelman, Sam Culbertson, Biley Cook, Mel Wiggins, Meri Mitchell, Marilyn Stickney, Ken MacDonald, Russ Jamison, Cecil Norris, Marie Pierce, Mabel Clark, Barb Jones, Mrs. Harold Hitt, Martha Lamb, Dolly Arnold, Mrs. Robert Hubbard, Hazel Smith, R. E. Hart, Alice Turner, Mrs. D. D. Turner, Edna Zundel, Willa Barnard, Warren Hayes, Clyde Tenant, Dayton Glenn, Rosemary Logan, Gay Dutton, W. C. Rose, Donna Rose, M. W. Gardner, Don Browne, J. O. A. Campbell, T. K. Oliver, Ted Johnson, Sidney Anderson, D. E. Wisely, Delbert Durkee, Jack Beale, Edgar Coghill, Harry Buckmaster, Margaret Redhead, Robert Lafferty, George Goodman, Rolfe Chisum, Herbert Anderson, Shirley Hatcher, Mrs. J. C. Kennedy, Tom Ness, Cliff Chinn, Ray Palm, Hugh Whipple, Mary Jo Hall, Dean Welch, and Bill Dugan.

Italy Government Crisis Right Back Where It Started

Rome — Italy's government crisis was right back today where it started 36 days ago.

The resignation Monday night of the short-lived government of Premier Adone Zoli gave President Giovanni Gronchi the task of trying to find a leader strong enough to take Italy out of its political morass.

Most political observers believed Gronchi would be forced to select a caretaker government to run the country on a non-political basis until the next elections scheduled later this month but possibly before then.

Glory Short Lived

Zoli's government was sworn in on May 20. It passed its first vote of confidence in the Senate and appeared to have won a vote of confidence in the House without too much trouble.

But its glory lasted only one day. A clerical error showed that two "no" votes had been registered as abstentions. Zoli still had a majority but the majority depended on votes of the extreme rightwing monarchists and Fascists.

Zoli, a wartime prisoner of the Fascists, said he would never form a government that depended on their support. He resigned immediately and Gronchi summoned political leaders to his office today for the latest round of talks.

Klamath Air Base Man Wreck Victim

Weed, Calif. — Cecil E. Bledsoe, 25, of Klamath Falls Air Base, was killed and five others injured near here Monday night in a two-car crash.

Injured were John E. Hickman, 25, and Russell McFarland, 25, both of Klamath Falls Air Base and passengers in the car driven by Bledsoe; Robert L. Peddicord, 25, of Newburg, Ore., driver of the other auto, and his riders, Cletus C. Wasson, 26, and his wife, Ethel, 23, of Carlton, Ore.

International Review Fleet Begins Maneuver

Norfolk, Va. — The gunmetal gray ships of a great international review fleet today began the dangerous shifting of their positions to form a long finger of naval might pointing toward the open sea.

The maneuver called for moving more ships on one day than ever before in the war-torn history of Hampton Roads.

A Navy spokesman said the shifting of 65 American warships and 33 warships from 17 visiting nations had been worked out with such precision that it was expected to be completed without major difficulties.

To Direct From Blimp

Rear Adm. Claude V. Ricketts planned to direct the operation from a Navy blimp hovering over the roared and the flag-decked ships.

Buoys were placed in advance along the 14-mile course from Hampton Roads to the Virginia Capes. Plans called for the ships to anchor at the buoys in a double row which the review ships will sail down and back tomorrow.

The Navy ordered the fleet to move to the buoys in a kind of giant water ballet, which involved such huge floating fortresses as the 60,000-ton U.S. supercarrier Saratoga, the 40,000-ton British carrier Ark Royal and the American battleships Iowa and Wisconsin. Most of them need more than a half dozen tugs to navigate them while in narrow waters near dozens of other ships.

Day Camp for Boys Scheduled by Y

The Medford YMCA's day camping program for boys between 8 and 12 years old will be held on fish and game committee property on Little Butte creek for two weeks starting Tuesday, June 18.

Any boy in Medford will have an opportunity to attend day camp, YMCA officials said. Boys registered for the camp will leave the YMCA office at 9 a.m. and return at 4:30 p.m. They will take their own lunches. A small fee will be required to cover transportation, insurance, milk costs, officials said, but added that no one will be denied a chance to go because of lack of fees.

The camping program will include woodcraft, archery, nature study, swimming and camp games.

The Medford Kiwanis club is assisting in the program financially, Dean Crumley, YMCA youth director, Herbert Partridge and Bob Jones assisted by counselors will direct activities at the camp.

Boys interested in attending day camp may contact the YMCA. Officials said.

Professional Drivers Help Palsy Victims

Rochester, N. Y. — Thanks to professional drivers, who pitch in to drive extra miles when their week's work is done, some 25 cerebral palsy victims here lead a happier life.

When Mrs. Joseph Detwiler sought needed transportation to get the children and young adults to three-times-weekly clubhouse meetings and afternoons of fun, she took her problem to the Rochester Automobile Dealers association. She also appealed to Teamsters Joint Council 17, which found volunteers in the Bakery Drivers Union and the Taxicab Drivers Union and in truck drivers ranks.

The volunteers, who also include car salesmen and bus drivers, are unanimously happy that on their days off they can help those less fortunate than themselves.

"Those kids," said volunteer Elmer Travis, "are the greatest prescription for chasing away the blues. Anyone who thinks he has troubles should just look at them. And yet they're cheerful and happy. For people like them, I'll take a 'busman's holiday' any time."

Jersey City, N. J. — When outgoing Mayor Bernard J. Berry was asked who he felt could best carry on the policies of his administration, he answered: "Me."

Committee To Hear China Trade Arguments

Washington — Chairman Warren G. Magnuson (D-Wash.) has announced a new Senate commerce subcommittee will begin public hearings June 20 on foreign trade and commerce, including trade with Red China.

Magnuson said the inquiry will study existing trade barriers and embargoes, the amount of trade being carried on with the Soviet bloc, and "the very knotty problem of our trade relations in non-strategic items with Asia and China."

Number of Employed Persons Now 65,178,000

Washington — The number of employed Americans rose by 917,000 in May to a total of 65,178,000. That was a record level for the month.

The number of unemployed persons looking for jobs edged upward by 25,000 to 2,715,000, although some decline is usual in May; the Labor and Commerce departments reported.

Big Three Reply To Soviet Mid-East Plan

London — The United States, Britain and France handed notes to the Kremlin today replying to Moscow's recent mid-East "peace" plan, official sources disclosed.

The West's replies were understood to have turned down in effect, Moscow's call for a four-power declaration on the Middle East. They urged instead the need for a peaceful and genuine settlement in the explosive area.

Details of the notes were not disclosed immediately. Their texts are expected to be released Wednesday.

The West's notes were drafted in close consultation between Washington, London and Paris. Last week, the draft of Western replies to Moscow's Mid-East "master" plan were reviewed with members of the five-power Baghdad Mid-East defense alliance at the ministerial conference in Karachi.

Moscow's recent proposal called for a four-power declaration by Russia and the Western powers condemning the use of force as a means of solving disputes in the Middle East.

Hydrogen Bomb May Destroy Earth, Evangelist Warns

New York — Evangelist Billy Graham warned Monday night that man may stand now on the threshold of Judgment Day and that God may choose the hydrogen bomb as the instrument of global destruction predicted in the Bible.

"God never sends down a judgment without warning, whether it be to nations, to cities, or individuals," Graham said. "This New York Crusade may be held now, in June, in 1957, as part of God's warning to people all over the world to repent their sins while they still can."

Warning Unfinished

"We may be seeing a period that is just before what could be judgment over the world, this nation, this city. If people refuse to repent, refuse to turn to God, to stop serving their own gods—"

Graham threw up his hands leaving his warning unfinished.

"The rain of fire and destruction that befell Sodom and Gomorrah sounds to me similar to the effects of modern nuclear weapons," Graham said. "As God rendered Sodom and Gomorrah into dust, so might the hydrogen bomb be used to destroy modern cities."

Might Be Saved

He said that peoples on either side of the Iron Curtain might be saved from the terrible destruction of the H-bomb if men

Hydrogen Bomb May Destroy Earth, Evangelist Warns

Washington — U.S. Senate Democratic Leader Lyndon B. Johnson threw his influential support today solidly behind President Eisenhower's proposed foreign aid bill.

Johnson said in a statement that he hoped the Senate would approve the bill without reducing it any more than it already has been trimmed by the Senate Foreign Relations Committee.

The committee cut the bill by \$250 million to \$3,617,333,000. Johnson said it did an "excellent job."

The committee cut the bill by \$250 million to \$3,617,333,000. Johnson said it did an "excellent job."

Safety Council Urges Cooperation in Drive

"Excessive speed not only invites accidents, it increases their severity when they occur."

In these words, Aubrey Leper, president of the Medford Safety Council, urged Medford motorists to cooperate in the "Back the Attack on Traffic Accidents" campaign.

Leper warned against the two major dangers in speeding. They are the longer time it takes to stop and the increased force of impact in an accident. He defined excessive speed as any speed too fast for prevailing conditions of weather, road, traffic, driver or car.

and nations repent their sins and give themselves to God.

Following the sermon, 384 persons went to the front of Madison Square Garden to record "decisions for Christ," running the evangelist's total of conversions since the crusade began 24 days ago to 15,229. More than 483,500 persons have attended the sermons.
