TV Reception Said Good From Midwest

Good television reception from several southwest and midwestern stations was reported today by Greg Milnes, son of Mr. and Mrs. Vic Milnes, 15 North Groveland ave.

Young Milnes said he has been receiving a good picture and sound from stations in Phoenix, and Tucson, Ariz.; El Paso and Amarillo, Tex.; Rapid City, S.D., three stations in Denver and stations in Kansas. He said best reception was received on channels 2, 3 and 4 from about 9 a.m. until noon, 4 to 6 p.m. and 10:30 to 11 p.m.

He was unable to explain why he has been receiving the stations here, other than to say that he had read that television transmission is improving just like radio did several years ago. He also said that he had read that sun spot activity should improve television reception over the next few years, and that cloud layers improve television reception.

Milnes said he has no special attachments on his regulation console set, with an outside antenna.
