

ILLINOIS VALLEY Farmers Assured Of Loans

By HELEN BOTTEL
Cave Junction—A. M. Denney of the Farmers Home administration, Grants Pass, assured landowners in the proposed Sucker Creek irrigation district that FHA loans would be available to them, when he spoke at a meeting of the Illinois Valley Water Resources group last week.

Farm families who show capability to pay, and whose irrigated land can support a loan, will be considered by the FHA for loans up to \$25,000, Denney said. Average loan for development of land, he added, is \$5,000, and the interest rate is either four or four and one-half per cent. In some cases, up to 40 years are allowed for payment. Loans are only made if no other money source is available, he said.

The Illinois Valley Hardware window is full of exhibits this week.

Trophies won by the Night Owl bowling league champions in which two local women, Betty Burnett and Marilyn Baumgardner are players, are on display, as well as the 1956 Rogue Valley League baseball champion ship cup and the playoff trophy both won by the Cave Junction Outlaws.

Sponsors of the Night Owls, the Wagon Logging Company, received a trophy as did each of the bowlers, Vicky Kolkow and Elsa Davidson are the two Grants Pass members of the team.

Also in the hardware store window is an ancient handmade fishing reel, discovered by Dick Naue on the banks of Sucker creek. Rusty and ungainly, with the handle made of a piece of pipe and a bent nail used for a lock, the reel has about as much resemblance to a modern spinning outfit as a Model T has to a Thunderbird.

The reel is complete and, aside from rust, workable, and shows a good deal of ingenuity in design. It is estimated to be over 50 years old.

Chamber Warns of Bait Advertising

A warning to home owners to be on guard against "bait" advertising in the purchase of storm-and-screen windows or doors was issued today by Don McNeil, manager of the Jackson County Chamber of Commerce.

McNeil cited a warning from the National Better Business bureau with which the local chamber is affiliated.

A majority of combination storm-and-screen window and door industry members are trustworthy, McNeil said, but a small minority make use of "bait" advertising and other types of fraud.

He explained that in many cases, misleading ads feature a "sensationally low price" for a complete combination storm window, often including installation. National Better Business bureau research indicates that good quality installed windows cannot sell for the "sensationally low prices," according to McNeil.

Frequently the promoter has no intention of selling windows at the advertised price, but will attempt to switch the customer to a higher priced item.

Unscrupulous firms enter into installation contracts with unskilled or untrained workmen, with the result that windows and doors are so poorly installed as to render them useless, McNeil noted. Also, guarantees given by such firms are of little or no value.

Prospector Rescued From Mountain Cabin
Cave Junction—An 88-year-old prospector, Dave Webb, of O'Brien, was rescued last week after he became ill at his camp near Mud Springs, and set signal fires for aid.

A State Forest Patrol lookout first spotted the fires, and called the Siskiyou Aerial project who sent out two smokejumpers. Finding Webb, who appeared to be suffering from flu, they fed him and radioed Deputy Sheriff Les Tythcott at Cave Junction, who traveled the near 75 mile round trip by jeep to bring the elderly man to his home.

The signal fires spread over between three and four acres of brush and scrub timber, before being brought under control Monday evening by six smokejumpers and a ground party of two.
