## Eugene Men Seek Model Plane Record

Eugene —(AP)— An attempt to break the world's record for continuous flight of a model airplane got under way here Sunday night.

Three members of the Eugene Prop Spinners club are flying a 54-inch wingspread gas model plane by control lines and refueling it through a plastic tube.

The three men, Jack Murray, Bud Kuykendal and Dick Wampach are working two hour shifts and resting for four.

The three expect to break the record of 34 hours 34 minutes of continuous flight by 8:40 a.m. Tuesday.

# Tax Writers Vote To Reduce Advantage Of Retired Couples

Washington—(AP)—Congressional tax writers have secretly voted to reduce a special tax advantage available to retired couples living in the eight community property states, it was learned today.

The special benefit has been under attack from Florida lawmakers on grounds that it allows many retired couples in California to pay lower federal income taxes than they would have to pay if they lived in Florida.

The difference — in rare instances — could amount to as much as $240 a year.

California is a community property state; Florida isn't. Other community property states are Louisiana, Arizona, Idaho, Nevada, New Mexico, Texas and Washington.

The House Ways & Means Committee agreed last week to reduce the special tax benefit.

**Awaiting Final Approval**

Official announcement of the action was withheld pending final committee approval of the bill later this month.

The discrimination in taxes levied on retired couples on the basis of residence occurred when Congress in 1954 granted them a credit, or savings, in income taxes on retirement income.

Retirement income was defined to include stock dividends, interest on savings, income from rented property, pensions and social security payments. The last already was exempt from income tax.

But in the eight community property states a retired taxpayer can attribute half of his retirement income to his wife, thereby enabling the couple to claim a combined tax saving of up to $480 a year.

**Bars Loophole**

In restricting the benefit, the committee voted to bar taxpayers in the community property states from attributing to their spouses any part of an individually-earned pension or annuity.

Actually, retired couples in the other 40 states also can claim up to $480 in tax credits on retirement income, provided the property producing the income is jointly owned.

There is another requirement, however. The wife must have had earned income of her own in excess of $600 a year in at least 10 years of her life. In community property states both spouses automatically meet that requirement if either has earned $1,200 a year in at least 10 years.

Last Friday Presiding Circuit Judge Charles Redding denied a defense motion for a transcript of the mayor's testimony before the grand jury.

Edwin D. Hicks is Schrunk's attorney. Prosecuting the mayor are Elliott B. Cummins, ex-district attorney of Yamhill county, and John J. Pickett, former Coos county district attorney.

## End of Government Tax Write-Off Urged

Washington —(AP)— Sen. Gordon Allott (R-Colo.), said Sunday night he favored abolishing the government's rapid tax write off program.

The program has been under fire, especially from Democrats for the granting of a tax amortization certificate to the Idaho Power Company for construction of Hell's Canyon Dam on the Snake river between Idaho and Oregon.

In a later interview, Allott said, "I want to make this very clear. I am not in favor of granting a rapid tax write-off to the Idaho Power company for this project.

"I am not in favor of continuing the rapid tax amortization program generally. This is not a time of national emergency and as such there does not appear to be a need for continuing this program.
