

CENTRAL POINT Summer School Begins

By DORIS HUGHES
Central Point — Summer school is now in progress in Central Point Junior high and the H. P. Jewett elementary schools.

Southern Oregon college supplies the teachers for this summer course, which lasts six weeks. There are four head teachers, each one supervising five practice teachers. The three head teachers for grades three through eight are Art Phillips, Everett Dougherty and Dick Leigh. Gennie Kent is the head teacher for grades one and two.

Some of the practice teachers are new and others are from out of the state of Oregon and require practice to obtain their certificates to teach next term. There are 125 students attending these classes. These are not necessarily students who need extra help. Over half of the students are merely taking advantage of the extra instruction. Charles A. Meyer is principal of the Junior high school and Mr. George Johns is principal of the H. P. Jewett elementary school.

AEC Postpones Fourth Detonation in Series

Las Vegas, Nev.—The Atomic Energy commission Saturday announced the fifth postponement of the fourth detonation in the spring-summer series of atomic tests at Yucca Flat, 75 miles northwest of here. The shot had been scheduled for 4:45 a.m. (PDT) today, but the AEC reset it for the same hour Monday, weather permitting. AEC spokesmen said strong surface wind conditions predicted for today would not permit operation of the balloon from which the next detonation will occur. It is planned to fire the shot with the balloon floating 500 feet above Yucca Flat.

Macmillan Issues Statement to Reds

London — British Prime Minister Harold Macmillan bluntly warned Soviet Premier Nikolai Bulganin Saturday that the East-West conflict cannot be settled without the re-unification of Germany. The British leader, in a 3,000-word personal message to Bulganin, also declared that the greatest need at present was an agreement on both conventional and atomic disarmament. "Some measure of agreement on this issue would be a real contribution to the reduction of world tension and to the settlement of the many problems which now confront us," Macmillan told the Kremlin.
