

# Ike Sees New Legislation To Offset Decisions By Supreme Court

## FINAL BUDGET HAS \$57,269 INCREASE

The final 1957-58 Jackson county budget totals \$3,112,627, which represents an increase of \$57,269.15 over the budget published prior to Monday's public hearing. There will be no tax levy.

The budget committee completed work on the budget Tuesday afternoon.

The overall increase includes three major items, \$3,500 for a salary and efficiency survey to be conducted in all county departments by an outside independent professional agency, \$3,100 for the county's share of state secondary road construction and \$19,340.40 for operation of a second circuit court, which was established at the last session of the legislature.

### \$11,600 Cut

A total of \$11,500 was cut from the miscellaneous general county fund. A \$6,500 item providing for 3 per cent tax discounts was eliminated and the herd inspection item was reduced from \$6,000 to \$1,000. The tax discounts for those who pay their taxes in full before Nov. 15 will be covered by surplus funds from O and C and other receipts. The state will take over some of the expense of testing cattle for bangs disease and tuberculosis, which makes possible the county herd inspection fund reduction.

### Salary Adjustments

Salary adjustments, most of them small, were made for employees in several county departments. Some major salary adjustments may be made in 1958-59, depending on results of the salary and efficiency survey, it was indicated. The survey will be started as soon as arrangements can be made, according to the budget committee.

### Changes in the Budget are as follows:

#### Salary Increases

Circuit Court No. 1, salary increase of \$800 for the official court reporter. This increase was recently passed by the legislature and brings the judge's salary to \$8,000.

#### District Court, salary increase of \$500 for the district judge. This increase also was recently passed by the legislature and brings the judge's salary to \$8,000.

#### Sheriff's office, salary increases of \$190 each for the fifth and 10th deputies.

#### Second Deputy

Clerk's office, total budget increase of \$3,140. A second deputy in the legal department was approved at a salary of \$3,000 and salary increases of \$80 each were approved for the assistant photographer and reception clerk. A proposed \$60 salary increase for the legal and recording deputy was withdrawn.

#### Election department, total increase of \$872.95 for a new addressograph cabinet and two card files.

School superintendent's office, a salary increase of \$200 for the stenographer-receptionist was approved and an additional \$195 was allowed for new equipment.

#### Assessor's office, total increase of \$4,540.40. Assessor's and deputies' travel allowance was increased \$500, an additional tax lot clerk was approved at salary of \$3,040.40, and allowance for machines and maintenance was increased \$1,000.

#### Wages Increased

County jail, salary increase of \$180 for the jailer was approved.

#### Health department, salary increase of \$600 was approved for Dr. A. Erin Merkel, bringing his total salary to \$12,600.

#### Road department, total increase of \$34,580. Salary of the engineer was increased \$700, bringing his total salary to \$8,200. Other salary raises were approved for the road superintendent, \$60; transitman, \$360; first chairman, \$120; and second chairman, \$240. State secondary road construction totaling \$33,100 was approved and funds made available since the last budget committee meetings.

#### District Attorney's Office

Some salary adjustments were made in the district attorney's office, but do not alter the total budget for that office. The

adjustments include a \$500 reduction in the salary increase for the district attorney, bringing his total salary to \$9,500. The reduction was made at the district attorney's request and the \$500 will be evenly divided between the first deputy, whose total salary will be \$5,490, and the second deputy, whose total salary will be \$4,870.

Preparations for the 1957-58 county budget were sparked by more than the usual amount of discussion and disagreement. One of the more controversial points was the matter of proposed salary increases. County officials Monday presented to the budget committee a resolution urging adoption this year of salary increases for key employees recommended in a job classification and salary survey. The survey was prepared by Mrs. Berth P. Hopkins, county clerk.

### Similar Survey

The officials further recommended that during the coming fiscal year the committee order a similar survey conducted by the state civil service commission. They asked that salary adjustments made in 1957-58 be adjusted in 1958-59 to correspond with recommendations of the commission.

While officials and several tax payers attending the hearing spoke on behalf of increased salaries, several others spoke against such increases. Principal opponents included John Niedermeyer and Henry Conger.

Official tabulation of the budget is under way and is expected to be finished Thursday or Friday. Members of the budget committee will sign it and it will then be recorded and filed in the clerk's office.

A certified copy of the budget will be given to the assessor, who will make the order on levy. It was pointed out that the latter procedure is primarily a matter of legal formality since there will be no levy on this budget, other than those already approved by voters.

## Kent, Wash., Boy Killed by Car on Highway 99 Tuesday

Paul Byron Shanlain, 6, of Kent, Wash., was killed when he was struck by a car about a mile south of Rogue River on Highway 99 about 4:15 p.m. yesterday.

State police said the boy and his mother, Mrs. Betty M. Shanlain, were in a rock and gem store across the highway from a rest area, and the boy, without his mother's knowledge, went across the highway for a drink of water.

The boy was running back across the highway to the store when he was struck by a car operated by Evelyn Edmonds, 38, of Chemult, Ore., who was traveling south.

A Rogue River physician treated the boy at the scene, and he was en route to a Grants Pass hospital when he died, police said.

Cooler weather was expected over the California coast today, but weathermen said the interior of the state will remain hot.

## 20 Bids Opened for Removing Site Timber

Howard G. Wirtz of Grants Pass was low bidder at \$25,550 to remove brush and more than a million board feet of timber from the Howard Prairie reservoir site.

Twenty bids were received at the bureau of reclamation office at camp white yesterday for clearing the 870-acre area.

Wirtz' figure was less than half the engineers' estimate of \$54,495. Highest bid received was \$316,409. The bids will be sent to the bureau's regional office in Denver for awarding the contract.

Work at the reservoir site includes clearing the land of all brush and timber, cutting stumps to a specified height, and removing all vegetation down to a specified diameter. The land is cleared up to the high water level. The contractor has all rights to timber cut in the process.

New York — Major producers have slashed copper prices 2 1/2 cents a pound to 29 1/2 cents in efforts to stimulate demand for the key industrial metal.

## Ontario Voters Defeat Proposal for Tax Levy

Ontario — Ontario voters Tuesday defeated, 255 to 180, a proposal that would have permitted a tax levy in excess of the present six per cent limit to pay for municipal facility improvements.

The extra tax would have raised \$51,049 to extend water mains, defray city park costs, finance street improvements and help cover additional city government costs.

## Heat Continues To Set Records On Both Coasts

### Mercury Soars To 104 in Los Angeles

By UNITED PRESS  
Record high temperatures continued to bake both coasts today, but relief for the East was on the way from a cold front that dropped temperatures in the Midwest by as much as 30 degrees.

The mercury bubbled into the 90-degree plus range again Tuesday over most of the eastern third of the nation, climbing to 97 in Philadelphia for a third straight day of record heat in that city.

In the West, readings soared to a record 104 degrees in Los Angeles for the hottest day there since Sept. 1, 1955. The heat was blamed for a rash of brush fires, one of which destroyed nearly 2,000 acres at Lake Elsinore and another at Griffith Park in Hollywood.

The combination of hot weather and floods in the Northern Midwest and Plains states boosted the toll of weather-caused deaths beyond the 150 mark since last weekend.

The United Press counted at least 115 persons drowned in trying to escape the heat. In addition, at least 30 persons were killed in floods, eight died from lightning and two from heat prostration to raise the number of weather deaths to at least 153.

Drownings in the upstate New York vacation region claimed at least 15 lives.

## Flood Tragedy

A flood tragedy at Munjon, Kan., killed two Roman Catholic priests, and at least three persons were dead and two were missing in South Dakota floods. Another man drowned in a Marshall, Minn., flood.

Floodwaters continued to plague sections of Kansas and South Dakota in the wake of torrential rains.

New York City braced for the fifth straight day of more than 90-degree temperatures. Police and firemen were kept busy turning off fire hydrants opened by neighborhood gangs seeking relief from the heat. At some places, the authorities were attacked with rocks and bottles for shutting off the hydrants.

Cooler weather was expected over the California coast today, but weathermen said the interior of the state will remain hot.

## Lions Convention Starts in Medford Thursday Morning

### 1,000 Delegates Are Expected from State

The 33rd annual state convention of Lions clubs will start with registration of an expected 1,000 Lions at 10 a.m. Thursday in the Pioneer room of the Jackson hotel.

Host clubs for the convention are Medford, Crater, Ashland, Butte Falls, Central Point, Eagle Point, Gold Hill, Grants Pass, Jacksonville, Phoenix, Prospect, Rogue River, Shady Cove-Trail, South Grants Pass and Talent.

John L. Stucky, Charlotte, N.C., international Lions club president, will be principal speaker at the governor's banquet at Hedrick Junior High school Friday night. Stucky, his wife and daughter, Nancy, will arrive at the Medford airport at 10:30 a.m. Thursday.

Another feature of the convention will be a public appearance of the Vancouver, B.C. girls bagpipe band sponsored by the Vancouver Lions club. The 25-member band is on its way to the international convention in San Francisco and plans are being made for a street appearance near the Craterian theater, where most of the convention business meeting will be held.

Also scheduled are airplane trips over Crater Lake for convention delegates Friday afternoon in addition to other sight-seeing trips. A golf tournament will be held at Rogue Valley Country club Friday.

Bill Miller, international councilor from Coos Bay, will speak at a Friday morning breakfast at Hedrick Junior High school at which key members will be honored.

The Lions auxiliary will hold its convention in Medford at the same time.

## Lowell Bish Bound Over to Grand Jury

Lowell Allen Bish, 32, of 945 Brookdale rd., Medford, waived counsel and preliminary hearing and was bound over to the grand jury Tuesday afternoon in district court.

Bish is charged with assault with a deadly weapon. He was arrested Monday night at his residence after state police and sheriff's deputies fired 12 shots at the tires of his car. Bish's father, Louis Bish, 61, was hit in the leg by a bullet which apparently ricocheted from a car wheel officers said.

Bish was arraigned Tuesday morning when he asked for counsel and the case was continued until 3 p.m.

## Berrydale Census Shows 1,347 People

An official census recently completed in the Berrydale district by the city shows a total population in the area of 1,347.

With the annexation of this area the total population of Medford is 23,569, according to city officials. The previous population was 22,227.

The latest figures have been sent to the state census board which in turn will submit them to the secretary of state for certification.
