

NEWEST KILLER—"TALOS," the U. S. Navy's increased range surface-to-air guided missile, zooms off from launching platform to lock on a target guided by its mechanical brain during a test at White Sands Proving Grounds, New Mexico. The weapon will form major armament of the light cruiser Galveston undergoing conversion and later to two other cruisers, the Little Rock and Oklahoma City. Talos has registered "kills" with reliability and accuracy at distances of 25 miles.

News and Notes
From Camp White

BY SID HOLLINGSWORTH

Camp White writers made a good showing in winning three cash awards and two honorary citations in the Hospitalized Veterans Writing Project. Notification was sent to Manager E. K. Ricker by Mrs. Lynn Dunn, president, from Chicago headquarters this week.

Howard Curry Watson received \$25 for second place in the short story contest. Walter V. Grow won two Limerick prizes and received \$6. Earl J. Sweeney and David Frisch were named in the honorary awards for limericks.

Sweeney also received honorable mention for his article on rehabilitation through writing. There were 14 Camp White contestants this year.

Utilization of the porches of all occupied buildings for television rooms is the new construction project under way. Two of the buildings in Section 1, are now being equipped by the engineering division with closed-in porches, reached outside by a ramp at the entryway.

The porches have been exposed to the weather and have been virtually unused, and the additional solarium will provide a special room for TV patrons.

Work is proceeding on the theater remodeling program according to schedule. The old stage wall has been torn away and building will start this week on the larger floor space. It will extend 15 feet back of the old wall.

The uniforms worn by the Camp White baseball team are a donation of the Oregon Elks association. The BPOE also has furnished a shipment of leather and buckskin for the hobby craftsmen in this particular line.

Engineer Officer B. R. Sims and Mrs. Sims are heading south-east on an extended vacation trip that will take them as far as Cuba, returning by way of New Orleans.

With stopovers arranged in St. Louis, Atlanta and in Florida, they plan to be away nearly three weeks.

Miss Grace Stuber, chief nurse, has announced that Mrs. Mabel Day and Mrs. Mary Guy, of the nursing staff, attended a workshop conference on "More Creative Nursing" held at Roseburg VA hospital recently.

Nurses attending the four day institute at Southern Oregon college, Ashland, were Mrs. Vega Burns and Mrs. Christine Bates.

The five month period between April and October shows the lowest sick call report, according to the annual review of medical activities for the dormitory.

The daily average for the year is 63, with about 15 per cent fewer men requiring medical attention during May, June, July, August and September. Last year, October was high month with 1744 visits to the doctors.

VAWS birthday parties for members, held each month, were sponsored thus far this year as follows:

January—American Gold Star Mothers; February—DAV Auxiliary of Medford and Grants Pass; March—VFW Auxiliary; April—American Legion Auxiliary; May—American Red Cross; June—Navy Mothers Club.

Mrs. Edna Brassfield has been appointed retail clerk in the canteen store.

Worry of FALSE TEETH

Slipping or Irritating?

Don't be embarrassed by loose false teeth slipping, dropping or wobbling when you eat. Talk to us about just how a little FASTEETH on your plates. This pleasant powder gives a remarkable sense of added comfort and security by holding plates more firmly. No gummy, sticky, tasteless or feeling. It's alkaline (non-acid). Get FASTEETH at any drug counter.

ford and has had department store and other sales experience. She was postmaster at Bridgeport in eastern Oregon before coming to southern Oregon.

Postmaster Art Searseth received a letter the other day. When he opened it, he found it contained a newspaper clipping about his niece, Barbara Ewert, 18, a freshman in East Los Angeles Junior college. She was elected Hollywood Bowl Starlight Girl for 1957.

Miss Ewert was recognized for her proficiency at the piano and in singing.

Baseball fans were somewhat undecided Sunday whether to go to Grants Pass to see the home team play there, or to remain for the girls softball game between the visiting Eugene Chain Saw combination and the Rogue Valley Dairy Maids.

Those who remained were not disappointed in the style of play displayed and while the Milk Maids gave a better exhibition of all around playing ability, the Eugene girls went home with the reputation of being a strong team especially with the bat. They started off with a commanding lead in the Saturday night encounter, gained by consistent hitting.

Self-Expression!

Oh what a day! If you're worn to a frazzle-dazzle—be cheered by the sight of these comical motifs! Easy kitchen embroidery!

Pattern 7317: Transfer of 4 motifs, about 7 1/2 x 8 inches. Directions for matching set of apron, toaster-cover, kitchen towels.

Send THIRTY-FIVE cents in coins for this pattern—add 3 cents for each pattern for 1st-class mailing. Send to Medford Mail Tribune, Household Arts Dept., P.O. Box 168, Old Chelsea Station, New York 11, N.Y. Print plainly NAME, ADDRESS and PATTERN NUMBER.

A bonus for our readers—two FREE patterns, printed in our new Alice Brooks Needlecraft Book for 1957! Plus a wonderful variety of designs to order—crochet, knitting, embroidery, huck weaving, toys, dolls, others. Send 25 cents for your copy of this exciting NEW needle book—now!

PHYSICIST DIES

Brantford, Conn. — Dr. Lawrence T. Fairhall, 68, a physicist who retired in 1951 as scientist director of the National Institute of Health of the U. S. Public Health Service, died Monday.

H. Dewey Wilson Reelected Head Of Advisory Group

H. Dewey Wilson, Medford attorney, was reelected chairman of the Jackson county juvenile court advisory council and executive board Monday night at a meeting in the circuit courtroom of the courthouse.

Wayne R. Welty of Medford was elected vice chairman of the advisory council and executive board, and Mrs. Clarence E. (Bonnie) Wilson of Medford was elected secretary-treasurer of both groups.

Elected to three-year terms on the executive board were Mrs. Lawrence W. Buonocone and James V. McGowan, both of Medford. Other members are Dr. Frederick Trost, Ashland; Mrs. Maude House, Phoenix; C. W. Abbott, Central Point; and Mrs. Henry Padgham, Mrs. C. I. Drummond, Kenneth McHugh and Mrs. Una B. Inch, all of Medford.

Report on Budget

A report of the county budget hearing was given and the group endorsed requests made on behalf of the juvenile department. Those attending also said the increased budget indicated for the department in 1957-58 is justified. It was reported that the department handled 683 cases in 1956 as compared with 344 in 1954.

Progress reports were made on the juvenile detention home construction. The building is expected to be completed in September. The program for next year also was discussed at the meeting. Next regular meeting will be held Monday, Sept. 15, although special meetings may be called in the meantime.

Dr. Arthur Livermore, a colleague, did not comment directly on this region's fall-out problem, but both agreed they do not believe that the Hanford, Wash., plutonium works is seriously polluting the Columbia river with radioactivity.

Dr. Livermore told a session of the Northwest Institute of International Relations here that he doubted that "eating fish from the Columbia river is any more hazardous than breathing the radioactivity of the air."

"Anyway," the doctor said, "I'm going on eating them whenever I can catch them."

Difficulties Remain On Soviet Satellites

Moscow — A leading Soviet scientist said the Soviet Union still has many technical difficulties to solve before her artificial earth satellite can be completed.

Academician Yevgeni Fedorov said Tuesday that the Soviet scientists will "surely overcome" the difficulties and the satellite would be launched during the geophysical year which begins July 1. He refused to speculate on a target date although Alexander Nesmeyanov, president of the Academy of Sciences said it would be within "several months."

Interior May Move Northwest Office

Washington — The Interior department indicated today that it may move its Northwest regional office for commercial fisheries from Portland, Ore., to Seattle as part of its reorganization of the Fish and Wildlife service.

But officials said that of the 100 or so employees now in the Portland office, 10 or fewer would be asked to transfer to Seattle. The remaining office will be retained for the bureau of sport fisheries and wildlife.

The move hinges on whether Congress provides \$176,000 to set up four new regional offices.

Standard Increases Gasoline, Oil Prices

Portland — Another hike in gasoline and heating oil prices was foreseen today after Standard Oil Company of California announced a 3 cent per gallon price boost on regular and premium gasoline and on diesel and heating oil.

The increases were effective at midnight.

Other major oil companies had not announced hikes but sources indicated it was likely they would follow suit.

FORMER EDITOR DIES

London — U.P. — Tom Clarke, 73, former editor of the Liberal News Chronicle and who represented several American newspapers during the Russo-Japanese war, died Tuesday.

Women 'Poisoned' By Bathing Suits

New York — Two cases of women being "poisoned" by their bathing suits in the current heat wave have been reported to the New York Health Department.

A department spokesman said the Health Department's poison control center had been asked for advice by doctors treating the women.

He said the women had been wearing the suits to keep cool at home and had broken out in rashes soon after they put them on.

The rashes were traced to allergies to moth balls in which the suits had been stored during the winter, the spokesman said. He advised rinsing bathing suits after taking them out of storage.

Uncoupled Cars Hit Passenger Train

Grants, N.M. — The last four cars of a moving Santa Fe Railroad streamliner became uncoupled near here Tuesday night and crashed into the remaining section of the passenger train.

Railroad officials said about 30 persons were "shaken up" and that one unidentified person was "seriously injured."

The Santa Fe spokesmen said the last four cars were detached when tie plates along the line flew up, severing a coupling between the remaining cars. They said momentum carried the detached cars into the rear of the streamliner, the El Captain.

It was en route from Chicago to Los Angeles. The train proceeded to Gallup, N.M., after the accident for repairs.

APPARENT SUICIDE—William K. Sherwood, 41, Stanford University research scientist died "an apparent suicide," two days before he was to appear in San Francisco before a House committee investigating Communist "intellectual" infiltration. Mr. Sherwood lived in Pacific Grove, Calif.

Directors Named for Nickel Corporation

Cave Junction — Directors of the newly formed Nickel Corporation of America, were announced last week by Edward N. White, president of the New Delhi Mines, Ltd., Toronto, Canada.

White is president of the company, while John H. White, president of Chemical and Metallurgical Enterprises, Inc., Salt Lake City, is vice president. The Toronto and Utah firms own the new corporation jointly on a 50-50 basis. It has been formed to explore and develop nickel deposits in the Illinois Valley.

Other directors are H. H. Heller, Albert S. Perry and Clark Campbell, all of Toronto; John Hopkins of Salt Lake City and Bruce Manley, of Medford.

Two Grants Pass drilling outfits have received contracts to continue drilling in the nickel exploration work on Woodcock and Eight Dollar mountains. Both companies are operating two crews.

Quick as a cat can wink its eye

Thanks to the miracles of frozen foods and prepared mixes, the modern housewife can bake a cherry pie or concoct a whole meal "quick as a cat can wink its eye."

But what does she do with the time she saves? Just takes care of three or four kids, makes slip-covers and drapes, acts as family chauffeur and nurse, does the washing and ironing, entertains her husband's boss, probably helps out at the local hospital or maybe serves as Den Mother for ten husky, unruly Cub Scouts.

And she does even more! Chances are she acts as family purchasing agent and bookkeeper. And her family's financial standing depends as much upon her ability to budget and save money as it does on her husband's ability to earn it.

That's why so many women today are helping their husbands get started on a regular savings program in U.S. Series E Savings Bonds. Everybody wants to save, but modern women face the fact that few people can do it on a hit or miss basis. The secret of saving is system, and one of the easiest systems to follow is for the family breadwinner to buy Bonds through the Payroll Savings Plan. Once a wage earner signs up for this plan where he works, his money is automatically saved for him in safe and sure U.S. Savings Bonds.

Help your family win financial security by encouraging your husband to join the Payroll Savings Plan or invest in Bonds regularly where he banks. He'll thank you for it tomorrow!

The U. S. Government does not pay for this advertisement. The Treasury Department thanks, for their patriotic donation, the Advertising Council and
