

NOW!

**Easier, surer protection
for your most intimate
marriage problem**

Tested by doctors...

proved in hospital clinics

1. Antiseptic (Protective, germicidal)
Norforms are now safer and surer than ever! A highly perfected new formula releases its antiseptic and germicidal ingredients right in the vaginal tract. The exclusive new base melts at body temperature, forming a powerful protective film that permits long-lasting action. Will not harm delicate tissues.

2. Deodorant (Protection from odor)
Norforms were tested in a hospital clinic and found to be more effective than anything it had ever used. Norforms are powerfully deodorant—they eliminate (rather than cover up) embarrassing odors, yet have no "medicine" or "disinfectant" odor themselves.

3. Convenient (So easy to use)
Norforms are small vaginal suppositories, so easy and convenient to use. Just insert—no apparatus, no mixing or measuring. They're greaseless and they keep in any climate. Your druggist has them in boxes of 12 and 24. Also available in Canada.

HOMEMAKERS are so kitchen-conscious these days that builders are turning handsprings to give the ladies what they want. This trend is attractively evident in a group of small-tract homes developed in West Covina, Calif. Each house features a "dream kitchen" with a glittering line-up of push-button appliances and wise architectural planning. In the step-saving U-design work space, a double-sink dishwasher stands between the refrigerator and a four-burner electric counter range. Within easy reach are a wall oven and polished-wood

breakfast bar, which divides the kitchen from the living area. Ceramic-tile counters add decorative and practical notes, while numerous cabinets with sliding pegboard doors provide storage. Nestled away in a compact utility section are a washer and dryer; they can be hidden from view by a folding door. Every element in these colorful kitchens is carefully plotted to lighten the homemaker's daily chores and surround her with an atmosphere that's both pleasant and creative.

Push-Button Kitchen

BY RUTH W. LEE, HOME-FURNISHINGS CONSULTANT

Photos: Robert C. Cleveland
Architect: Edward H. Fickett

There are no steps wasted in this compact work area, featuring a range that has easy-to-use push-button controls.

Adjacent to the range stands a ceiling-high cabinet with plenty of room to store a huge supply of household needs.

With the wall oven so convenient to the breakfast bar of polished birch, meal-serving is simplified and speeded up.

Handy folding door shuts off the small but complete utility center when not in use. Note the large cabinet nearby.
