They'll Do It Every Time By Jimmy Hatlo

On The Side By E. V. Durling

Southern Californians continue to claim there is such an absence of heat and humidity after dark in their section in the summer that they "sleep every night under a blanket." I topped that down in Monmouth county, New Jersey, by the beautiful sea. I slept under two blankets. Speaking of cool nights, the residents of Northern California really have them. I have been in San Francisco in August when an overcoat was necessary for comfort at night. As you know, the slogan of San Francisco is "The City That Nature Air Conditions."

That Apple An apple a day keeps the doctor away. So goes the classic claim. It has also been maintained that due to its vitamin content the peel of an apple should always be consumed. A Detroit questioner these claims. That is, under certain conditions. He says that certain chemicals sprayed used in apple growing make eating that fruit dangerous in some instances. His view is that all fruit should be guaranteed free of chemical sprays.

Courtesy Americans presented to Queen Elizabeth on her scheduled October visit to this country will not be expected to curtsy to Her Majesty. So the British officials handling the visit have stated. The reason given is worthy of note. These officials say the curtsy will not be expected because "the art of curtsying is a grace American women haven't got."

Asking Queries from clients. Q I understand you are a little on the heavy side. Right? A. Not me, sir. I am six feet, one and one-half inches in height and weigh 180 pounds. Just about right for my height and age. Q Is it a fact that the residents of the Isle of Jersey, Channel Islands, pay no income tax? A. The residents of Jersey pay an income tax but it is much lower than the United Kingdom tax. To be exact it is four shillings to the pound. In our currency that is the equivalent of 56 cents to \$2.80.

THE EASY WAY

THEY HAD NEVER FLOWN BEFORE...

but they soloed to freedom

These two escaped—but 70 million others remain captive behind the Iron Curtain. And these are the people at whom Radio Free Europe beams its daily broadcasts. Escape is not its aim. Radio Free Europe penetrates the Iron Curtain to spread truth... to strengthen hope and resistance.

Said the youths above, "It (Radio Free Europe) added courage and strength to strained nerves. It offered us... a hope for a better future," said a young nurse who fled to the West.
