James W. & Eva M. Bennett	J. J. & Margaret G. Steiger
Raymond L. Stevens	H. Croisant
Minnie H. Garlie, et al	H. Croisant
Fred E. Gillette, et al	
D. W. & G. S. Elder	

Defendants.

To all of the above named defendants, and to all persons owning or claiming to own, having or claiming to have, any interest in the property included and described in the foreclosure list herein set forth, and being the Jackson County Delinquent Tax Foreclosure List for the year 1957:

YOU ARE HEREBY REQUIRED TO TAKE NOTICE that the plaintiff herein has filed in the Circuit Court of the State of Oregon for Jackson County, an application for the foreclosure of the lien of all taxes shown on the Jackson County Tax Foreclosure List for the year 1957, hereinafter set forth in full, and that the plaintiff will apply to the court for judgment and decree foreclosing such tax liens and cancelling all certificates of registration where such property is under a registration of title certificate, and for such other relief as may be just and equitable in the premises, not less than 30 days from the date of the first publication of this notice, exclusive of the day of the first publication, and any and all persons interested in any of the real property included in said foreclosure list are hereby required to file an answer and defense, if any there be, to such application for judgment and decree within 30 days from the date of the first publication of this notice, exclusive of the day of the first publication, which date is the 25th day of June, 1957.

This notice is published by authority of an order of the County Court of the State of Oregon, for Jackson County, in the Medford Mail Tribune, a newspaper of general circulation published in said county and designated in said order of the County Court as the newspaper in which said notice is to be published, said order being dated June 10, 1957:

That the delinquent list for the year 1957, which application is made to foreclose, is as follows:

	Name of Owner as shown by latest tax cards	Description of Property	Year of Delinquency	Amount of Taxes	Interest to 2/15/57	Total

UAL Plane Swerves To Avoid Jet Crash

San Francisco —(UP)— Eight passengers suffered minor injuries Monday when a United Air Lines DC6 had to make a sharp bank to avoid colliding with a jet plane.

The incident took place over Oxnard, about 50 miles northwest of Los Angeles, at an elevation of 11,000 feet. The plane had left a few moments before from Los Angeles for San Francisco with 39 passengers and crew.

A United Air Lines physician was called to San Francisco airport to examine the passengers.

He found the most severe injuries were a sprained ankle suffered by Tom Traber of Afton, Mo., and a cut on the forehead received by David Steinberg of Yonkers, N.Y. Six other passengers received minor bruises.

COLD-BLOODED THIEVES

Hastings, Mich. —(UP)— Thieves who looted the William Crawford home apparently were getting ready for a long, hard winter. Sheriff's deputies said articles in the $1,600 theft included a man's topcoat, a woman's beaver coat, two snow tires and five men's winter suits.

Portland Motorist Killed in Accident

Portland — (UP) — Stewart L. Setchfield, 44, was killed early today when his car struck a tree in southwest Portland. He was pronounced dead on arrival in a local hospital.

Roseburg Parents Face Court Hearing

Roseburg—(UP)—A hearing was scheduled in Douglas county Juvenile court today to determine if Mr. and Mrs. Howard Ott, Roseburg, are fit to continue having the custody of their three foster children.

The three youngsters, one of them a Korean orphan brought here by Harry Holt, Creswell, Ore., were taken from the Otts on June 28 following the filing of a dependency petition by District Attorney Avery Thompson.

CUT-UP CUT UP

Chicago —(UP)— A policeman's cat that defied an anti-litter ordinance and got away with it has done it for the last time. Sgt. Thomas Maher told a veterinarian to perform a sterility operation on his cat, Minnie, which has just produced her 12th litter.

English Actress Obtains Divorce

Hollywood — (UP) — Joan Collins, 24-year-old English film actress, has obtained a final divorce decree from Maxwell Reed, 35, who once sued her for $1,250 monthly alimony.

Miss Collins, who was granted an interlocutory decree May 29 1956, Monday had the final decree docketed in Superior Court.

The actress in a cross complaint suit charged that Reed belittled her appearance and career. He originally filed for separate maintenance on charges of cruelty Reed received $5,750 under a joint property settlement.

The couple was married in London May 24, 1952.

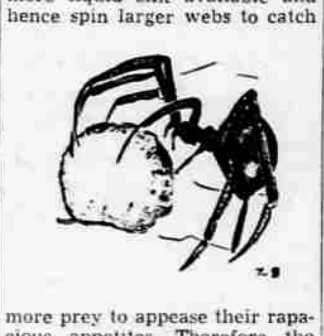
Is That So?

By EUGENE BURNS
Ranger-Naturalist

To achieve "pickle-barrel" accuracy in bombing or "pinpoint" precision in artilledy fire, bombadiers and artillery spotters must have the finest cross-hairs possible in 'scopes and bombsights to indicate the exact center of a field of vision in the "diaphragm."

For this wartime chore, whose help should be enlisted but that of the hairy eight-footed arachnoid (spider) which has fangs and a poisonous bite to quiet its prey to eat it while it is still alive.

Because female spiders always come larger than males—in one, the Nephila, the female is 1,300 times heavier — females have more liquid silk available and hence spin larger webs to catch



more prey to appease their rapacious appetites. Therefore the distaff side of the family is mainly employed to help man subdue his enemy.

The female spins threads from 1/7500 to 1/500,000ths of an inch in thickness from 2 to 8 spinnerets under her body. The finer threads are several times finer than the finest lines that can possibly be etched on a lens by a diamond. Yet, gossamer as these may appear, this amazing product has a higher tensile strength than platinum or steel wire of equal thickness. After all, some webs are strong enough to catch and hold mice, birds and even snakes.

Spiders 'Silked' Daily

So great was the wartime demand for this fine spider silk, that by the second year of World War II, tens of thousands of spiders were being "silked" daily on a dozen "spider ranches" as they were called in ranch-conscious California. In England, alone, spider farms produced 800,000 feet annually. Although almost 40 miles of spider silk, it weighed much less than an ounce—but then, it takes only one and three quarters' pounds of spider silk to girdle the earth at the equator.

Many varieties of spiders were "drafted"—even black widows. But for the finest uses, the silk from a five-day old, long-legged, tannish-colored variety of crab spider proved best. These young could be silked for about 50 to 100 feet a day.

Before silking, spiders are put in separate glass jars because they are highly cannibalistic—for this reason, most spider ranchers find it easier to call up a new age-group fresh from the fields, rather than to try to breed them. Then, they are dieted—sufficient to keep them healthy but yet spare enough to want to build a web over night, which means good "silking" and tends to prevent impurities from showing in the web.

Tweezers Used

"Silking" isn't for roughnecks. First the spider is picked up gently from the plassed-in apartment with a pair of tweezers. (Sure, when angered, almost any spider will bite.) Then she is set in a "silking stall," usually a porous piece of soft wood.

By means of pins which are stuck into the wood close to her body and between her legs, she is imprisoned and prevented from snipping the strand of silk with her hind legs. Then the business end, which is the lower rear end, is tickled with a needle which induces the spider to begin secreting liquid milk which upon contact with the air hardens. This is wound upon a U-shaped wire frame which has been freshly shellacked so the silk will stick to it. When up to a 100 feet have been wrapped on the frame, it is boxed and shipped to the firm making the wartime optical instruments, whether bombsights or whatever.

After about five "silkings" a humane spider rancher will turn his cows out to pasture to build their own homes and get themselves a square meal, or six a day.

For the duration, spiders served man well.

Free: By special arrangement with the editors of the Encyclopedia Americana, my panel of judges wil award each week to the reader who sends me the best true-life nature adventure, the best nature observation, or the best question on nature and wildlife, a complete 30-volume set of this world-famous reference work in handsome Sealcraft binding. Each week new submissions will be considered. Sorry, I simply can't answer your man friendly letters. Please address our letter to: Is That So! c/o Medford Mail Tribune, Box 575, Sausalito, Calif.

Noisy Japanese In Demonstration

Tokyo —(UP)— A mob of Communist-led Japanese, chanting "Yankee, go home," staged a noisy demonstration at the U.S. air base at Tachikawa, largest in Japan.

An estimated 500 policemen kept the demonstrators in line although there was some scuffling and shoving. The police outnumbered the demonstrators about two-to-one.

Police guarded the embassy against possible violence during the demonstration. Security officials in the embassy itself, mindful of the recent riots in Taipeh where intruders tampered with U. S. Embassy files and secret documents, issued orders to "lock everything — just in case."

The Japanese demonstrators, who included Socialist Diet members, leftist university students and Communisty party members, were part of the mob which ripped down a barbed wire fence at Tachikawa and disrupted air operations there for six hours Monday.

Jet Pilots Escape Mid-Air Collision

Tucson, Ariz. —(UP)— Two Air Force pilots, whose jet planes collided 20,000 feet over the Catalina Mountains near here Monday night, were rescued early today.

1st Lt. Joseph Onate, Newton, Mass., and 1st Lt. G. H. Van Fliet, Los Angeles, parachuted to safety after the F86D Sabrejets carrying "hot" rockets, rammed each other over Mt. Bigelow.

Onate suffered slight bruises. Van Fliet didn't have a scratch.

They were brought out of the rugged country today by a 14-member rescue team from the Davis-Monthan Radar Station on Mount Lemmon. The fliers, stationed at Davis-Monthan, were on routine training flights when the collision occurred.

The pilots spent the rainy night under their parachutes, which they made into tents.

Air Cargo Building Approved at Portland

Portland —(UP)— The Port of Portland Commission Monday approved construction of a $150,000 air cargo building at the International airport here.

The building will be located near the new passenger terminal building and completed when that facility is operating in 1958.

Clell Harris, one of the commissioners, said he was resigning to join the Federal Conciliation Service.
