Combination Refrigerator and Freezer

Imagine!

Now — you can have a Freezer and Refrigerator in the space occupied by your present refrigerator!

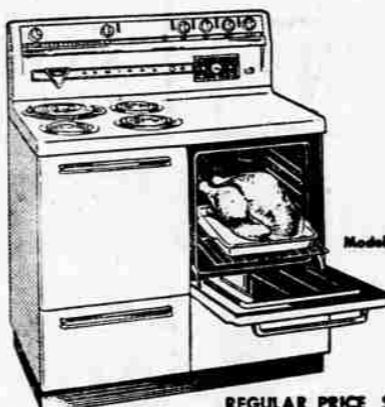

The revolutionary, new Amana FPR (Freezer-Plus-Refrigerator) occupies no more floor space than a refrigerator alone. Yet it genuinely fulfills the functions of both a freezer and a refrigerator! The big, roomy automatic-defrost refrigerator section holds as much food as a 12 cubic foot conventional refrigerator. And the precision-engineered, full-scale freezer section actually offers greater capacity than an 8 cubic foot freezer... holds 297 pounds of food! See it today — for new convenience in your kitchen!
