Help for the Paralyzed

Harry A. Doll, of 204 Graham-Hopdale road, Burlington, N.C., commenting on the buzzer that a completely paralyzed man can ring by touching two wires with his tongue, tells me of a page-turner which he made for a young man who could move only his eyes and his tongue.

In spite of his handicap, the young man decided to finish college by reading textbooks—but he could not turn over pages. Now he can do this by blowing on a very sensitive micro-switch. Doll tells me also, of a magnetic board with which paralyzed patients can play chess or checkers, and an electric typewriter that can be operated with the mouth.

Cancer and Obesity

Dr. Samuel H. Waxler, of Stanford university, found that in a certain breed of mice 35 per cent got cancer of the breast. When these mice were made obese, 62 per cent of them would get cancer of the breast. Also, the fat ones got it in 252 days, instead of 333 days as in the case of the thin ones. What can be cheering to many a stout woman is the fact that fattening did not induce the production of cancer in mice lacking the hereditary factor which helps to produce cancer. In other words, getting fat may make it easier for a woman to get cancer if she comes of a family with a tendency to cancer.

A Cancer of the Eye

One of the most distressing things that can happen to parents with a lovely small child is to have a cancer form in one of his (her) eyes. Then the people have to tell the doctor to go ahead and remove the eye. This is an awful decision to have to make and to make quickly.

Now, Dr. Harold F. Falls, of the University of Michigan, urges the parents of such a child not to try to have more children, because, as he says, half of any more that they might have could have the disease.

Medical Insurance Costs May Go Up

Samuel B. Hadden, President of the Philadelphia County Medical Society, recently deplored the fact that many persons carrying medical insurance, whenever they need an examination, insist on their doctor's sending them into a hospital because only when there can they be collected. As Dr. Hadden said, we physicians hate to see persons doing this because eventually all of the insured must pay extra for this service, and eventually the insurance costs will have to go up.

This sort of thing happens whenever people get medical services prepaid. They are all ways hoping to get some of their money back. Believe it or not,

Navy Helicopter Crashes Killing One

Washington—One man was killed and five injured when a Navy helicopter crashed while attempting to land at McMurdo Sound in the Antarctic.

A Navy Department spokesman said three of the injured were in critical condition. The helicopter apparently crashed when frost and ice on the windshield caused the pilot to misjudge his altitude. The helicopter was landing to refuel near the naval air facility station at McMurdo Sound.

Killed was Aviation Machinist 2-c Nelson Russell Cole of Detroit, Mich., son of Mr. and Mrs. Russell P. Cole of Dearborn, Mich.

In critical condition are: Lt. Richard E. Anderson, North Little Rock, Ark. Lt. J. G. Bernad Frigidovich, New York City; Aviation Machinist Mate 2-c Leslie L. Scarborough, Joshua, Tex.

Science Shrinks Piles New Way Without Surgery

Finds Healing Substance That Does Both—Relieves Pain—Shrinks Hemorrhoids

New York, N. Y. (Special)—For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all—results were so thorough that sufferers made

astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne)—discovery of a world-famous research institute. This substance is now available in suppository or ointment form under the name Preparation H. At your drug, grocery or pet shop.
