

HORN BROOK

Long-Time Resident Dies

Hornbrook — Archie Irving Elmore, 71, died Saturday night, July 13 at his home here after a long illness.

He had been a patient at the Siskiyou County General Hospital several times in the past few months.

He was born in Little Shasta Valley Dec. 2, 1885, one of the seven children of Dallas and Hattie Elmore. In 1901 the family moved to Klamath, and Mr. Elmore had lived in the Hornbrook area ever since. He was a retired farmer and had also operated a butcher shop.

He is survived by his wife, Zela, a brother, Everett Elmore, Hornbrook; two step-sons, Floyd and Ardon Burns of Hornbrook; three sisters and several nieces and nephews and other relatives. Funeral services were held Tuesday afternoon at Girdner's chapel, with the Rev. L. Ray Sanford of the First Baptist church in Yreka officiating. Burial was in the family plot in the Henley-Hornbrook cemetery.

Robert Luttrell, 82, died Friday evening, July 12, at the Siskiyou County General Hospital in Yreka where he had been a patient for the past three months.

Mr. Luttrell was a member of a well-known pioneer Scott Valley family. He was born in Ft. Jones Nov. 20, 1874, one of four children of Samuel J. and Lillian Bird Luttrell.

A retired tavern operator, he had lived in Hornbrook for the past 25 years. He never married. Survivors include a niece, Mrs. Effie Redkey of Klamath Falls and several cousins and other relatives. Graveside funeral services were held Wednesday afternoon at the Henley-Hornbrook cemetery.

Mr. and Mrs. L. C. Walsh entertained the Birthday club at their home Saturday evening honoring the July birthdays of Mr. and Mrs. Carl Williams. Present besides the honored guests were Mr. and Mrs. Eugene French of Yreka, Mr. and

Mrs. Al Gregory and baby, Mr. and Mrs. Loran Paine and their house guest from southern California, John Gregory, Sharee Walsh, Mary Lee Rutledge and Lorne Paine.

Mr. and Mrs. Jerry Schulte and children, Pamela and Billy, of Riverside, Calif., are visiting her parents, Mr. and Mrs. Rob Cummins.

Other visitors at the Cummins' home are her sister and brother-in-law, Mr. and Mrs. Guy Kraft, of Colton, Calif.

Loren Cummins and Bob Farmer accompanied by two friends from Yreka made a fishing trip to the Wright lakes area of the Marble mountains last week end.

Mart Stryker returned Saturday, July 13, from the home of his daughter, Mrs. John Zanotto, in Ashland, where he had been recuperating from a recent illness. He was taken ill in Lithia park in Ashland while on a family picnic on July 4 and spent the next three days in the Ashland hospital.

The Women's Society of the Community Methodist church held their regular meeting Thursday, July 11, at the home of Mrs. Loren Cummins. The meeting was conducted by the president, Mrs. Clarence Gowing, with devotionals led by the hostess. Other members present were Mrs. P. G. Riness, Mrs. John Shinar, Mrs. Harry Chapman, Mrs. Ernest Adams, Mrs. Bertha Brodley, Mrs. S. D. Haworth, Mrs. Ardon Burns, Mrs. Minnie Bloomingcamp, Mrs. Henley Clawson and a guest, Mrs. Baker. A written vote was taken as to whether the local group should affiliate with the national Methodist Women's Society of Christian Service, with the majority votes in the negative. The date of the next meeting is July 25 at the home of Mrs. Haworth.

Mrs. W. A. Rutledge and children, Mary Lee, Anne, David

'Real Drug Store' To Quit Business

New Orleans — A drug store that never sold a magazine or ice cream cone but did flourish in black leather and slippery elm bark, will be closed soon.

Max Samson's "Real Drug Store," a Camp Street landmark since 1973, is being sold by the former owner's daughter, Mrs. Herman Barnett, wife of a New Orleans attorney.

Mrs. Barnett has dispensed prescriptions and drugs since the death of her father in 1920 from behind the huge old-fashioned mahogany counters which were imported from Germany.

Samson purchased the store more than eight decades ago after receiving a degree from the old New Orleans College of Pharmacy. He wore a black alpaca coat and ceremoniously bowed each of his customers out the door with an "au revoir."

Antique pill rollers, grinders, and mortars and pestles are still in the prescription department along with thousands of volumes of carefully bound prescriptions. Except for fluorescent lighting and a few other modern touches, Max Samson's remains the same as it did 84 years ago.

Mrs. Barnett said she is donating all of the store's fixtures, old prescriptions, exotic herbs, and medicines to the Historical Pharmacy Museum.

and John, spent two days last week on the coast at Eureka, Calif.

Mr. and Mrs. Herb Strikney of Belmont, Calif., are parents of a daughter born Sunday, July 7. The baby has been named Piper Joann. Her mother is the former Juanice Brown.

Richard Allen Campbell Jr. is the name of a son born to Mr. and Mrs. Richard A. Campbell July 15 at the Enloe hospital in Chico, Calif. Mrs. Campbell is the former Sally Jeter, daughter of Mr. and Mrs. L. Everett Jeter.

The production of paper in eastern Canada dates back to 1803.

American Ideas Pushing Development in Mexico

Mexico City — Mexico is borrowing some American ideas to push development of its "backward" economy.

With the help of experts from five states, the Mexican government is organizing an American-model Economic Development Commission to overcome Mexico's 80-year technological lag.

The commission will work on programs to decentralize industry, strengthen provincial economy and slow the migration of Mexicans seeking easier living across the border.

One chief goal will be to take part in Mexico's development.

Mexican industrialist Antonio Ruiz Galindo, former economy minister who heads the commission, calls it "the first step in facing a problem that has slowed the progress of Mexico."

U. S. Experts Consulted Taking its cue from the work of similar groups in Arkansas, Massachusetts and other states, the commission will attempt to organize and plan industrial and economic development on both regional and national scale.

It will solicit new industries and attempt to steer prospective investors to the most logical and profitable areas. Easier credit will be made available for planned development. Technical aid for new industries also falls under the program.

The Mexican Economic Development Commission got its start when Economy Minister Gilberto Loyola invited a group of American experts to give the benefit of their experience in state programs.

William P. Rock of the Arkansas Development Commission, Dr. Randall T. Klemme of the Oklahoma Development Commission, Ohio Development Commissioner Prentiss Mooney, Dr. W. H. Caldwell of the Virginia Development Commission and Robert P. Lee of the Connecticut Development Commission sat down with Mexican officials in the series of meetings held here.

Both government and private enterprise will take an active part on the commission. The fields of research, development, planning, financing and promotion are represented.

Richard Zevada, director of the Bank of Foreign Commerce, said Mexico now realizes it "no longer is practical to fail to plan both government and private enterprise in each and every region of the country."

Other officials emphasized that more foreign investment is needed since Mexico's economic situation — despite tremendous progress in the past 20 years — is comparable to that of the United States in 1860-70.

The officials said that if Mexico continued its rate of steady progress, by the year 2000 it can catch up with the United States level of 1957.

"But the work of the commission should boost our present progress rate considerably," said one member, "and offers a notable step in the right direction towards a better industrial and modern life patterned after Mexican needs, using and adapting the invaluable experience of the United States."

'Passenger Pod' May Answer Problem

Chicago — A "passenger pod" is expected to be the answer to a passenger problem created by the modern jet airliners.

The new device will eliminate the costly ground runs that airliners must make from the runway to the terminal to pick up passengers. The pod also will help eliminate the hazard of engine blast, always present as the plane maneuvers to park.

The "passenger pod," developed by the Clark Equipment Co., will be a shell with seats. It will be picked up by a "straddle carrier" and taken to the plane parked at the end of the runway.

The straddle carrier is a modified version of the ones now being used by industry. The interior of the pod will resemble the inside of a plane, complete with air conditioning and good lighting.

Flight passengers will board the pod outside the ticket gate at the airline terminal and the straddle carrier will pick it up and take it to the plane. The carrier will raise the pod to the plane door, allowing passengers to walk to their seats.

Smallest Gas Turbine Engine Being Designed

San Diego, Calif. — Solar Aircraft Co. is designing what it said was the world's smallest gas turbine engine, to be used in one-man helicopters.

Solar said the engine, called the Solar Mercury, was ordered by a joint Army-Navy contract. The new engine will weigh

TORNADO TROUBLE

Royalton, Ill. — Mr. and Mrs. Walter Young figure they must be tornado-prone. While en route to Nevada on a vacation trip, their auto was overturned by a twister in Arkansas. They escaped injury, but decided to return home. Coming back they were again in a tornado at Alto Pass, Ill., and escaped injury again.

Solar said its engine will operate on standard military fuels and the rotor will spin at 57,000 revolutions a minute.

Third Generation Has Same Teacher

Mazon, Ill. — Almost everyone under 45 years old here has been a pupil of Miss Myrtle Misener. She has been teaching in Grundy county schools for 42 years.

Miss Misener has been in the Mazon grade school for 39 years, 38 of them in the same primary room. Among her pupils this year was her great-niece, Sandra Erickson, marking the third direct generation in Miss Misener's family in her classes.

New Hampshire has only two square miles of inland water area.

FIRST PRIZE—\$2000

1000 second prizes—one silver dollar each
to introduce you and your friends to

New DECAF Instant Coffee...
THE FIRST FULL-FLAVOR COFFEE
THAT NEVER GETS ON YOUR NERVES

Nothing to BUY!
Nothing to WRITE!

SO EASY! SUCH FUN!

• Just send us your name and address, on a standard-size plain 2¢ postcard, together with names and addresses of one to three adult friends. We will send you and each of your friends a generous 4-cup sample of New DECAF Coffee—ABSOLUTELY FREE.

• IMPORTANT: Be sure to list your name first and mark it "My Name." Remember, your postcard is your DECAF Sweepstakes entry blank. 1001 entries will be drawn. First entry drawn wins \$2000. Next 1000 entries drawn win one silver dollar each.

FREE 4-cup sample
of new Nestlé's® Decaf®
coffee to every entrant
and 3 friends

Flavor is IN—
Caffein is OUT

• Sweepstakes open only to residents, 16 years of age or over, of Oregon, California, Washington, Nevada and Arizona.

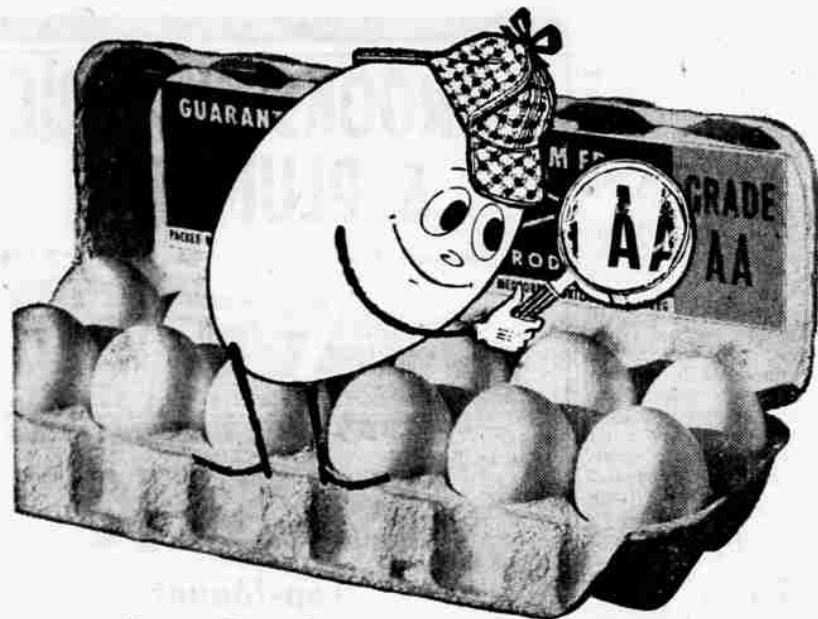

• Address your entry to: DECAF, Box 5, New York 46, N. Y. Only one entry to a family. Each entry must be on a standard-size plain postcard.

• All prize winners will be notified by mail.

• Employees of the Nestlé Company Inc., its subsidiary and associated companies, its advertising agencies and immediate families are not eligible for the Sweepstakes Drawing.

Contest closes Aug. 30, 1957 • Prize drawing, Sept. 16, 1957

the extra "A" makes
the difference!

look for...

nulade
grade "AA" eggs

THE EXTRA "A" MEANS EXTRA FRESHNESS.

Only the very freshest locally produced eggs can carry the "double A" label and Nulade Grade AA eggs are guaranteed farm-fresh.

THE EXTRA "A" MEANS PREMIUM QUALITY.

Break the shell and you can see the difference. Nulade Grade AA eggs have firm yolks and whites...are more uniform in appearance...the finest eggs you can serve.

THE EXTRA "A" MEANS FINER FLAVOR.

Only premium quality, locally produced eggs have that delicate, mild flavor...the flavor that has made Nulade eggs first choice of Oregonians.

They're Guaranteed FRESH
