Pittsburgh—Scientists reveal that the probable cause of aurora borealis, known as northern lights, is streams of hydrogen ions or particles swirling into the earth's atmosphere from the outside.

The Medical Roundup

by *Walter Alway*
 Emeritus Consultant in Medicine,
 Mayo Clinic
 Emeritus Professor of Medicine,
 Mayo Foundation

Doctors' Offices Next To Hospitals
 At a recent meeting of the Tri-State Hospital Assembly in Chicago, Ray Brown of the University of Chicago Hospitals and Clinics said that the chances are that before long more and more doctors' buildings will be put alongside of big hospitals, so that the physicians will not

have to spend time going back and forth as many now do.

Also, around the hospital and the doctors' building there will have to be large parking places for the patients' cars.

Today, people are bitter because so many doctors will not make house calls. Some doctors even hate to go to a hospital. The difficulty is that big cities have become so large that the problems of driving several miles and then finding a parking place are too great. Six years ago, I moved from Rochester, Minnesota, to a city of several million. I found that I could hardly afford to go to a hospital for a consultation, even if I was well-paid, because such a trip would take up most of a morning or an afternoon, and I couldn't afford to give up this amount of time out of my day. In Rochester, a city of 30,000 or so, I could walk from my office to any one of the hospitals in from 5 to 10 minutes.

Warmed-Over Dinner
 One of my colleagues, an able internist, whose day is filled with work, recently acceded to the urgent request of a friend, and agreed to see his sick father in the father's home. The doctor could not get away from his office until six o'clock. Then he had to walk several blocks to a garage and wait until an attendant brought him his car. He drove through the city about seven miles south and spent 15 minutes hunting for an empty parking space. He spent 45 minutes going over the patient, writing prescriptions and telephoning to three hospitals trying to get a room for him. Then the family quizzed him for a while. He hunted up his car and then drove north 10 miles to his garage. From there he walked home, and about 9:20, sat down to a warmed-over dinner. When, later, his secretary sent a bill for \$10 to the patient, he rose up in wrath and said he had been robbed. I can see his point, but I am just showing

Robin Hood Band In Medford Tomorrow

The 70-member Robin Hood band from the San Fernando valley, California, will parade in downtown Medford about 1:15 p.m. Monday prior to its performance at the high school stadium tomorrow night.

The group of boys and girls, aged 11 to 20 years, is appearing here under sponsorship of the Medford Junior Chamber of Commerce with proceeds to go to the Jaycee summer camp at Lake of the Woods.

On a 27-day tour of the west coast, the costumed band highlights its program with a "Band-o-Rama" in which color movies are shown in the background.

The high school program will begin at 7:30 p.m.

Strange As It Seems by Elsie Hix

ANCIENT EGYPTIAN LOCKS BASICALLY USED THE SAME PRINCIPLE AS MODERN LOCKS—JUST AS OF METAL TUMBLERS THEY WERE MADE OF WOOD.

THE FIRST TIME MOVIE DIRECTOR KING VIDOR SAW A MOTION PICTURE CAMERA WAS WHEN HE AND A FRIEND, USING A HOME-MADE CAMERA, FILMED A 60-MILE WINDSTORM RAGING ON THE GULF OF MEXICO.
