Porter Introduces Bill on Mailing

Washington, D. C.—A constituent complaint against mass mailings which misled the reader by misinforming him and attempt to attract attention through unfounded promises has drawn positive Congressional action from Rep. Charles O. Porter (D-Ore.).

The Fourth District Congressman has introduced legislation which would make it illegal to send through the mails envelopes or wrappers containing writing "reasonably calculated" to induce the addressee to examine the contents inside.

Persons knowingly mailing such material or aiding in their circulation "shall be fined not more than \$1,000 or imprisoned not more than one year, or both."

The Congressman checked to see if the law prohibited such mailings when Dale Pederson, a Eugene attorney, complained in anger that he had received a let-

ter whose envelope contained the words "important social security information now available."

Porter checked with the Post Office department. The department's general counsel told the representative in a letter that "I believe that the question as to whether legislation to forbid this practice is warranted merits Congressional consideration."
