

Foot-Prints

Eileen Daly

This is a game for two teams. Before you start to play, cut four large footprints out of heavy paper. Mark two of them with the word *Left* in large letters and the other two with the word *Right*.

Mark off a starting line and, about 20 or 30 feet from it, mark a goal line. The first person on each team is given a left and a right footprint as he stands at the starting line. When the signal is given, both players start out for the goal line by placing a footprint on the ground, stepping on it, placing the other print down, stepping on that, then picking each one up and moving it ahead for the next step. Each player must always place his right foot on the print marked *Right* and his left foot on *Left*. After reaching the goal, he turns and goes back to the starting line in the same manner, then hands the prints to the next in line. Any player who fails to step on the paper footprints must start over. The first team to get to the goal wins!

JUNIOR TREASURE CHEST
