

India Flatly Against Russia Condemnation

LIKE OLD DAYS—Coarse yellow gold, that more than a century ago brought prospectors to Jacksonville, was discovered this week in an area being excavated by county road equipment in building a bridge across Jackson creek within the city limits of the small town. The gold is in virgin blue clay in the stream bed, not far from where the original strike was made in the 1850s. Although extraction of the gold cannot be done on a large scale because of limited space, a half-dozen excited prospectors panned out the ore in the bottom of the pit yesterday while numerous townspeople look on. Ernest Dorn, above, whose father was a pioneer gold miner in Jacksonville, holds a pan containing about \$7 worth of the yellow metal.

Faubus Takes Off For Session With Ike on Saturday

No Legal Advisers For Governor at Talk

Newport, R.I.—Arkansas Gov. Orval E. Faubus took off from Little Rock today for a dramatic meeting here Saturday with President Eisenhower on the school integration impasse in Little Rock.

Faubus, who has defied a federal court order to admit Negroes to Central High school in Little Rock, was accompanied by two consultants.

Route Not Disclosed
No information was released as to the route of the six-place Aero-Commander plane carrying the gubernatorial party or the estimated time of arrival at the summer White House.

But Faubus told reporters he understood he and his companions would spend the night "in the Newport area."

The conference is scheduled for 9 a.m. (e.d.t.) Saturday.

Faubus said he would have no legal advisers with him at the talks with Eisenhower.

"The only time I need legal advice is in court, not in a conference," the governor said.

Helicopter Flight

The meeting between Eisenhower and the Arkansas governor was arranged by Rep. Brooks Hays (D-Ark.) an old friend of the President. But there was no immediate indication Hays would be present at the conference.

White House Press Secretary James C. Hagerty said it was likely Faubus and his party would spend the night in Providence, R.I. He said they would be picked up by helicopter Saturday near Providence and flown here for the meeting.

Automobile Possible
In case bad weather interfered with this arrangement, Hagerty said, the group will be brought here by automobile.

Hagerty said Attorney General Herbert Brownell Jr. and Presidential Assistant Sherman Adams will arrive here Saturday, half an hour before the president's meeting with Faubus.

White House Press Secretary James C. Hagerty said it was likely Faubus and his party would spend the night in Providence, R.I. He said they would be picked up by helicopter Saturday near Providence and flown here for the meeting.

Accepted Job
Shortly after, Porter said, Murphy accepted a job from Gen. Arturo Espailat, Dominican consul-general in New York to fly an "invalid" from New York to West Palm Beach. From there he took off for the Dominican republic.

"A few days later he returned to Miami, a good deal richer. The following month he became a copilot for the Dominican Airlines. Later Gen. Espailat denied knowing Murphy."

Murphy was last seen in the Dominican Republic Dec. 3. The next day his car was found abandoned on a cliff overlooking the sea.

On Jan. 7, the Dominican government announced that another pilot, Octavio de la Maza, had hanged himself in his jail cell, leaving a note in which he "confessed" killing Murphy, Porter said.

Note Said Forgery
"On March 16, in a formal note delivered to the Dominican government, the State department stated that the suicide note is a forgery, Porter said."

"How was Trujillo emboldened to commit crimes upon U.S. citizens and U.S. residents, not only in his own territory, but right in the United States? How does he have the audacity to submit to our government a forged note as explanation of an American citizen's death?"

Porter said some of his colleagues in Congress also reacted in this manner.

"Now I underestimate neither the importance of inter-American solidarity nor the dangers of international Communism," he continued. "But we will not jeopardize the cause of freedom by closing our eyes, in the name of anti-Communism, to other tyrannies which usurp the sovereignty of the people."

Galindez disappeared from New York City March 12, 1956. Porter said New York City police investigated his disappearance, "knowing he had feared for his life at the hands of Trujillo's thugs." However, no proof of complicity could be found.

Porter told the Common-wealth club of California, Porter reviewed the events that led to the disappearances of Jesus de Galindez, a Basque scholar and avowed foe of Dominican President Rafael Trujillo, and Gerald L. Murphy, an Oregon pilot.

"When I began to pursue the strange disappearance of my constituent, a number of high State department officials called on me," Porter said. "At first, they asked me to soft pedal the case. I was told that inter-American solidarity would suffer, that our defensive agreements with the Dominican Republic had to be considered."

"I am underestimating neither the importance of inter-American solidarity nor the dangers of international Communism," he continued. "But we will not jeopardize the cause of freedom by closing our eyes, in the name of anti-Communism, to other tyrannies which usurp the sovereignty of the people."

Porter Tells of Bid By State Department To Soft-Pedal Probe

San Francisco — Rep. Charles O. Porter (D-Ore.) said today the State department once asked him to "soft pedal" his investigation of the mysterious Galindez case.

In a speech to the Commonwealth club of California, Porter reviewed the events that led to the disappearances of Jesus de Galindez, a Basque scholar and avowed foe of Dominican President Rafael Trujillo, and Gerald L. Murphy, an Oregon pilot.

"When I began to pursue the strange disappearance of my constituent, a number of high State department officials called on me," Porter said. "At first, they asked me to soft pedal the case. I was told that inter-American solidarity would suffer, that our defensive agreements with the Dominican Republic had to be considered."

"I am underestimating neither the importance of inter-American solidarity nor the dangers of international Communism," he continued. "But we will not jeopardize the cause of freedom by closing our eyes, in the name of anti-Communism, to other tyrannies which usurp the sovereignty of the people."

Elmo Smith Speaks At Ceremonies for Red Cross Building

"Probably the greatest good of the American Red Cross has been making itself a vehicle for use of volunteer personnel," members of the Jackson county Red Cross chapter were told yesterday at dedication ceremonies for the new chapter house at 60 Hawthorne st.

Ex-Governor Elmo Smith, now editor and publisher of the Albany Democrat-Herald, offered the compliment in his address at the luncheon ceremony held in the new building's auditorium.

About 200 persons attended. Smith outlined the history and projected the future of the organization. He said Red Cross can provide a valuable program in the "hazards of future living."

"Through the Red Cross, we have learned to bulwark ourselves against disaster," Smith stated. He selected the current blood bank program as the "most severe challenge" ever faced by the organization.

Eugene Thorndike, outgoing chapter chairman, presided at the luncheon, which served also as the 40th annual chapter meeting. Following the luncheon, Manville Heisel was announced by the nominating committee as chairman for 1957-58.

Mr. and Mrs. Alfred S. V. Carpenter, who donated the building to American Red Cross for administration by the local chapter, were honored. A certificate commending the work of Mrs. Carpenter, who has been active in Red Cross work for several years, was presented from the national Red Cross chairman.

Carpenter said "there will be something for the Red Cross to do in the next 50 years... that's why this building is here." At the end of the meeting, certificates and awards were given local workers, and the nominating committee announced the slate of officers and board members for the coming year. The slate was unanimously accepted.

Participating in the program were the Rev. George R. V. Bolster, of St. Mark's Episcopal church, and Bishop Benjamin Dagwell, Portland.

The public block and stained wood chapter house contains 5,200 square feet of floor space. It includes administrative offices, conference room, kitchen, laundry, auditorium and disaster warehouse.

All non-profit community service organizations may use the building. Nominated and accepted as officers for the coming year were Manville Heisel, chairman; Dr. Elmo Stevenson, first vice chairman; Todd Tibbitt, second vice chairman; Kenneth McDonald, third vice chairman; Mrs. W. E. Thomas, secretary; and Elwood Hedberg, treasurer.

The nominations included incumbent board members reelected for the term 1957 to 1960: Rodney Keating, Miss Helen Bullis, Mrs. Martin Luther, Mrs. W. C. Zieser, Dr. Malcolm Byers, Col. Charles Stafford, and Mrs. R. E. Carley. Board members newly elected for the same term included Dr. William M. Sammons, Col. William H. Bartlett, Mrs. MacLeod Maurice, Berwick L. Wood, Robert G. Balk, Mrs. David Lowry and Carl Nelson.

Juvenile Arrested After High-Speed Chase in County
Medford police arrested a 15-year-old boy last night for car theft after he led six city patrol cars on a chase in which speeds sometimes reached more than 110 miles an hour. He was released to his parents, police said.

The juvenile was arrested at the Butte Falls intersection on Highway 62 where two police cars formed a roadblock. Police said they had to fire several warning shots at the stolen car's tires to force it to a complete stop.

The youngster (who, at 15, had no driver's license) was brought into juvenile court this morning. He had been on probation for an earlier car theft since Aug. 28, under customary conditions, including an 8 p.m. curfew.

After the hearing, Circuit Judge Edward Kelly committed him to McLaren School for Boys at Woodburn.

The 1957 car was reported stolen to police by Floyd Leslie Somers, 36 Glen Oak court, from 241 North Pacific highway at 11 p.m. Somers told police the car had been taken between 6 and 11 p.m.

While still on the scene of the theft, police reported seeing the car heading north on Biddle rd. at a high speed. The car failed to obey police sirens and increased speed until police reported they could no longer see the car's tail-lights while traveling about 110 miles an hour on Highway 62. The juvenile later admitted going more than 120 miles per hour, police said.

The car was observed again a few minutes later heading toward Shady Cove. At it neared the Butte Falls intersection, the roadblock was set up.

Upon questioning the juvenile admitted he had taken the car after seeing the keys in the ignition and the door unlocked, police said.

Police lost the services of two cars in the chase when an oil line in one broke while en route to the Biddle rd. area and another had a flat tire after falling behind the car during the chase. Police said the safety-designed tire saved the lives of two officers by releasing air slowly.

Aurora Borealis Gives Spectacular Display
One of the most spectacular displays of aurora borealis, or northern lights, seen in this area for many years was observed by many residents last night.

Much of the night the northern portion of the sky was filled with pinkish radiance, often shot through with streaks of white light. "Like searchlights," one observed reported.

Cause of the aerial lights, seldom seen in latitudes this far south, has not been definitely determined, but one theory is that it is caused by magnetic emanations from the sun reacting with the upper atmosphere of the earth over the poles.

"Out, Damned Spot! Out, I Say!"

Pear Harvest About 75 Per Cent Complete, Spokesmen Indicate

Pear industry spokesmen said today the harvest in the Rogue valley is about 75 per cent complete. Harvest end is expected by the week of Sept. 23.

Earlier harvest finish this year is due to an earlier season with favorable picking weather, with no time lost to rain, and a slightly smaller crop. Better sizing of the fruit also helped with resultant speeding up of the handling process.

The Bartlett harvest has been completed and the last of the D'Anjou crop was picked by mid-week. Comice and Bosc varieties are being picked now.

Total production this year will be considerably lower than last year's bumper harvest and slightly under the pre-harvest estimates of three million boxes, spokesmen said. The total, however, is anticipated to be close to a normal year's production.

Final packout totals will not be available until after harvest. General quality and condition of the fruit is considered good. Current fresh Bartlett market is firm spokesmen said. The fruit is moving to market at a good rate and prices in general are considered satisfactory. Also, wide distribution for Rogue Valley pears is being maintained and orders are being taken from all parts of the country.

Export demand also looks favorable for the winter pear crop, it was reported. Shipments are planned for Sweden, Holland and Germany.

"The estimated \$15,000,000

Convention Called Of Board Members
A convention of all school board members in Jackson county will be held Oct. 7 at 8 p.m. in the courthouse auditorium here to select a nine-member committee to work toward reorganization of school districts, County School Superintendent Alf B. Mekvold has announced.

All members of school boards in the county may attend the convention and any legal voter is eligible to serve on the committee.

The purpose of the county committee is to plan reorganization of school districts, where necessary, into more efficient administrative units to provide better educational program for schools concerned.

In addition to nine committee members, five alternates will be selected to fill any vacancies which may occur on the committee. An explanation of the school reorganization act and a discussion period also are planned, Mekvold said.

The reorganization bill became effective Aug. 20, 90 days after the close of the 1957 legislature. Attempts to have the measure referred to a vote of the people failed because the required number of signatures for a referendum were not certified before the deadline.

Reports from Beirut said 12 persons were killed on the Syrian-Lebanese border Thursday in a clash between armed Syrian civilians and Lebanese gendarmes.

King Hussein arrived home from his vacation in Spain late Thursday to confer with government officials in Amman who have shown mounting concern over the Communist threat from Syria.

Even before his arrival, officials had tightened security

Effort To Weaken Resolution Seen Certainly Doomed

Replacing 'Condemns' With 'Deplores' Asked

United Nations, N. Y. — India declared itself today flatly against any condemnation of Russia and the Hungarian regime for the brutal suppression of last year's freedom revolt in Hungary.

Despite the position taken by India, a recognized leader of the Asian "neutralist" group, efforts to weaken a 37-power resolution condemning the Soviet action appeared certainly doomed.

Burma Resolution Rejected
The United States, with the unanimous support of the other 36 sponsors, rejected a resolution by Burma to replace the word "condemns" with "deplores" in the resolution.

Observers foresaw a crushing defeat for this move and an overwhelming approval of the resolution as submitted when it comes to a vote tonight or Saturday.

Ambassador Arthur S. Lall told the General Assembly's special session India's attitude "does not mean that we, in any sense, approve of what has taken place in Hungary," he added.

"We feel we must, both in the interests of Hungary itself and in the larger interests involved, turn away from the course of condemnation..."

Supports 'Pull-Back'
Lall expressed India's support for the proposal of Irish Foreign Minister Frank Aiken that both Soviet and North Atlantic Treaty Organization forces be pulled back 60 miles or so from the Iron Curtain frontiers as a first step toward liberating the satellite countries.

Travel at Crater Lake Shows Decline
Travel to Crater Lake National park during the summer tourist season this year was slightly below the numbers of visitors in 1956, 1955 and 1954, the park office here reported this week.

During 1957 through Aug. 31, the park office said 81,472 automobiles carrying 278,876 people had visited the park.

Both '56 and '55 seasons had larger volumes, of both cars and people, and 1954 saw fewer cars but more people. The totals given were, for 1956, 81,879 cars and 288,786 people; for 1955, 81,725 cars and 290,556 people, and for 1954, 81,359 cars and 296,988 people.

Temporary Farm Labor Office Closes Today
Oregon State Employment Service temporary farm labor information office, 1665 South Pacific highway, will close for the year at 3 p.m. today.

All agriculture employment information will be handled through the main Medford office, 119 North Oakdale ave., the remainder of the year.

The highway office was open six weeks, beginning Aug. 5.

Officers To Be Named At 4-H Council Meeting
Annual election of officers for the Jackson county 4-H council will be held starting at 7:30 p.m., Wednesday, in Bigham hall at the county fairgrounds.

Officers listed by the nominating committee include Carolyn Ties, Talent, president; Phillip Krouse, Applegate, vice president; Virginia Martin, Phoenix, secretary; Jo Anna Malloroy, Antelope, reporter.

Welding of Syrian and Egyptian Forces Gives Israelis Jitters

A tighter welding of the Syrian and Egyptian armies gave Israel a new case of the jitters today.

Two days of talks between Syrian and Egyptian military leaders in Cairo resulted Thursday night in binding their two armies even closer under a joint command controlled by Egypt.

'One Army, One Command'
The leftist commander of the Syrian army, Gen. Afif Bizir, said before returning to Damascus that his army and that of Egypt were "one army, with one command and one strategy."

Israeli sources in Jerusalem said there was no doubt in their minds what that strategy is—to wipe Israel off the map.

But authoritative western sources said the pro-western Arab nations of Lebanon and Jordan, both neighbors of Syria, were considerably concerned that Egypt's military support of Syria might be aimed at them too.

Reports from Beirut said 12 persons were killed on the Syrian-Lebanese border Thursday in a clash between armed Syrian civilians and Lebanese gendarmes.

King Hussein arrived home from his vacation in Spain late Thursday to confer with government officials in Amman who have shown mounting concern over the Communist threat from Syria.

Even before his arrival, officials had tightened security

SIXTH M-T CONTEST WINNER—Eugene K. Peterson, 523 Fairmont street, Medford, is shown above getting his first one year's subscription to the Mail Tribune from carrier Larry Jones after winning the sixth Bargain Days' picture contest. Peterson is district forester of the bureau of land management and has lived in Medford since 1938, when he first subscribed to the Mail Tribune. He has taken the paper ever since, even though he was gone three years to serve with the BLM in Roseburg and Washington, D.C. Peterson does a lot of traveling in this area and knows the country well. His wife knows a good many people in the area, and between the two of them they were able to solve the picture contest, Peterson said. Mail Tribune Bargain Days will continue through Monday, Sept. 16.

Weather
FORECAST: Afternoon and evening thunderstorms over the mountains, with slight chance of showers in the valley. Otherwise fair through Saturday. Low tonight 50, high tomorrow 58.
