### Polka Dot Paint New For Do-It-Yourselfers

New York—New for the do-it-yourselfers, a polka dot paint.

That's what the manufacturer said. The company which is out to put spots before our eyes says the paint can give polka dots in color to any painted or paintable surface. Polka dots are sprayed out of an ordinary aerosol container, without any special attachments.

The dots size can be adjusted by removing the brass valve pin from the nozzle spray head of the container. Size of the dots is determined by how close to the surface the spray is held. The further away, the smaller the dots.

The manufacturer expects the most popular treatment to be one of spraying dots on a solid base coat; but if the painter wishes, he or she can apply polka dots of contrasting colors and size for a multi-color effect. Colors include citron, gray, pink, royal blue, red, black, white and gold.

## Delegate Reports On International Nurses' Meeting

Miss Gertrude Mblloy gave an informal talk on her recent trip to Europe at the last meeting of Oregon Nurses' association, District 4, held at Sacred Heart hospital. Miss Molloy was in Rome in time for the International Congress of Nurses.

Miss Molloy's route took her to Frankfurt and Heidelberg and through the Black Forest of Germany. She was impressed with the cleanliness of both the towns and countryside of Germany. At Lucerne, Switzerland, the constantly growing group of nurses found that because of the meeting of Rotary International, hotel accommodations were hard to find. The nurses were sent, via cable car, high up on a mountain to other quarters.

The International Congress brought 3,000 nurses from 54 countries together. National flags and national costumes increased the impressiveness of the marble meeting hall, Miss Molloy said. Headphones enabled the delegates to listen to the proceedings in English, French or Italian. Miss Molloy said she was particularly interested in hearing problems discussed which are current here as well as in other countries. Medical-nursing, legal aspects and memberships were among the discussions which proved to be international in scope, she reported.

The building which had served Mussolini as headquarters was the resplendent scene of an evening reception which all 3,000 nurses, plus others, attended, Miss Molloy said.

Other high points of interest were the special service at St. Peter's church at which Pope Plus made his appearance, and the return stops at Lourdes, Paris, London and Dublin which the nurse made. From Shannon airport in Ireland Miss Molloy made a fast trip on a TWA jet-stream plane substituted for

NOTE: Some frozen strawberries lack color. This may be improved by adding ¼ teaspoon red food color, available at any grocer's.
