

Portion of Russian Rocket Now Satellite

Missile Caught In Space; Going Around Earth

Disclosure Fails To Surprise Scientists

London — Moscow Radio announced today that part of the missile which launched Russia's satellite is also encircling the earth in a moon-like orbit of its own.

The last stage of the rocket apparently was caught in space and became a second satellite. "It is not only the satellite which is being watched," Moscow Radio said, "but also the rocket that carried it into the orbit."

Nearly Same Altitude

"This rocket is also encircling the earth at approximately the same altitude as the satellite. "But it is separated from it by some 1,000 kilometers (680 miles). This distance will alter in the future."

This announcement was the latest in Russia's stepped-up scientific and propaganda battle with the West. Shortly before, it reported it had exploded a "new" hydrogen warhead Sunday. This came only a few days behind Moscow's achievement of launching the first earth satellite into outer space.

Scientists not surprised. Tracking the shell, as well as the satellite, would provide highly important information on the character of space.

Moscow's disclosure was not a surprise to scientists. Theoretically, anything fired outside the earth's atmosphere and gravitational field at sufficient speed would become a satellite, regardless of shape or design.

Drs. J. Allen Hynek and Richard E. McCorsky of the Smithsonian Astrophysical Observatory in Cambridge, Mass., told newsmen earlier today that they believed the satellite might actually include the third-stage rocket.

May Have Been Rocket

McCorsky said at that time there was a possibility the rocket itself had become a satellite of even greater dimensions than the original. McCorsky said that on this basis it was possible that a reported sighting of the satellite in Alaska Sunday was actually the third stage rocket.

Observers said the orbiting of the Soviet rocket gave convincing new evidence of the Kremlin scientists' ability to aim a guided missile.

Only One Rocket

It would have to be delivered into space at exactly the right speed on 'orbit' into a perfect trajectory.

Presumably, only the last stage of the launching rocket was revolving about the earth. Scientists believed it required at least a three-stage rocket—one rocket firing after another, with the spent one dropping out—to carry the 184-pound satellite to its orbit 560 miles above earth.

The news of the second accidental "satellite" was broadcast to Soviet listeners in the Moscow home service early in the evening.

Salem — The State Board of Control has formally appointed Amos Reed as new superintendent of MacLaren school for boys.

Retire Sen. Neuberger, Alcorn Urges Young GOP

Cos Bay — H. Meade Alcorn, chairman of the Republican National Committee, told the annual convention of the Oregon Young Republicans here Saturday evening that he is convinced the Republican party can make a comeback in Oregon in 1958.

Alcorn told the group that their "first step" must be to "retire" Democratic Sen. Richard L. Neuberger "to private life" in 1960.

Speaking of Sen. Wayne Morse, also an Oregon Democrat, he declared, "Unfortunately the people have no early opportunity to get rid of Morse." Sen. Morse was elected last year, and his term expires in 1962.

The GOP official told the convention delegates there is a "vast

GUEST SPEAKER—At a dinner meeting of the Democratic Social club in the Medford hotel Saturday night, Representative Charles O. Porter outlined different phases of the Rogue basin development bill which he put before Congress this year. Cost of the proposed project will be over \$66 million. At the head table with Porter, seated left to right, are Mrs. Porter, chairman of the Democratic

Central committee Larry Sheehan and Democratic Social club president Marvin Madden. Other guests at the dinner included Rep. and Mrs. Robert Duncan. This morning, Porter, along with Henry Stewart of the Army engineers and Jack Hoffbuhr of the Medford Irrigation district flew over various proposed dam sites along the Rogue and Applegate rivers to study the terrain from the air.

Porter Flies Over Project Site Prior to Auto Tour of Same Area

Congressman Charles O. Porter this morning flew over several widely-separated portions of his proposed Rogue Basin development project, to see from the air proposed dam sites and alternative locations.

He made the flight before an automobile caravan tour of some of the locations, and after a briefing session at the Medford hotel, at which two representa-

tives of the corps of engineers told of progress in their study of the projects. The Eugene Democratic congressman is sponsor of a bill to authorize the project, at an estimated cost of some \$66 1/2 million. Additional studies, supplementing earlier work by a number of federal agencies, are now under way.

The congressman, flying in a Rogue Flying Service plane, and accompanied by Henry Stewart of the engineers and Jack Hoffbuhr of the Medford Irrigation district, first went over the proposed Applegate dam site, just above Ruch and just below the confluence of the Big and Little Applegate rivers. They then proceeded to the Copper area, where an alternate dam site is under study, which would curtail some flood control benefits, but be better for the Applegate fishery.

Follows Applegate

The plane then followed the Applegate down to the Rogue just below Grants Pass, then upriver to the Lewis creek dam site, over which most of the controversy in the project has arisen, and then over three dam sites which are under consideration as alternates to Lewis creek. They are on Elk creek,

Juveniles Arrested For Torpedo Thefts

Police arrested three juveniles and are looking for several more in connection with a series of thefts of railway torpedoes and fuses from a Southern Pacific caboose standing on the right-of-way near Jackson and Clark sts. during the week end, according to city police.

Police said they first arrested a 15-year-old in the Craterian theater on Saturday night and arrested a 15-year-old and 14-year-old on Sunday afternoon in connection with the torpedo theft. When questioning the three youths at the station, police said they admitted to taking the flares and fuses and also told police of other youths involved in the theft.

A police officer, making a routine check, found a box of the torpedoes and fuses on top of a stairway leading to the roof of the Fluhrer building Saturday night. Acting on a "tip," police arrested the first boy while he was watching a movie.

The other two juveniles were arrested while placing torpedoes on the Southern Pacific tracks in front of freight train, police said. Police said also they had recovered 32 torpedoes and a number of fuses from the three boys. A number of fuses and torpedoes are yet unaccounted for despite the number the boys say they used, officers said.

The three youths were released in custody of their parents pending action by juvenile authorities, police said. Investigation is still underway to locate the remaining flares, they added.

Faubus Says Troops Accompany Girls To Dressing Rooms

Army Spokesman Denies Knowledge

Little Rock, Ark. — Gov. Orval E. Faubus charged today that federal troops guarding Central High school have been invading "the privacy of the girls' dressing rooms."

He made the charge in a letter to Maj. Gen. Edwin A. Walker, military commander here.

A spokesman for Walker said the Army had no knowledge of any such incident.

Superintendent of Schools Virgil T. Blossom, after checking with Central High school officials, told reporters:

"The troops are not following the girls into the dressing rooms. Why the governor takes the word of a bunch of agitators to make such a charge I do not know."

Assistant School Superintendent Fred Graham said the accusation was "ridiculous."

Complaints Received

Faubus told Walker in his letter that he has "received a number of complaints from parents, mostly mothers, about your troops accompanying the girl students to their dressing rooms."

The governor, who distributed the letter to the press before it was received at Walker's headquarters, suggested that the general bring in a number of Women's Army Corps members to police the dressing rooms if he feels troops are needed to protect Negro girls there.

He said it would be "more seemly" for Wacs to handle such guard duty "rather than male soldiers armed with rifles, bayonets and billy clubs."

Tensions Seen Easing

The governor's latest blast at the federal troops came after a Negro leader said racial tensions seemed to be easing in Little Rock and the atmosphere at Central High was "getting back to normal pretty fast."

Mrs. Lucius C. Bates, Arkansas leader of the National Association for Advancement of Colored People, said the nine Negro students attending Central High under the protection of federal troops are beginning to look forward "hopefully" to the day when "they can walk to school like everyone else, without armed guards."

The Army escorted the Negro boys and girls to school as usual this morning. Informed sources said Maj. Gen. Walker had no immediate plans for reducing the force of paratroopers and national guardsmen patrolling the school.

Power Outage Occurs In Southern Oregon

An outage throughout the general system of California-Oregon Power company was reported a little before 10 a.m. today when trouble developed in the substation yard at Dixonville, near Roseburg, company officials said. The sub-station serves Southern Oregon and northern California areas. The power was off for about 30 minutes.

Local hospitals reported the use of auxiliary power during the period, with Sacred Heart hospital switching to an auxiliary generator. Both Osteopathic and Rogue Valley hospitals switched to battery powered lamps. Several x-rays and one operation were delayed at Osteopathic hospital due to the power failure. At Rogue Valley hospital an operation was reported in progress at the time. Battery lamps supplied the power in the operating room, hospital officials reported.

City police reported normal operations from stand-by generator for police radio, teletype and office lights. Several small traffic jams were reported in the downtown area due to the lack of traffic signals. Police directed traffic in heavily traveled intersection.

Radio stations in the valley were off the air during the power failure, station spokesmen said.

Drill Planned Tonight For National Guard

A drill will be held tonight for headquarters company of the first battalion, 186th infantry of the National Guard, Capt. S. J. Fagone announced this morning.

Pay checks will be available for those who have not already received them, he added. Many of the previous drills had been cancelled due to curtailment of National Guard funds on a national level, the captain reported.

BRAVES GO AHEAD ON 1 TO 0 VICTORY

"What Are You Going To Do About It, Chum?"

Burdette Allows Seven Scattered Hits for Margin

Two Cheap Hits Beat Yanks' Whitey Ford

Milwaukee — Lew Burdette an ex-Yankee farmhand, poured it on his former teammates for the second time today, defeating them 1-0 in the fifth game of the World Series to put Milwaukee on top of New York, three games to two.

The 30-year-old right-hander whom the Yankees let go in 1951, outpitched Yankee clutch ace Whitey Ford in one of the classic pitching duels in series history.

Burdette, who had won the second game of the series at Yankee Stadium to get the Braves even, put them ahead today as he mowed down the New Yorkers, playing without Center Fielder Mickey Mantle, on seven hits.

For Ford, who had won the opening game for the Yankees, it was a heart-breaking defeat. He yielded only six hits, and two of them of cheap variety beat him.

Play by play: Yankees first: Bauer singled. Kubek sacrificed. McDougald lined out. Berra rolled out. No runs, one hit, no errors, one left.

Braves first: Schoendienst bunted out. Logan popped out. Mathews walked. Aaron lined out. No runs, no hits, no errors, one left.

Yankees second: Slaughter singled. Schoendienst was injured in attempting to field the ball and was replaced by Mantilla. Simpson struck out. Slaughter was out attempting to steal. Lumpe tapped out. No runs, one hit, no errors, none left.

Braves second: Adcock grounded out. Crandall singled. Covington lined out. Crandall grounded out. No runs, one hit, no errors, one left.

Yankees third: Coleman grounded out. Ford rolled out. Bauer singled. Kubek forced Bauer. No runs, one hit, no errors, none left.

Braves third: Burdette and Mantilla grounded out. Logan flied out. No runs, no hits, no errors, none left.

Yankees fourth: McDougald lined out. Berra was safe on Adcock's error. Slaughter singled. Simpson hit into a double play. No runs, one hit, one error, one left.

Braves fourth: Mathews struck out. Aaron singled. Adcock hit into a double play. No runs, one hit, no errors, none left.

Yankees fifth: Lumpe and Coleman grounded out. Ford struck out. No runs, no hits, no errors, none left.

Braves fifth: Burdette and Mantilla grounded out. Logan flied out. No runs, three hits, no errors, two left.

Yankees seventh: Berra singled. Slaughter hit into a double play. Simpson grounded out. No runs, one hit, no errors, none left.

Braves seventh: Covington flied out. Logan batted out. Burdette struck out. No runs, no hits, no errors, none left.

Yankees eighth: Torre replaced Adcock. Ford first base for the Braves. Kubek grounded out. Coleman singled. Mantle ran for Coleman. Howard batted for Ford and struck out. Mantle was out stealing. No runs, one hit, no errors, none left.

Braves eighth: Richardson replaced Coleman and Bob Turley relieved Ford for the Yankees. Mantilla flied out. Logan and Mathews struck out. No runs, no hits, no errors, none left.

Yankees ninth: Bauer and Kubek struck out. McDougald singled. Berra popped out. No runs, one hit, no errors, one left.

Students Pour Into Riot-Torn Warsaw

Warsaw — Hundreds of students from other Polish cities poured into riot-torn Warsaw today for a mass meeting in defiance of a police ban.

The location and exact purpose of the meeting was kept a secret and steel-helmeted militiamen patrolled every street in the center of the city on the lookout for it.

The city was quiet but tense and there were fears the meeting would spark another riot of the type that has rocked the capital four nights in a row.

Hundreds of young persons were reported under arrest but there was no accurate count. Students summoned.

Thousands of out of town students were summoned to the meeting but not all of them came into town. A police ban on student meetings apparently dampened the spirit of the others.

The Polytechnic Institute, the scene of the first bloody riot last Thursday, did not open for classes today.

Little was known about today's meeting but it was apparently was called in connection with the government shutdown.

Rotarians Net \$1,000 In Suit Sale Proceeds

Approximately \$1,000 was netted in the suit sale sponsored by the Medford Rotary club here Friday and Saturday, Ken Cook, general chairman of the sale, said today.

The \$1,000 estimated in net sales receipts is approximately half of the net proceeds from last year's sales, Cook said. Then the Rotary club committee raised \$2,000 to give to the Rogue Valley hospital.

Cook said about 200 suits were on sale this year and all but 20 of these were sold. Last year many more suits were placed on sale through donation.

This year's proceeds will be used by the civic club's youth activities. A major project is bringing a foreign exchange student to this area through the American Field Service. Such a student would attend public schools here for a year, Cook explained.

Cook added that he had obtained 25 suits by sending a form letter throughout the United Air Lines system. He is manager of the local office.

Gromyko Fails To Budge During Dulles Conference

Washington — Soviet Foreign Minister Andrei Gromyko hewed to the Kremlin's hard line and refused to budge during the lengthy week end parley with Secretary of State John Foster Dulles.

Radio stations in the valley were off the air during the power failure, station spokesmen said.

Neuberger Says Foreign Aid Program Supported To Keep Boys Out of Uniform

Salem — Sen. Richard L. Neuberger (D-Ore.) said today that in supporting President Eisenhower's foreign aid program "I felt that I was voting to keep young Americans out of uniform in distant and dangerous parts of the globe by helping to arm brave and valiant allies who want to fight at our side."

Neuberger told Chamber of Commerce members here that the Mutual Security Program is designed to meet a certain assumed world situation. He listed "four basic ideas or assump-

Talent Pair Found After Night Search

A Talent man and his 10-year-old son were found this morning after an all night search by sheriff's deputies and relatives of the missing man.

George Cutburth, 56, Talent, and his son, Hadley Cutburth, were reported lost in the Imnaha Gap area about 20 miles northeast of Butte Falls late Sunday evening. The two were hunting and were separated from two other hunters, Delbert Johnson and Danny Tuttle. The others called Mrs. Johnson who reported the man and boy missing to sheriff's officers.

The man and boy were reported to have wandered away from their car and became confused as to directions. Once they realized they were lost, Cutburth told authorities, he built a fire and spent the night in one location. Early this morning a daughter of the Cutburths drove farther up the road from where the Cutburths was parked and honked the car horn until until the man and boy appeared.

Preparing to join in the search after daylight were loggers and U. S. Forest Service personnel as well as Oregon state police.

Last Nuclear Device Exploded in Nevada

Angel's Peak, Nev. — The nuclear device "Morgan" blasted the new day at 5 a.m. (pst), today, bringing to a close in flame and fury the nation's 1957 series of atomic tests.

The device, 24th exploded in the spring and summer series, was cradled under a plastic balloon tethered 500 feet above the Yucca Flat test site, 75 miles northwest of Las Vegas.

The blast ripped the morning sky with a force equivalent to between 5,000 and 10,000 tons of TNT and sent the familiar, but still awesome, mushroom cloud rising high into the sky.

Blinding white light of the flash was seen hundreds of miles away. The shocking force of the wave swept across the desert area, swirling up dust and sand.
