

DOUBLE DOSE OF GLAMOR HITS VEGAS—Jane Russell (left) threw Hollywood a curve as she made her night club debut at the Sands in Las Vegas, Nev. She did a sharp satire on the film colony with a number called "Be Happy With the Yacht You Got," punctuated by sexy bumps and grinds. Another newcomer to the night club circuit was Mamie Van Doren (right) who opened down the street at the Riviera wearing a \$12,000 rhinestone trimmed gown. Mamie did a sultry version of "Let's Fall in Love" in her act.

News About Books From the Library

Now that the Russians have taken the "first step into the last frontier" with the launching of a space satellite, almost everyone wants to know: What are these objects? What will they do? How will they affect our life?

In the highly informative book "Satellite" authors Erik Bergaust and William Beller give the answers. Their late book contains more complete and accurate information on the subject than is available anywhere else, according to Miss Helen Webster librarian. Yet it is written in non-technical language and conveys to the reader the excitement that the authors themselves feel about this daring project.

The Medford Public library has several other recent books about man's conquest of space. It is clearly and brilliantly told by Jonathan Leonard, science editor of "Time" magazine in "Flight Into Space," and by Patrick Moore in "Earth Satellites." "Conquest of the Moon," edited by Cornelius Ryan, is an account more exciting than any science-fiction of a trip to the earth's satellite as it will be after the establishment of space

stations. "The Exploration of Mars," by Willy Ley and others outlines discoveries to date about the planet and describes a possible space trip to it.

All the books can be obtained through any Jackson County Library agency.

Art History Students Duplicate Old Tools
Madison, Wis. — Art history students at the University of Wisconsin take to the farm, marsh and outdoor fireplace to duplicate tools used by the "old masters."

Students are sent to barnyards to collect quill pens, to the marsh for reeds and to chimneys for soot, an ingredient of bistre ink.

It's considered the best way for students to appreciate the masterpieces, according to the chairman of the department, James S. Watrous.

Watrous recently completed a book, "The Craft of Old-Master Drawings," which explains ways of making inks, crayons and chalks, along with reed and quill pens.

Victim of Thief Gets Surprise of Life
Detroit — Charles Ishwood, proprietor of a beer and wine store, got the surprise of his life hours after he reported the theft of 50 cartons of cigarettes.

Ronald D. Straley walked into the store, handed 498 packs of cigarettes to Ishwood, explained he had smoked two packs after stealing the cigarettes, and paid 50 cents for the packs he had smoked.

Straley, who said he decided to return the cigarettes after spending a "so ul - searching" night, pleaded guilty to a burglary charge in recorder's court.

ILLINOIS VALLEY Rains Wash Out Bridge

By HELEN BOTTEL

Cave Junction — Hard rains Sunday washed out the temporary bridge across the Illinois river near Kerby.

The bridge was finished last spring as a stop-gap until structures on the Redwood highway could be transformed into a new Finch bridge.

It will be some time before the new bridge is ready for use, although a spokesman for the West Coast Steel company says the spans should be in place by the end of the month. Meanwhile, Westside road folks must again take to the south to go north, travelling some 10 miles out of their way to reach Kerby, just across the river.

A new 15 by 15 feet flat-top roof type lookout tower on Sanger peak will replace the old building there next fire season.

The new structure was completed recently by a Grants Pass carpenter, assisted by Jack Marc who manned the lookout this summer. According to Ray Ellison, district ranger, the old building will be torn down.

Working as lookouts at the remote U.S. Forest Service station this summer were Al Gravatt, Bolan; Jack Marc, Sanger; Dick Knuetson, Canyon and Ron Spencer, Pearsall.

Troop 70 Boy Scouts are planning a field trip Oct. 19 to mines and mineral deposits throughout the county. The all-day trek will be made to assist the boys on work toward their geology merit badges. They will be accompanied by Scoutmaster Bob Breckenridge and Dave Chamberlain.

On Tuesday, Homer Snider and his wife, Fay, drove to Williams, she to visit her mother, Mrs. Bertha Holzhauser, he to chalk up another failure in his battle of the buck.

Future Farmers of America worked Friday on ground cleanup around the vocational agricultural building, while others applied fertilizer to the lawns. This is not only in-the-field training for their course, but made the grounds look considerably better.

A Forest Service crew and their string of pack mules came down out of the hills Wednesday, after finishing their improvement work at Tannen lake. Materials for building the fireplaces and tables were hauled in by the mules.

Mrs. Walter Lamb's home from Josephine General hospital was delayed somewhat Wednesday when her husband rolled his car over on Hayes hill, en route to Grants Pass, to pick up his wife and new daughter, Patricia Darlene. Lamb was not injured.

Recent visitors at the home of Mr. and Mrs. Fred Salvage in Cave Junction, and at Rancho Park golf course on the Cave highway were Mr. and Mrs. Jay Nunnally, of Santa Ana, Calif.

Dale Tucker won the door prize, a rare Dolomite rock from Missouri, at the Illinois Valley Mineral Hobbies club meeting held Tuesday, Oct. 1, at the home of Mr. and Mrs. James Hogue in Kerby. Mrs. Sam Bunch donated the award.

Randy Joe is the name chosen for the new son in the Ed Hubbard family, of Cave Junction. The baby is the fourth grandchild for Mr. and Mrs. S. W. Mickey and the first for Mr. and Mrs. Elmo Hubbard.

Mr. and Mrs. Hugh Foster are doing extensive painting and remodeling at their Foster Court on the Redwoods highway. Most of the cottages are now bright with redwood-colored paint.

Husbands were honored guests at a dinner Saturday night at The Dardanelles, given by members of the local bridge club.

Attending the affair were Mr. and Mrs. Earl Boyd, Mr. and Mrs. Sam Bunch, Mr. and Mrs. R. H. Smith, Mr. and Mrs. Floyd Wells, Mr. and Mrs. Jack Spitz, Mrs. Frank Rauber, Mrs. John Milburn, Mrs. Herb Drews, and Mrs. Drews' mother, Mrs. Bessie Wells, who is visiting her from Los Angeles.

Guests at the Jack Spitz home last week at different times were Mr. and Mrs. Earl Israelson of Corona Del Mar, Calif., and Mr. and Mrs. Al Elliott of Sun valley.

Mr. and Mrs. Leonard Johnson, owners of Twin Pines motel and cafe, plan to make a trip to Phoenix and San Diego as soon as Johnson is able to shed the cast on his arm. He was injured last week.

The Hollywood Scene

By VERNON SCOTT
United Press Writer

Hollywood — Stewart Granger derided his movie career today, saying acting is an unmanly business better suited to women.

"To me a man is a torture," the ruggedly handsome actor says. "Traditionally actors have had to apologize for being what they are—even as I am doing now."

"A man who works with his hands for a living—carpenters, ditchdiggers or bricklayers—never has to vouch for his manhood. Neither do doctors, lawyers or newspapermen. They know they're doing a man's work in a man's world."

But not actors. Our work is play-acting in a world of make believe. And I'm fed up with it. Where does the torture come in?"

Hothouse Flower Feeling
"Standing in front of a camera with a light meter stuck in your face is ridiculous," he grinned. "Standing under blazing lights like a hothouse flower while the crew looks on from the shadows doesn't help either."

Mr. and Mrs. Curly Neil of Takilma, Kathleen Bryant of Cave Junction and Fred Buhler of Takilma are grandparents of twins, a boy and a girl, born Sept. 24 to Mr. and Mrs. Richard Webb of Blue Lake, Calif. The Webb family were formerly residents of Takilma.

"Around the United States" will be featured in the annual fund-raising dinner planned October 11 by the Evergreen Parent-Teachers association.

Three different menus, offering food from the southwest, New England and the west will be offered in the fourth, second and first grade rooms. Dessert of apple pie and ice cream will be sold in the third grade room. Serving is to begin at 5:30 p.m.

The dinner is one of the biggest events in the PTA calendar. Proceeds will go toward the organization's school project, and for the State scholarship fund.

Leaving for San Francisco Friday after a week's visit at the home of Mr. and Mrs. Sam Bunch, was Mrs. Roselle Smith, a sister-in-law of Mrs. Mattie Seyferth, Mrs. Bunch's mother.

Dead Line on Classified Ads: 5:30 p.m. for following day, except 10 a.m. for Monday; for Sunday, noon Saturday.

DU PONT ZEREX® ANTI-FREEZE

PERMANENT TYPE

WITH MR-8 KEEPS YOU

GUARANTEED* SAFE

AGAINST FREEZE-UPS, RUST-UPS ...AND IT WON'T ROT HOSE

HOW MR-8 PROTECTS YOUR CAR

Here's the complete all-around cooling system protection you get with "Zerex," the only permanent type anti-freeze containing MR-8, Du Pont's special chemical rust inhibitor.

1. Works in all waters

Du Pont "Zerex" anti-freeze with MR-8 is compatible with all types of water. Even in hard water the inhibitor stays in perfect solution. Hard water makes the inhibitors used in many anti-freezes precipitate out, materially reducing their protective qualities.

2. Will not rot rubber hose

"Zerex" with MR-8 will not rot or soften rubber hose because it contains no oil. Oil is extremely harmful to some radiator hose, softening or rotting it sometimes in one season. Then the hose may collapse or burst, causing overheating and engine damage.

So don't take chances this winter. See your dealer now and get the complete winter-long protection only "Zerex" with MR-8 gives. It's the premium, permanent type anti-freeze made and guaranteed by Du Pont... your best assurance of quality and satisfaction.

3. Neutralizes all acids

The seven different metals used in modern cooling systems can become corroded when a permanent anti-freeze solution turns acid. However, "Zerex" with MR-8 has extra "reserve alkalinity" that gives winter-long protection from the corrosive action of cooling system acids.

4. Keeps rust in suspension

"Zerex" with MR-8 keeps the cooling systems of today's complex engines clean and free-flowing. Because "Zerex" contains no oil, it does not cause rust to stick to cooling system surfaces and clog radiator passages, which can cause overheating and engine damage.

*DU PONT GUARANTEE

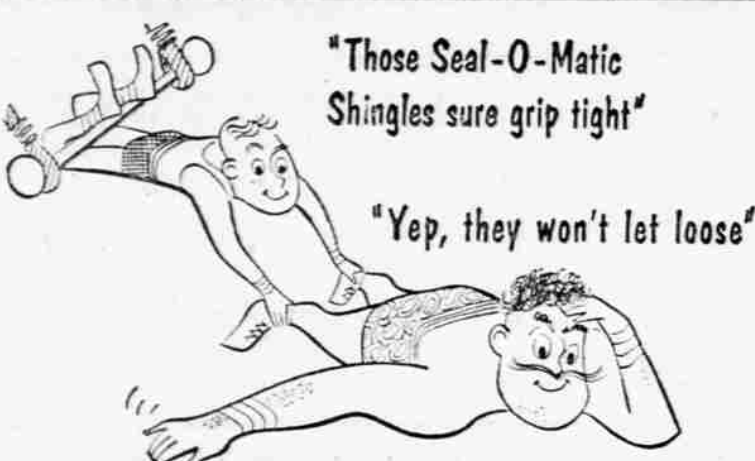

"Zerex"® anti-freeze will protect the cooling system of your car from freezing, rust or corrosion for one full winter—and will not leak out if used in a properly operating, watertight cooling system and if used according to Du Pont directions printed on the "Zerex" container.

Du Pont guarantees too, that "Zerex" will not boil away and can be used with either high- or low-opening thermostats, at high or low altitudes in extreme driving or weather conditions. "Zerex" will not harm rubber hoses, gaskets, pump packing, metal parts of the cooling system or car finish. "Zerex" mixes perfectly with water, flows freely and transfers heat efficiently.
