Luncheon Salad Molds

- 1/2 cup undiluted evaporated milk
- 1 pkg. lime-flavored gelatin
- 1/2 teaspoon salt
- 1/8 teaspoon white pepper
- 1 cup very hot water
- 1 medium-size cucumber, rinsed, pared, grated, and drained (about 2/3 cup)
- 1 cup cream-style cottage cheese
- 1/2 cup mayonnaise
- 1/2 cup chopped green pepper
- 2 tablespoons chopped parsley
- 1 tablespoon prepared horse-radish

1. Set a bowl and rotary beater in refrigerator to chill. Chill evaporated milk in freezing compartment of refrigerator until icy cold.

2. Put gelatin, salt, and white pepper into a bowl. Add hot water and stir until gelatin is completely dissolved.

3. Cool; chill in refrigerator or in pan of ice and water until mixture is slightly thicker than consistency of thick, unbeaten egg white. If chilled in refrigerator, stir occasionally; if chilled over ice and water, stir frequently.

4. Lightly oil six 3/4 cup individual molds with salad or cooking oil (not olive oil); set aside to drain.

5. Mix grated cucumber, cottage cheese, mayonnaise, green pepper, parsley, and horse-radish together. When gelatin mixture is of desired consistency, stir in the cottage cheese mixture.

6. Using chilled bowl and beater, beat evaporated milk until very stiff. Fold into gelatin mixture.

7. Turn into the prepared molds and chill in refrigerator until firm before unmolding. **6 servings**

Note: To unmold, run tip of knife carefully around edge of mold. Invert onto greens on chilled serving plate and remove mold. (If necessary, wet a clean towel in hot water and wring it almost dry; put hot towel around mold for a few seconds. If mold does not loosen, repeat.)
