## ARTHRITIS PAINS

Does this happen to you? You get out of bed in the morning. You feel stiff and aching. You say to yourself: "I wonder if I have arthritis... should I see the doctor?" If your pains are sharp and severe... if they come back day after day... you certainly should. But, if your arthritic pains are moderate... annoying, cursory... just a real nuisance, you should try DOLCIN tablets. DOLCIN® is the world's best-known, most widely-used product specially-made for fast relief whenever such pains of arthritis, rheumatism, sciatica, neuritis or muscular aches occur.

## JUNIOR TREASURE CHEST

### WHAT ANIMAL IS IT? Ruth Dixon

**H**ere is a small animal that naps from October to April. He is fond of grass or clover for breakfast and grass and fruit for dinner. With his strong feet he digs his burrow home with a hall that goes down and up leading to his grass-lined nest. Spring floods can't hurt his home! He has one front door and two back doors so that he can run away when dogs, farmers, or foxes try to get him. If he has to fight, this two-foot-long animal can! When he wants to rest, he can sit on his tail and his two hind feet. He can even close up his little round ears when he is digging so the dirt can't get in. He belongs to the family RODENTIA, but you guess his everyday name. Perhaps you have heard him growl when he is angry or whistle when he is happy.

### Thump-Thump Game

Garne Silke

Sit in a circle and tell everyone to take a good look around the room. Then send one player out while the others decide on changing the position of some small object, or hiding something. Then give one in the circle a cane. (If you are just a few players, each one has a cane.) When the player comes back and starts hunting the object or the change, the leader thumps on the floor with the cane, loudly or softly, depending upon how near or far away the player is from the object. When the object is discovered, another player goes out. This game is very exciting.

### Monkey

Ann Davidow

A monkey's face is flat and wide  
 With big ears showing at each side.

He practices his monkey-shines  
 By swinging in the trees and vines,

By running in three-legged races  
 Making silly monkey-faces,

By climbing on a high trapeze,  
 Or searching in his fur for fleas!
