Stocks Score Third Best Gain of Year

New York—Stocks scored their third best gain of 1957 in an active session today.

At 2 p.m. the industrial average showed a rise of 8.40 points. Last Friday it rose 11.41 points on the cut in the discount rate. The other big day of 1957, was on Oct. 23 when the average soared 17.34 points, its best daily gain since Nov. 14, 1929.

Today's rise which spread throughout the market added more than three billion dollars to the value of listed issues.

Railroad issues joined the rise, unwilling to drop a second time on a poor car loadings report. Steels ruled strong. Allied Chemical and Du Pont each rose more than 3 in the chemicals. American Telephone recovered Wednesday's wide loss.

Dedication of State TV Station Scheduled
Eugene—Gov. Robert Holmes, Chancellor John R. Richards and state and private educators and broadcasters will dedicate Oregon's first educational television station Saturday.

KOAC-TV, Channel 7 at Corvallis, will be formally dedicated by the state system of higher education with a special one-hour program from 6:30 p.m. to 7:30 p.m. Dedicatory programs will originate from studios at both Oregon State college and the University of Oregon.

The station covers an area within a radius of about 40 miles of the transmitter near Corvallis.

Olson said the Case equipment will be in competition with equipment in pulling, power, dirt moving and dirt loading contests. Entries will be limited to the industrial type of tractor, Olson said. Three to four other dealers in Medford have said they would enter equipment, he added.

The public is invited to see the events and to inspect all equipment taking part in the competition. The events will take place in nearby fields, Olson said.

Unander Asks Board To Lower Area Rates

Salem—State Treasurer Sig Unander today asked the federal reserve board to lower the rediscount rate in the 12th federal reserve district.

In a wire to Board Chairman William McChesney Martin Jr., Unander said "economic conditions in the 12th federal reserve district and unsatisfactory conditions in the timber industry in Oregon apparently justify lowering the rediscount rate in the district."

The 12th district includes western states. Last week, the rediscount rate was lowered in four eastern districts.

OIL ROYALTIES
UNBELIEVABLE PROFITS! NO EXPERIENCE NECESSARY! Under a Federal Royalty Oil Companies have been reaping profits from public lands for years. You, too, can profit from this little known opportunity. These speculative leases are unusually attractive because of the booming area in which they are located. Utah's incredible discoveries have led to descriptions of the fabulous Paradox Basin as one of the LARGEST POTENTIAL OIL RESERVOIRS in the country. A total investment of only \$150 (time payments if desired) has a potential pay-off in Royalties which is nothing short of fantastic.
