Satellite Batteries

To Be Powered By Sun

Baltimore, Md. — The United States' baby satellite, to be launched into space sometime next month, will signal the earth with batteries powered by the sun through tiny portholes in the satellite shell, it was announced Thursday.

The Glenn L. Martin company made public a description of the four-pound test satellite which will be fired inside the nose cone of a 72-foot Vanguard rocket. The two part cone will open like a clam shell and drop away before the 6.4-inch diameter satellite is hurled into its orbit. Flexible crossbars which will support the satellite will be ejected also after the third stage of the rocket is fired.

MISSING HEART BEATS

Thousands of people worry about missing heart beats, but they shouldn't, because so rarely does this happen.

happening mean anything to the heart. Often the little extra beats seem to be due to the effects of the nerves on the heart. Usually, the electrical trocandigram shows no sign of disease in the heart muscle. Many years ago, Sir James Mackenzie, the world's greatest heart specialist, collected statistics which showed that people with missing beats do not come to any bad end because of them. I often say that my own father had them from the time he was 45 until he died of pneumonia at 84. I have kept, back of my desk, Sir James Mackenzie's great book on Heart Disease, with a bookmark at the page with the head-

ing, "Treatment of Missing Beats." All that Sir James wrote there was, "The patient must get used to them." Some persons beg for medicine for them, but the medicine, experts tell me, is more dangerous than the disease.

Cystic Mastitis

Hundreds of women want to know what is mastitis and what can be done for it. In the Greek, mastitis means inflammation of the breast. I doubt if anyone knows exactly why some women have enlarged milk glands in their breasts: glands that often hurt, especially around the time of the period. Many thin women have what we call shotty breasts, with chains of little glands that feel like buck-shot.

I have seen cases in which the giving of some thyroid substance helped. Sometimes the woman has poor health generally; often times she is too thin, and often is oversensitive. Many of these women worry about the pain, thinking that this means that they are going to get a cancer. Actually, I doubt if pain in the breast makes the woman more-than-normally susceptible to cancer. I am not sure that chronic mastitis predisposes to cancer.

Striking Operators Vote on Proposal

Pittsburgh — Striking trolley and bus operators of the Pittsburgh Railways company voted today on the latest company offer for settling the longest mass transit strike in Pittsburgh's history.

The 2,200 strikers cast their secret ballots with the recommendation from their leaders that the proposal be turned down.

Gilbert Tietel, business agent for Division 85, Amalgamated Association of Street, Electric Railways and Motor Coach Employees, maintained the 26-cent per hour increase over a three-year period would give the strikers less than they had demanded for two years.

Tietel said he would be prepared to make a counter-proposal to company negotiators if the workers turn down the management plan.

The Pittsburgh Railways offer would boost the operators wages to \$2.40 per hour by Sept. 1, 1958. The present base pay of the strikers is \$2.14 per hour, including a 4-cents cost of living increase.

The loss of company revenue so far in the 47-day strike has been estimated in excess of \$2,500,000 and the wage loss has been set at more than \$1,250,000. The strike has caused 300,000 daily commuters to find other means of transportation to work, school and shopping and has left the greater Pittsburgh area of 1,500,000 persons with no trolleys and only a sprinkling of buses from independent companies.

Political Wrangle Waged in Minnesota

Mankato, Minn. — A junior-size political wrangle was being waged today on the campus of Mankato State college over Abraham Lincoln's head.

Someone stole "Honest Abe's" head from a statue of the Civil War President on the campus a month ago.

The school's Young Republican league sent an open letter to the school paper, laying the theft at the feet of the Young Democrats.

The Democrats submitted a letter of their own, denying they had desecrated the memory of the Republican president, and said they were willing to back up their defense with money.

A cash reward was offered by the Democrats to anyone returning the head. If a Republican is responsible, the Democrats said, the money will go instead to set the head back on the statue's shoulders.

If the head never shows up, on the other hand, the Young Democrats league offered to replace the statue with a new one — a likeness of Franklin Delano Roosevelt.

Air Force Transport Crashes Near Ankara

Istanbul, Turkey — A U. S. Air Force C124 transport plane crashed near Ankara Thursday. Three of its eight crew members were killed and three were injured.

Two escaped unhurt. The accident took place at Cataltepe, not far from the Turkish capital. The plane was flying to Ankara from the U.S. base at Tripoli, Libya.

THIS IS FUN
Whittier, Calif. — Extra officers are patrolling the campuses of Whittier college and Redlands university to stop rival students from shaving each other bald. Perhaps a dozen students of the two schools have received the Yul Brynner treatment for prowling on opposing campuses.
