Won't upset your stomach as aspirin often does

WHEN PAIN makes you feel that you can't possibly go on, remember this:

Bufferin combines aspirin with two special antacid ingredients which make it act *twice as fast* as aspirin alone... to relieve headaches, painful cold miseries, muscular pains and other discomforts.

What's more, Bufferin won't upset your stomach as aspirin often does. You can even take it—as directed—in the continuous doses often needed for temporary relief of minor arthritic pain with no ill effects.

So don't give a headache the time of day. Next time, put faster, safer Bufferin to work and enjoy wonderful relief in just minutes.

If you suffer from the pain of arthritis or rheumatism, ask your physician about Bufferin.
