Portland—A total of 824,216,000 board feet of timber will be offered for sale in the five Oregon and California revested land districts during 1958, Virgil T. Heath, state supervisor of the bureau of land management, has announced.

Some 160,300,000 board feet will be offered for sale in the Medford district, he said. Timber will be offered in 44 tracts of five units in the Medford district.

Largest harvest from the Medford district will be in the North Josephine unit, where 64,500 million board feet in 16 tracts will be offered. Other units include North Jackson, 13 tracts, 55,800 million board feet; South Jackson, 6 tracts, 19,200 million board feet; South Josephine, 4 tracts, 6,800 million board feet; and Klamath, 5 tracts, 14 million board feet.

Pay Television Said Part Of Movement

Washington—The American Citizens Television committee said Friday that pay TV is "a deliberate and well-financed movement" to make Americans pay for what they "are now getting for nothing."

But "pay-TV," it said, "can become an American reality if congress does not pass specific legislation to outlaw it and forestall tests authorized by the Federal Communications commission."

It said Congress will not act "unless the people express their will in tangible terms."

Log Pond Blasted In Search For Boys Missing Three Days

Crescent City—Sheriff's officers touched off a charge of dynamite in a 50,000 square foot log pond Saturday on the chance that the concussion would bring to the surface the bodies of two boys missing since Thursday.

But the blast produced no trace of Timmy Turner, 6, and Patrick Surgeon, 7, objects of an intensive search by more than 200 persons and three bloodhounds.

The pond was located within treacherous swamp land a half mile south of this north coast lumbering community.

Del Norte County Sheriff Oswald Hovgaard said deputies, firemen, police, coast guardsmen, boy scouts and townspeople had made a thorough search of the four square-mile swamp by starting from its perimeter and working toward the center.

Dragging operations and skin divers' efforts also failed to yield "as much as a shoe," the sheriff said.

Checking Mills
"We haven't ruled out the swamp area and if the kids are in there I guess there would be little hope," Hovgaard said. "However, we have begun checking out some of the old abandoned mills and refrigerator rooms around the log swamp area."

The sheriff said the dogs seemed to get the scent of the boys and head straight through the swamp to a parking lot at the end of Second st. in the city where they lost it.

The boys wore only light shirts and jeans, but authorities said the 45 to 50 degree night temperature would not endang-
