

A SALUTE THEY'VE EARNED...

... because as members of the Jackson County Chamber of Commerce they are actively engaged in building for you a better community.

Their membership represents a substantial cash investment over the years toward the attraction of wood-waste using industries; expanded warehousing and wholesaling; improved roads and highways; more tourist and convention dollars; growing income from broader use of water resources — and a dozen other items on the Chamber program.

Their willingness to accept responsibility is making your community a place to be proud of. For example: It was their funds that paid the

cost of the initial research study for a new hospital. It is their money that helped stimulate better airline service and additional Rogue water development studies. It is their money which is being used toward a special study regarding possibilities in the field of wood waste and job stabilization.

These things are important to each of us in Medford and Jackson County regardless of our interests or occupations. Therefore, we think it important that these leading business firms and professional men should receive public acclaim for their continued support of the Jackson County Chamber of Commerce and its basic program. Not all communities are so fortunate.

BOARD of DIRECTORS, JACKSON COUNTY CHAMBER of COMMERCE
