

"If only there had been hobby kits like these when I was young!"

That's what every grown-up says who sees these complete boxed educational outfits —including full-color guide book... real equipment... actual specimens

Adventure with **ROCKS**

It's not hard to get a youngster interested in geology—when you start him off with this collection of 25 *actual* rocks, minerals, and gem stones. Guide book tells dramatic story of rocks and minerals... their uses... differences... where, when, how to find them... rock location guide... jewelry making... everything the young collector wants to know.

Adventure with **BIRDS**

Everything needed to become a young Bird Watcher—one of world's most popular hobbies. Kit contains an easily-assembled pine Bird Feeder... seed for attracting wild birds... and an Audubon Calendar showing when to watch for which species. Guidebook tells of bird habits and characteristics, identifies many species in full color, tells how to "spot" rare species.

Adventure with **SEA SHELLS**

Watch your youngster's eyes pop when he opens this kit and sees the collection of 25 *real* Sea Shells gathered from the Pacific, Atlantic, and Mediterranean. Picture guidebook contains the story of shells... their uses... differences... where, when, how to find them... how to arrange a collection... shell jewelry making... picture identification of over 100 shells... places to see and buy famous shells.

Adventure with **LEAVES**

This kit makes every stroll down a shady street a fascinating Nature walk. Contains washable leaf-printing inks in gold, red, and green; forceps; brushes; leaf-printing paper. Young hobbyist reads in picture guidebook all about trees and leaves, how to identify them, how to make leaf prints, mounting and collecting. Then he makes leaf prints and mounts them in spaces in guidebook.

Adventure with **INSECTS**

Guidebook, magnifier, forceps, and reinforced nylon butterfly net puts the young nature lover "in business" as a collector. Full-color guidebook is a fascinating trip into the insect world... how they live... how they help us... their wonderful "inventions"... how to make a collection... how to identify specimens, with pictures.

Adventure with **COINS**

There's real money inside! A whole fistful of *actual* coins from the Americas, Europe, Africa, Asia... together with magnifier, transparent coin envelopes, coin album, labels, world map, and picture guidebook. Book is filled with money lore and history... how to start, clean, store, use a collection... counterfeit money and how to be a detective... World Currency Guide and other helps for collectors.

REMEMBER how you loved collecting things? But too often you soon lost interest — because there was no friendly expert at your side to guide your explorations, help you choose proper hobby equipment, identify your most thrilling "finds."

These fascinating new ADVENTURE KITS lay the groundwork for lasting interest. For they give your youngster everything he needs for a flying start: full-color illustrated guide book... and equipment or an actual collection of valuable specimens (sometimes *both*).

They teach your youngster more than most general-studies college students know about rocks... birds... shells... leaves... insects... coins. Channel youthful energies constructively. Build self-confidence—give your boy or girl a chance to "shine" in school. Help to reveal natural career aptitudes.

In anticipation of enthusiastic public demand, large quantities of each kit have been prepared, thus making possible the surprisingly low price. Perfect gift for young friends or relatives. For free examination, just check off which kits you want in coupon below — and mail it (without money, if you wish) to: **SIMON AND SCHUSTER, INC., Dept. FP, 630 Fifth Avenue, New York 20, N. Y.**

"A COMPLETE HOBBY IN ONE BOX"
