

STOP PAIN INSTANTLY

COMBAT INFECTION
PROMOTE HEALING

WITH ANTISEPTIC

Campho-Phenique

LIQUID

USE IT FOR

MINOR BURNS, CUTS
SCRATCHES,
ABRASIONS

Quick! Apply Campho-Phenique at once to minor burns from hot cooking utensils, hot water or steam . . . stops pain instantly, promotes rapid healing. The same thing happens when you use it on minor cuts, scratches and abrasions. Campho-Phenique is highly antiseptic. Wonderful for fever blisters, cold sores, gum boils; to relieve itching and to guard against infecting insect bites. Used on pimples, Campho-Phenique helps prevent their spread and re-infection.

FOR ATHLETE'S FOOT USE CAMPHO-PHENIQUE POWDER

In The Yellow Shaker Can

1. Checks Fungus Growth.
2. Prevents Its Spread.
3. Stops Itching.
4. Promotes Rapid Healing.

WAKE UP RARIN' TO GO

Without Nagging Backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling.

For quick relief get Doan's Pills. They work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headaches, muscular aches and pains, 2. by their soothing effect on bladder irritation, 3. by their mild diuretic action tending to increase output of the 15 miles of kidney tubes.

Find out how quickly this 3-way medicine goes to work. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. Ask for new, large size and save money. Get Doan's Pills today!

STOP NEGLECTING

3 FLU OR COLD ZONES

SUPER ANAHIST® brings relief to 3 zones where aspirin-buffering compounds don't work

• Now, five doctor-prescribed wonder drugs are combined in SUPER ANAHIST'S exclusive formula, that counteracts "poisons" released by cold or flu virus. So, SUPER ANAHIST does what aspirin-buffering compounds cannot do! Relieves sneezing, sniffing . . . soothes raw, sore throat . . . eases cough and breaks up chest congestion . . . fast! And SUPER ANAHIST reduces fever, relieves that ache-all-over feeling, helps you resist after-effects of colds or flu. Get SUPER ANAHIST TABLETS throughout the U.S. and Canada.

THE WORLD is full of amateur doctors who think they know the sure cure for everything.

Most of these sidewalk physicians, however, dispense overdoses of misinformation. Are you one of them? Dr. Margaret Lieb of Brandeis University suggests this test to find out how much you know about the virus, smallest enemy of man. If you miss more than three, better go back to pre-med school.

True False

1. A virus is so small it can't be seen under a microscope.
2. Ten thousand viruses can fit on a pin-head.
3. A virus is a complete cell capable of supporting itself.
4. A virus is a tiny envelope of protein containing bad genes.
5. Viruses reproduce faster than bacteria.
6. Any virus can attack any body cell.
7. Measles, influenza, the common cold, and encephalitis are a few of the hundreds of virus diseases.
8. Human skin is a natural protection against viruses.
9. Viruses prefer to live and multiply in sick body cells.
10. A virus can survive indefinitely in the open air.
11. Few of us must ever battle viruses.
12. When the body has produced antibodies to fight off the usual viruses in our environment, we are then safe from any invading virus.
13. Certain viruses can kill bacteria that cause disease.
14. Scientists have not yet isolated individual virus particles for study.

ANSWERS

1. **False.** Under the usual light microscope a single particle of virus is invisible, but it can be seen readily with an electron microscope.
2. **False.** There is room for 1,000,000. One sneeze can release billions of virus particles into the air.
3. **False.** A virus is the most complete parasite in existence. It must feed on living cells.
4. **True.** This envelope enters the body through nose, mouth, or intestine. It attaches to a normal body cell where it sets up a factory and assembles from 50 to 2,000 new envelopes just like the original virus. These viruses then escape and attack new cells.
5. **True.** Viruses reproduce faster than any other known thing.
6. **False.** Viruses are usually very specific. Polio virus thrives only on nerve cells; hepatitis virus on liver cells; pneumonia virus on lung cells, etc.
7. **True.**
