

## Jayne Mansfield, Mickey Hargitay To Marry Tonight

Palos Verdes Estate, Calif. — Platinum-tressed Jayne Mansfield packed her bikini-less trousseau today in a flurry of last minute preparations for her wedding tonight to Mickey Hargitay, former Mr. Universe.

The nation's favorite pin-up girl will exchange vows with the broad-shouldered Hargitay in a candlelight ceremony at the modernistic Wayfarer's chapel of the Church of New Jerusalem at 8 p.m. (pst).

The Rev. Kenneth W. Knox will conduct the non-denominational rites.

Jayne's mother, Mrs. Harry L. Peers of Dallas, Tex., is matron of honor. Best man will be Ross Christina, Indianapolis businessman.

**Two-Year Courtship**  
The glamour girl's marriage climaxes a two-year courtship and follows the finalization of her divorce last Wednesday from Dallas public relations man Paul Mansfield.

Famous for her plunging necklines, the 24-year-old bride says she will not take a bikini swim suit (the trademark that launched her career) on her honeymoon. Her wedding gown is also conservative — a high-necked, long-sleeved creation by Charles LaMaire, wardrobe director at 20th Century-Fox studios.

Steve Cochran, the Bob Cummings, Joan Collins, Jack Warner and Darryl Zanuck. Gov. Goodwin J. Knight sent regrets that he would be unable to attend.

**Only Personal Friends**  
"I've invited only personal friends, from hairdressers to producers," the smiling bride said before leaving for the church. "They come from all walks of life. A lot of them are newspapermen."

"Mickey and I want a serious, beautiful wedding," Miss Mansfield declared. "We don't want a lot of fuss or publicity. I'm so happy I hope nothing spoils the solemnity of the occasion."

Immediately following the ceremony the couple will fly to Dallas where a reception will be held Tuesday at the Peer's home. Wednesday the newlyweds will fly to Miami, Fla., to honeymoon at the plush Eden Roc hotel until Jan. 19.

JANE MANSFIELD and Mickey Hargitay are shown in their wedding garments shortly before their marriage in Palos Verdes, California. (International Soundphoto)

**READY FOR NEW ROLE** — Actress Jayne Mansfield models the pink lace gown she will wear when she is married to muscleman Mickey Hargitay in Palos Verdes, near Hollywood. Charles LaMaire designed the gown.

## Industrials, Rails Decline on Average During Past Week

By ELMER C. WALZER  
United Press Financial Editor

New York — Industrial and railroad shares declined on average during the past week on the stock market and so did Standard & Poor's index of 500 stocks, but more issues gained than lost among those traded.

The apparent anomaly reflected the fact that a few key issues of the industrial group fell a point or two and only a few rails had wide declines, each group falling after one good day of advance.

It was a quiet market — a daily average volume of 2,230,680 shares, against 3,266,795 shares in the previous week which included two days of 1957, and 2,371,810 in the corresponding week of last year when industrials fell 4.44 points and rails gained 0.91 point.

Also, the trading narrowed to 1,387 issues, lowest since the week ending Nov. 8, 1957, when there were 1,379 issues

traded. Of this week's total, 724 gained while 529 declined and 134 held unchanged. The industrial average touched a high of 447.70 where it was about 2 points under the recovery high of Nov. 29, and closed the week at 438.68, off 5.88 points from the previous week.

Rails closed at 100.16, off 3.27 points on the week after touching 103.28, less than a point away from its Nov. 29 close.

Utilities touched 70.23, a new high since July 25, 1957, and closed the week at 69.94, up 0.48 point.

Some of the utilities made new highs for 1957-58. Altogether, 34 issues on the board set new 1957-58 highs while 16 made new lows.

Leadership in volume went to the aircrafts of which there were six issues in the 20 most active stocks. Top position went to North American Aviation with General Dynamics second, Standard Oil N. J. third, Bethlehem Steel, fourth and General Motors, fifth.

As the week ended the market was slightly higher than it was at the end of December — up 2.99 for industrials, up 3.20 for rails, and up 0.36 for utilities.

On Tuesday, industrial issues spurred 5.23 points, featured by defense issues which spurred when President Eisenhower asked for more than a billion dollar addition for missile development. There was another rise in the defense group before the President delivered his state of the union address. That address disappointed the inflation-minded and a decline set in.

That decline carried over into the Friday session which resulted in substantial losses in the averages.

Most of the aircrafts managed to show gains, running to more than 3 points in Bendix Aviation.

Steels lost as a group with Lukens off more than 4. Good-year fell 4 in the tires. Corning Glass was down nearly 5 in its section and other building issues receded.

Probably the hardest hit of any minor group was the drug section where losses ranged to 7 points in Smith, Kline and French.

Metals, still suffering from price weakness, were depressed, many to new lows. Chrysler fell more than 2 in the motors. Cement shares netted some good gains on road building talk. Oils were unsettled by price troubles.

Six ushers, all employees of 20th Century-Fox, where Jayne is under contract, will seat 100 invited guests. Among those receiving pink invitations to the ceremony were a glittering array of luminaries, including the Jack Bennys, Bob Hopes, Buddy Adlers (Anita Louise) actor

## Official Elected By Teamster Group

Portland — Lew Cornelius, Portland, has been elected secretary-treasurer of the Oregon Joint Council of Teamsters. He election gave the council executive board a four-to-three margin of officers who opposed the election of James R. Hoffa as national president.

Cornelius succeeds R. R. Mikesell of Vancouver, Wash., who no longer represents his local on the council.

Council members also elected Fred Lowe, Eugene, as recording secretary, succeeding Clyde C. Crosby, international organizer who resigned to devote full time to the international union. Lowe, a Hoffa supporter at the Miami convention, defeated Ward Graham of Salem for the post.

A new telephone permits five persons to confer, requires no operator and offers 90 combinations through a dial. It can also handle incoming and outgoing calls.

## What Is The Law?

This column is prepared as a public service by the College of Law, Willamette University, Salem, to explain basic legal principles, not to provide legal advice. The reader is cautioned not to apply these cases to his own problems without an attorney's advice, for differing facts may change the outcome.

Joe Doaks drew a \$50 check payable to "Cash" and used it to pay his gasoline bill. The check was so drawn that a figure could be inserted between the dollar sign and the figure "5." On the line where the word "fifty" appeared there was room to the left to insert several words.

When the bank returned the check with the monthly bank statement, Joe was amazed to find that someone had raised the amount to \$150. He immediately notified the bank and investigation established that the bank had cashed the check in the sum of \$150 after the alteration had been made by the unknown defrauder.

Later Joe discovered that another of the checks returned with the bank statement had also been altered and the amount raised from \$25 to \$250. In this instance, however, Joe had filled all the blank spaces and the alteration had been accomplished by erasing the words and figures and inserting the amount of \$250. The bank had paid the full amount of this check — \$250.

**The Bank vs. Joe Doaks**  
Does the bank have the right to charge Joe's account for the full amount of each check? In the case of check No. 1, the present state of the law permits the bank to charge the account of the check writer for the full amount of altered check No. 1 or \$150.

The contract of deposit protects the bank under such circumstances. An implied term in the contract of deposit imposes upon the depositor the duty to use care in the drawing of his checks. The drawing of a check which invites change by the simple insertion of words and figures constitutes a violation of this contract of deposit. A resulting loss is chargeable to the writer of the check.

However, if the check is properly drawn (as was check No. 2) and the alteration is made by erasures and substitutions, that is, under circumstances where the check writer is not negligent, the bank may not debit for the full amount. Thus with check No. 2, the bank is authorized to charge Joe's account only with the \$25 for which the check was originally drawn.

**GREATER SOVIET RISKS**  
Montgomery, Ala. — Maj. Gen. H. N. Toftoy, commander of Redstone arsenal, says Russia will take even greater risks than in the past now that she has the capability for mass destruction. Addressing the mid-winter conference of the Alabama Department of the American Legion Sunday night, Toftoy said America's monopoly on atomic weapons in the past kept limited was localized, "but the situation has changed."

## CRASH KILLS ELEVEN

Lima, Peru — A military transport plane missing since Jan. 8 has been found smashed on a mountain peak in the Amazonas province, the air force announced Sunday. The eleven persons aboard, seven passengers and four crewmen, were killed.

## GOP Committee Reported In Red

Washington — The Republican National committee wound up 1957 in the red, it has been revealed. Its Democratic counterpart finished with a small surplus.

The GOP committee had a deficit of \$303,912. It received \$827,112 in contributions and spent \$1,131,024.

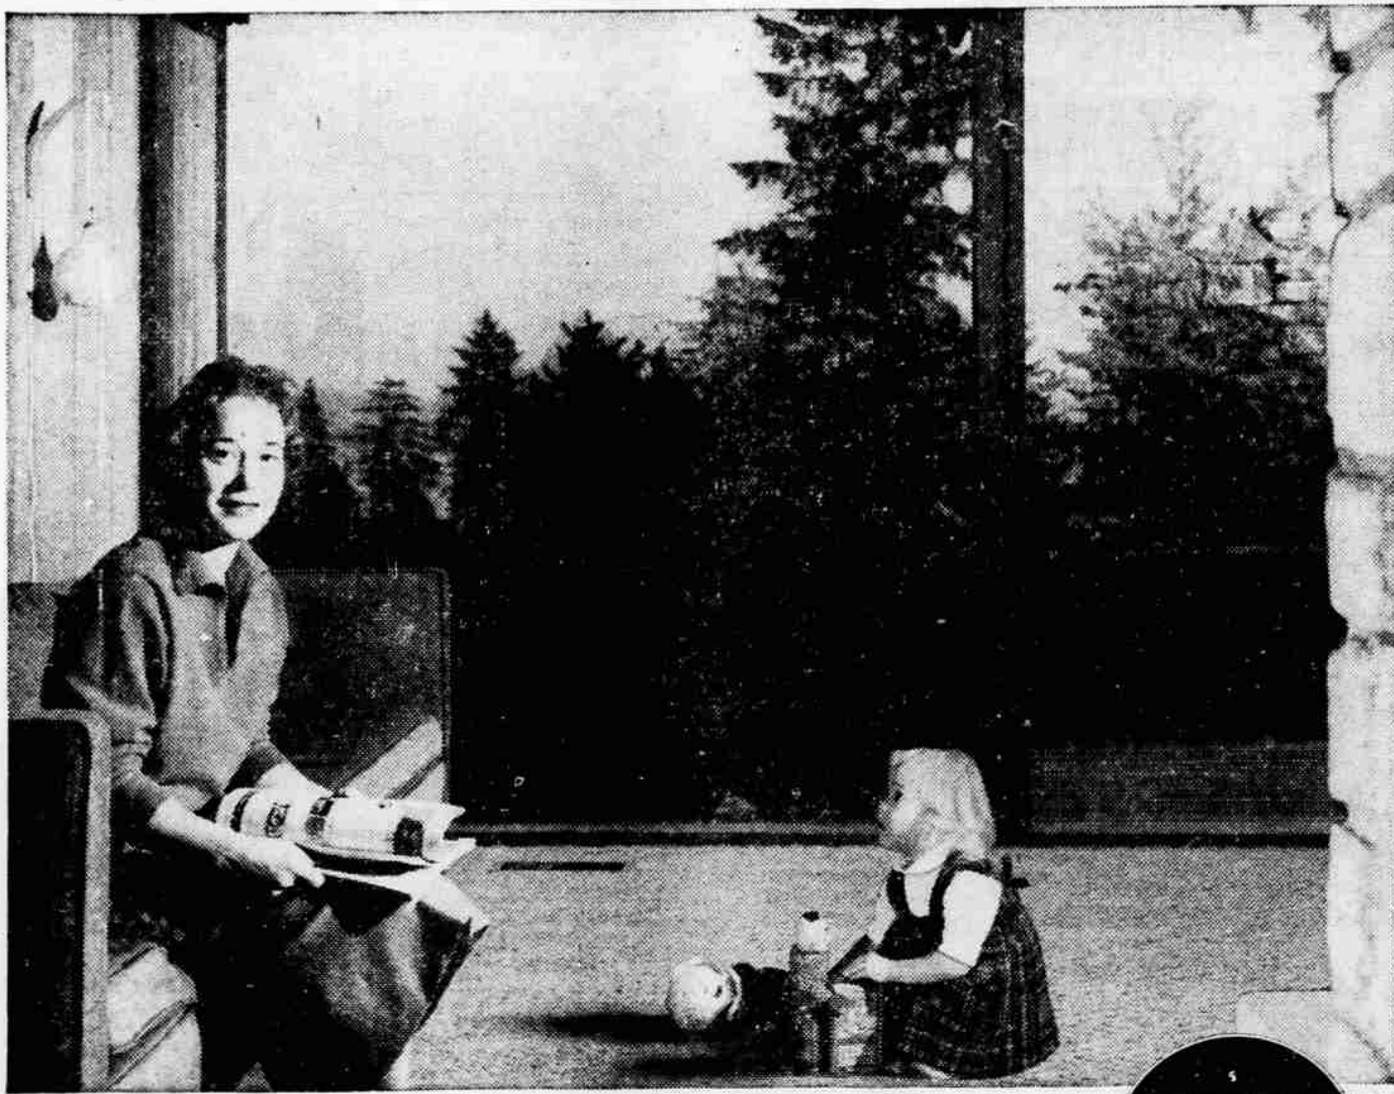

The Democratic committee had a \$6,766 surplus. It received \$824,535 in contributions and spent \$817,769.

The figures were disclosed in financial reports filed with the clerk of the house, as required by law.

The Republican committee received \$779,775 in gifts of \$100 or more and \$47,336 in less than \$100. Thus, more than six per cent of its contributions were small.

The Democratic committee received \$543,795 in contributions of \$100 or more and \$177,990 in less than \$100. Not quite 33 per cent of this total was in small gifts. This committee also listed a little more than \$102,000 in "other receipts."

Cost of converting sea water to fresh water is reported to have been reduced from \$1.50 to 60 cents per 1,000 gallons.

"Imagine only \$11 a month for heating!" says Mrs. Joseph Cipriano, 9024 45th NE, Seattle. "We're certainly glad we decided on an oil furnace when we built our home. We're all for Standard Heating Oil, too. We've used it from the start and we think it gives us more real heat for our money! Standard's Housewarmer service is wonderful, too — they take care of all our heating needs."
