Designer Advises On Clothing

By GAY PAULEY
United Press Women's Editor

New York—(AP)—Memo to husbands:—If you pay for the missus' clothing, you may as well have a say in what she buys. Who knows... you may help her onto one of those annual best-dressed lists.

Harvey Berin, a leading manufacturer-designer and a husband for 30 years, offered a 10-point program for the man lost in the wilderness of sack versus sheath, the correct skirt length, and whether fire engine red can be considered a basic color. He advised:

Don't let your mind wander when your wife begins to talk about new clothes. Remember the pleasure you get out of seeing her look pretty, and the pain—mostly financial—of her mistakes.

Don't let her "freeze" in the type of clothes she wore when you first knew her. Time and fashion march on.

Accept the fact that she has the right to experiment with a new trend, but if the result was a mistake, tell her why you think so.

"Type" her in your mind. Maybe she's the Irene Dunne, the Duchess of Windsor or Audrey Hepburn type. Anyway, whatever she is, it will help you visualize the kind of clothes most becoming to her.

Encourage her to greater simplicity in dress. Women usually are too fussy.

Police her color choice. In general, dark or neutral colors are safer for daytime; bright colors and pastels make her look prettier at night.

Police her accessories. The success of a costume depends also on the right shoes, hat, handbag and gloves.

When she walks into a room in front of you, check to see if the new garment fits properly. You expect her to do the same when you buy a new suit, don't you?

Sales Tax Favored To Benefit Schools

Eugene—An education tax to help defray the cost of operating Oregon schools was suggested by State Sen. Walter Pearson, Portland Democrat, at a recent legislative tax interim committee meeting here.

The hearing was the first of a series in a study of the state's tax structure.

Pearson declared that the present tax structure could not indefinitely carry the burden of increasing education costs. The Senate Democratic leaders and other Oregon Democrats have traditionally opposed a sales tax but Pearson said more revenue would have to be found for school purposes. The Pearson plan would remove schools from the property tax and income tax fields.

The interim committee will conduct other hearings about the state and then will draft proposed tax legislation for the 1959 legislature.

Parachutes would be useless on the moon, because it has no atmosphere.
