TOP-HEAVY WITH BRASS

London — A British newspaper, the Sunday Graphic, claims that in this age of push-button warfare, British armed services have too much brass to push the buttons. It said Sunday the British army has 132 generals—10 to each guided missile. The Graphic added that the situation is the same in the conventional arms category: The British navy has 114 admirals — and only 85 warships, the Royal Air Force 100 air marshals — and only 200 jet bombers.

ILLINOIS VALLEY Scout Group Organized

By HELEN BOTTEL

Cave Junction—A Webelos den, sponsored by Immanuel Methodist church, was organized Tuesday evening, under the leadership of Assistant Cubmaster Ron Prather.

Over a dozen boys signed up for the group, which will concentrate on learning requirements for Tenderfoot scouts.

The den will meet each Tuesday at the church. Cubmaster Bob Breckenridge assisted in getting the club started.

Blue Star Mothers will hold election and installation of officers next Tuesday afternoon at a 1:30 p.m. meeting to be held at the home of Flossie Hamilton in Selma.

A fall at his home at Trail's End motel this week resulted in a head injury and hospitalization for motel owner William Schenck.

New residents in the valley are Mr. and Mrs. Leonard Staples and four children, who have moved in to a house at Lone Mountain Valley; and Mr. and Mrs. Charles Coleman and two children of Cave Junction.

John and David Staples attend Kerby school, while one of the Coleman children, William, is a student at Kerby. The other is enrolled at the high school.

Mr. and Mrs. R. T. McNichols of Medford, sister and brother-in-law of Blake Miller, were guests at the Miller home on the Caves highway Monday and Tuesday.

Mr. and Mrs. Tom Duncan, formerly of the Paint Pot, are putting the finishing touches on Immanuel Methodist church woodwork and moldings this week.

A work day, to be held on the Thursday of each month following the Women's Society of Christian Service meeting, was planned at the regular WSCS meeting last Monday night. Members will do general clean-up jobs.

A petition opposing pay television and signed by well over 50 Illinois Valley people, has been sent to Senator Richard Neuberger. It was circulated by Herbert E. Gage of Cave Junction.

Again this year what is locally known as "COPCO's cloud-buster" is in operation in the Lester Tythcott backyard at Cave Junction.

The cloud seeding machine was turned on this week after storms were reported over the Crater Lake mountain area. Sending out silver iodine fumes, which mix with clouds drifting toward the mountain regions, the machine objective is to create heavier snow storms, and thus heavier summer water supplies.

The annual meeting of the Illinois Valley Soil Conservation district is planned for Saturday afternoon, March 15. A speaker from the Soil Conservation Service is being arranged for by Conservationist Loyd Burnett.

A birthday party, sans honorees, made a novel twist for the O'Brien Birthday club's monthly get-together Wednesday.

Mrs. Alex Lee, one of the January birthdayites, had been called to Central Point by the illness of her son. The other honored "guest" was Mrs. Mildred Luttrell, who left recently with her family for Oakland, Calif.

Pink and white decorations set the theme for a "coming event" shower given for Mrs. Fred Guffey, the former Roberta England, Wednesday afternoon at Immanuel Methodist church.

Co-hostesses Mrs. Gilbert Clayton and Mrs. James Payne were assisted by Mrs.

Productivity Up During Last Year, Eisenhower Says

Washington — Productivity increased by about 2 per cent throughout the economy last year, President Eisenhower's economic report said today.

In his message to Congress accompanying the report, the President declared that labor leaders "must recognize that wage increases that go beyond over-all productivity gains are inconsistent with stable prices."

He said that "wage increases that involve either higher prices or a further narrowing of the margin between prices and costs" may retard "the resumption of economic growth."

Below Average

"Productivity" is the technical term for output per man hour. The 1957 increase was greater than that for 1956, the report said, but will be below the past-1947 average of 3.7 per cent annual gain.

In farm work productivity jumped 5 per cent last year and in non-farm industries the gain was 1.4 per cent. In 1956 the non-farm rise was less than 0.3 per cent.

Manufacturing posted a raise of 0.8 per cent. In non-manufacturing lines—such as retailing, transportation and personal services—productivity went up 1.6 per cent.

The greater increase in the non-manufacturing sector was contrary to the 1947-56 pattern which saw manufacturing productivity average 3.2 per cent a year higher and the non-manufacturing figure go up by 2.6 per cent a year.

Over the last several decades, the report said, output per man-hour for the economy as a whole has improved by an average of about 2 per cent a year. But from year to year, the improvement has been irregular.

Mr. and Mrs. Carl Olson of Imperial Beach, San Diego county, Calif., have announced the engagement of their daughter, Carole, to Darrell D. Smith, son of Mr. and Mrs. Lloyd E. Smith of Cave Junction.

Smith, who is now serving in the U.S. Navy at San Diego, was a graduate of Illinois Valley high school with the class of 1956. His fiancée is a senior at Mao Vista High school, San Diego. No date has been set for the wedding.

An August wedding is planned for Miss Marcia Findlay of Medford and Edward Marmolejo, son of Mr. and Mrs. Marmolejo of Selma.

The announcement was made by Mr. and Mrs. Archie Findlay at a party given at the home of Arnold Findlay, brother of the bride-elect.

To lead the Mothers March of Dimes in the Illinois Valley is Mrs. Joe Hudron, who has been appointed by local MOD chairmen, Dr. Joseph Meyer and Marshall Burrows.

Mrs. Ralph Messenger, who was recently appointed Josephine County chairman of the Arthritis and Rheumatism foundation membership drive, has announced her co-chairman as Mrs. Chester Flory of Grants Pass.

WARM IN REFRIGERATOR

New York — The Marinaccio brothers, Charles, 25, and Dominic, were warmer inside a refrigerator room Sunday than New Yorkers on the city's streets. The Marinaccios were inspecting the room when the door locked, trapping them for four hours. A policeman finally heard them pounding out the door and freed them. The experience may have been confining, but as far as the weather was concerned they were not bad off. The temperature was 32 degrees inside the refrigerator room during the hours they were trapped — 11 degrees warmer than outside.
