Morgan Challenges Bus Fare Increase

Portland—A proposed hike in city bus fares from 20 to 25 cents a ride was challenged Tuesday by Oregon Public Utility Commissioner Howard Morgan.

Morgan said the city of Portland, in granting the fare hike, had not complied with an Oregon statute which requires that the fare increase contract be submitted to him and which gives him 90 days to study it. He said that if the public utilities commissioner files objections, the ordinance cannot become valid unless ratified by voters of the city.

City officials had no immediate comment.

The fare hike is scheduled to go into effect Sunday.

ILLINOIS VALLEY City Makes Bond Payment

By HELEN BOTTEL

This leaves the city's water bond debt at \$51,800, divided into three issues, \$25,500, \$14,000 and \$12,000 respectively.

An extension of the city's water line to include the Illinois Valley Ranger station is underway and ditching work is being done by Ranger station employees. According to Watermaster Art Drews, service will probably be started by the first of February.

An unusual problem confronted members of the Josephine county-unit school board recently when Coos county school officials notified them a family was moving into the upper reaches of the Illinois river canyon, some 40 miles of winding dirt roads away from the nearest high school.

As two sons in the family are of high school age, Coos county asked the local school board to consider either paying for extension courses or room and board for the boys at a point nearer Cave Junction.

After considerable discussion the board turned down the request. Yet unsolved is the question of how the boys will get a high school education.

Taking their DeMolay degree at a district meeting at Central Point last week were four boys from the local Redwoods chapter, Wendell Seat, John Wurn, Bob Ellstrom and Dennis Bottel. Oris Seat and Les Hoff went over with the boys.

Three Eagle Scouts of Troop 20, Gary and Loren Meredith and Stan Love, stood behind young Hanby as he received his award, which is the last rung of the ladder before the Eagle rank.

YOU SHALL SEE

GROWN-UPS:

Polio virus pulls no punches.

It grants no leniency to the young father who "planned" to be vaccinated . . . but let it slide.

It shows no mercy for a housewife too busy to be vaccinated or have her children given shots.

Polio can come when you least suspect it . . . to shatter your family . . . to bring tragic disaster to your children.

One shot doesn't give maximum polio protection. Three injections are needed. Have you and your children had

the full course?

It takes 8 months for maximum protection. Polio shots are spaced this way: the second is given two to six weeks after the first and the third is given seven months after the second. Set up your immunization schedule now. Check with your physician or local health department.

By acting now you can help stamp out paralytic polio—its threat to your home, your community and your country.

DON'T PRESS YOUR LUCK!

START YOUR POLIO SHOTS NOW!
