Northeast Whipped By 50-Mile Winds

By UNITED PRESS The last gasp of winter's most devastating storm whipped the northeast corner of the nation with winds up to 50 miles per hour today, and its possible successor began building up in Northern Mexico.

The storm, which blanketed the Midwest with up to 18 inches of snow and drifts several feet deep, hammered the Northeast during the night with high winds and light snow in the Northern Appalachians and the interior of New England.

Earlier, parts of New England were hit by flooding rains which forced the closing of some schools. Rain continued during the night along the northern coastal sections. Meanwhile, a storm center in Mexico today spread rain into Central Texas and dumped two inches of snow at Alpine, Tex. Weathermen said the storm center was intensifying.

Industrial Shares Up in Quiet Market

New York — Firmness in motors, tobaccos, chemicals and special issues lifted industrial shares higher in a quiet stock market today.

Rails managed to register a small average gain despite another year to year decline in car loadings. Utilities dipped slightly on profit-taking. The main list generally held in a narrow range while the wider changes centered on the special issues.

In addition to the dip in car loadings the market had to contend with further softening in copper prices, poor earnings for Pennsylvania Railroad, and a decision of Detroit Steel management to defer the dividend declaration until the next directors' meeting.

Far East Target of Soviet Campaign

Tokyo — The Soviet Union has opened a massive campaign of economic penetration in the Far East. Russia's economic wooing of Asia's underdeveloped countries came into sharp focus at the trade meeting of the United Nations Economic Commission for Asia and the Far East (ECAFE) this week at Bangkok.

The Soviet Union, previously conducting economic infiltration of individual Asian countries, made its first blanket "no-strings" offer of aid to Asia at the Afro-Asian "People's Conference" in Cairo this month.

It followed this up by offering a loan of \$100 million to Indonesia where Western observers already had expressed fear of Communist encroachment.
