Weakness, Strength Feature Stock List

New York—Weakness in Foster Wheeler and strength in Thermoid featured an irregular stock market today.

Foster Wheeler fell nearly five points on omission of its dividend. Thermoid was very active with one block involving 53,600 shares at a gain of nearly a point. Thermoid was said to be the target of bidding by several companies.

So far as the averages were concerned the market got nowhere. Utilities ruled firm while industrials and rails lost a tiny mite.
